

## Psychology Carole Wade And Carol Tavris

An overview of psychology that emphasizes critical thinking, gender, and culture REVEL(TM) for Psychology is designed to help students learn to think like psychologists, and to understand why scientific and critical thinking is so important to the decisions they make in their own lives. In keeping with their hallmark approach, authors Carole Wade and Carol Tavris, along with new contributor Alan Swinkels, continue to emphasize critical thinking and to integrate coverage of gender and culture throughout the main narrative. REVEL for the Twelfth Edition offers revised learning objectives that better guide students through the text as well as updated research references that reflect progress in the field and cutting-edge discoveries. REVEL is Pearson's newest way of delivering our respected content. Fully digital and highly engaging, REVEL replaces the textbook and gives students everything they need for the course. Informed by extensive research on how people read, think, and learn, REVEL is an interactive learning environment that enables students to read, practice, and study in one continuous experience - for less than the cost of a traditional textbook. NOTE: This Revel Combo Access pack includes a Revel access code plus a loose-leaf print reference (delivered by mail) to complement your Revel experience. In addition to this access code, you will need a course invite link, provided by your instructor, to register for and use Revel.

This access code card gives you access to all of MyPsychLab's tools and resources, including a complete eText of your book. You can also buy immediate access to MyPsychLab with Pearson eText online with a credit card at [www.mypsychlab.com](http://www.mypsychlab.com). Emphasizes critical thinking, culture, and gender Invitation to Psychology, 5/e, shows students why scientific and critical thinking is so important in the decisions they make. In clear, lively, warm prose, this edition continues the title's integration of gender, culture, and ethnicity. By the end, readers will learn how to interpret research and to address and resolve controversies. MyPsychLab is an integral part of the Wade/Tavris/Garry program. Engaging activities and assessments provide a teaching and learning system that helps students think like a psychologist. With MyPsychLab, students can watch videos on psychological research and applications, participate in virtual classic experiments, and develop critical thinking skills through writing. This title is available in a variety of formats -- digital and print. Pearson offers its titles on the devices students love through Pearson's MyLab products, CourseSmart, Amazon, and more.

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- Emphasizes critical thinking, culture, and gender Invitation to Psychology, 6/e, shows students why scientific and critical thinking is so important in the decisions they make. NOTE: REVEL is a fully digital delivery of Pearson content. This ISBN is for the standalone REVEL access card. In addition to this access card, you will need a course invite link, provided by your instructor, to register for and use REVEL.

For one-semester introductory psychology courses in both two- and four-year colleges. Prentice Hall presents the Sixth Edition of one of the most widely-adopted introductory psychology textbooks on the market. It is well-known for its pioneering focus on the development of critical thinking skills crucial to students' success in college and in later life. It is also widely regarded for the liveliness, warmth, and clarity of its writing style, and continues its tradition of integrating gender, culture, and ethnicity throughout the text while providing a comprehensive introduction to

the field.

For undergraduate introductory courses in psychology. In this brief, thirteen-chapter text, authors Carole Wade and Carol Tavris draw upon their years of writing experience--both for academic and lay audiences--and on their years of teaching at two- and four-year schools, in order to invite students into a lively and relevant exploration of psychology. With Invitation to Psychology, students gain the skills they need to become successful critical and scientific thinkers, and actively bring these skills to bear on important matters in their own lives!

Ask questions and be willing to wonder Revel(TM) Invitation to Psychology, 7th Edition weaves scientific thinking and critical thinking into the fabric of psychological science. Joining longtime authors Carole Wade and Carol Tavris, new co-authors Samuel Sommers and Lisa Shin (of Tufts University) call upon their research and teaching expertise to speak to today's students. Their contributions include expanded gender coverage as well as engaging new cultural and pop-cultural examples. By prompting students to separate fact from fiction and to distinguish wishful thinking from thinking wisely, the authors inspire students to ask questions and be willing to wonder -- and help them become 21st-century thinkers. Revel is Pearson's newest way of delivering our respected content. Fully digital and highly engaging, Revel replaces the textbook and gives students everything they need for the course. Informed by extensive research on how people read, think, and learn, Revel is an interactive learning environment that enables students to read, practice, and study in one continuous experience -- for less than the cost of a traditional textbook. NOTE: Revel is a fully digital delivery of Pearson content. This ISBN is for the standalone Revel access card. In addition to this access card, you will need a course invite link, provided by your instructor, to register for and use Revel.

Revel is ideal for courses where student engagement and mobile access are important.

This selection of opinion essays and book reviews by Carol Tavris--written for The Los Angeles Times, The New York Times, Scientific American, and other publications--applies psychological research and principles of scientific and critical thinking to issues in the news. As readers work their way interactively through the essays--thinking through the author's position and their own on the various issues, they engage and strengthen their critical thinking skills--e.g., asking questions and wondering; defining terms; examining the evidence; analyzing assumptions and biases--one's own and those of others; avoiding emotional reasoning; not oversimplifying; considering other interpretations; and tolerating uncertainty. Focuses on important areas such as Science vs. Pseudoscience, Controversies in Child Development, The Politics and Science of Gender Research, Applying Psychology to Social Issues, and Mental Disorder and Treatment. Individual essay topics include, for example, The Popularity of Predictions; Thinking Critically About Alternative Medicine; Thinking Critically About Mystical Messages; The Working Mother Debate; How Much Influence Do Mothers Have?; How Much Influence Do Parents Have?; How Critical Are the First Years of Life?; The Interpretation of Differences; The Paradox of Gender; Biological Politics and the Study of Gender; Emotional Epidemics and Their Consequences; The Daycare Sex-abuse Scandals; Adolescent Violence; The Limits of Medication; and Thinking Critically About Psychotherapy. For anyone who wants to explore the psychological basis of current popular culture issues and to engage in, and strengthen, the critical thinking skills. Well-known for its pioneering focus on the development of critical thinking skills crucial to students' success in university and in later life, Psychology by Wade, Tavris, Saucier and Elias is also widely regarded for the liveliness, warmth, and clarity of its writing style. Continuing its tradition of integrating gender, culture, and ethnicity throughout the text, Psychology provides a comprehensive introduction to the field.

You can purchase this loose-leaf print reference to complement Revel(TM) Invitation to Psychology. This is an optional purchase. This companion text weaves scientific thinking and critical thinking into the fabric of psychological science. Joining longtime authors Carole Wade and Carol Tavris, new co-authors Samuel Sommers and Lisa Shin (of Tufts University) call upon their research and teaching expertise to speak to today's issues. Their contributions include expanded gender coverage as well as engaging new cultural and pop-cultural examples. By prompting you to separate fact from fiction and to distinguish wishful thinking from thinking wisely, the authors inspire you to ask questions and be willing to wonder - and become a 21st-century thinker. This text highlights the importance of critical thinking and the inclusion of culture and gender in the science of psychology. Through lively writing and stimulating examples, the text invites students to actively explore the field of psychology and the fundamentals of critical and scientific thinking. Invitation to Psychology presents the science of psychology according to six areas of the student's experience: Your Self, Your Body, Your Mind, Your Environment, Your Mental Health, and Your Life. This unique organization engages students from the very beginning and gives them a framework for thinking about human behavior. Hallmark features of this best-selling introductory text include active learning features, an emphasis on critical thinking, a balance of classic and contemporary research, and thorough integration of culture and gender. Revel is ideal for courses where student engagement and mobile access are important.

Includes bibliographical references and index.

When "man is the measure of all things," woman is forever trying to measure up. In this enlightening book, Carol Tavis unmaskes the widespread but invisible custom -- pervasive in the social sciences, medicine, law, and history -- of treating men as the normal standard, women as abnormal. Tavis expands our vision of normalcy by illuminating the similarities between women and men and showing that the real differences lie not in gender, but in power, resources, and life experiences. Winner of the American Association for Applied and Preventive Psychology's Distinguished Media Contribution Award
