In this book, Hoyk and Hersey describe 45 "unethical traps" into which any one of us can fall. These traps, they say, can erupt in any organizational environment. Some of these traps distort our perception of right and wrong—so we actually believe our unethical behavior is right. Many of them are psychological in nature, and if we are not aware of them they are like illusions—webs of deception. In the authors' analysis, these traps significantly contributed to the large-scale corporate disasters we witnessed in recent years. Hoyk and Hersey take account of these realities and offer a "real-world" method that will predict, preclude, and, if necessary,

As Christians, we are to love God with all of our being--heart, mind, soul and strength. But many of us tend to overemphasize one aspect or another, and as a result, our faith becomes imbalanced. Some of us have an intellectual faith but lack compassion or spiritual discipline. Others of us have a vibrant, heartfelt relationship with God but lack commitment to truth or doctrine. And many of us overlook translating our faith into service and ministry. In this book ethicist Dennis P. Hollinger presents a holistic, integrative vision for reuniting Christian thought, passion and action. He shows how individuals, churches and movements throughout history have focused on either the head, or the heart or the hands--often to the exclusion of other expressions. But by linking our intellect, emotions and actions, Hollinger points us toward a whole faith for the whole person, where each dimension feeds, nurtures and sustains the others. The seventh edition of Exploring Psychology in Modules includes all the features and up-to-date content of the current edition of Exploring Psychology organized into 45 modules.

In this sure-to-be controversial book, former seminary professor and church official Jack Rogers argues unequivocally for the ordination of homosexuals and for the extension of full and equal rights in society to all people who are homosexual. Christianity, he observes, has moved through history in the direction of ever-greater openness and inclusiveness. Today's church is led by many of those who were once cast out: people of color, women, and divorced and remarried people. It is inevitable, he believes, that gay, lesbian, bisexual, and transgender people will one day walk in the same steps as other Christian leaders. Rogers, an evangelical, begins by discussing his own personal change of heart and mind on the issue, a change that has moved him into the middle of this controversy in his own church, the Presbyterian Church (U.S.A.). He examines how the church misused the Bible to justify slavery and the denial of rights to women, and links these efforts to efforts today to use biblical texts to deny equal rights to gays and lesbians. He shows how neither the Bible nor the Confessions are opposed to homosexuality and debunks frequently used fundamentalist stereotypes and myths about gays and lesbians. Rogers concludes with his thoughts on how the church can heal itself and move forward.
