Their First Time: Teenage Romance tells of a young man's hopes, loves, disappointments, and life experiences beginning at the age of 16 when he runs away from home. The story covers his high school years through his returning home from Korea at the age of 20. The novel begins with the run-away from home by a very shy 16-year-old boy after his completion of the 11th grade of high school. He is a very bright and athletic young man. Even though he is shy, he makes many good friends, especially his first love. His last year of high school is filled with excitement and successes in sports, which lead up to his first date. His life is torn apart when, due to the trickery of a mean aunt, his life is changed forever. He is on his own again and desperately tries to return to the girl he dearly loves. Situations and circumstances cause him to enlist in the United States Air Force. His basic training in the Air Force is described from beginning to end. After basic training, he is assigned to the intelligence service posing as a civilian at a large Ivy League university. Here, he has a devastating experience, which causes the loss of his virginity. After loss of his virginity, he develops a "no holds barred" attitude caused by many disappointments. The novel describes his stint in Korea and ends with his return home the States after turning the age of 20. While there is no vulgarity (only hinted) do not read this book if you are squeamish when reading about romantic sex acts. The title of the novel gives you a hint. -The author

A holiday on the Mexican Baja draws an unsuspecting American student into the dark and terrifying white slavery trade that thrives just below the glamorous surface of this high-end playground of the rich. The young girl's parents are close friends of President Hunt who sanctions a covert CIA action to bring the young lady home. Alec Caldwell is assigned the task, and in rescuing Katherine, stumbles on a well organized drug smuggling operation linked to the kidnapping. Its existence is unknown to the DEA. Fearing exposure of their ties to the illegal drug trade, President Hunt and his Mexican counterpart conspire to have Caldwell disappear. A daring military raid frees Alec who ultimately takes down both the assassin sent to kill him, and the people who run the drug trade and who were planning to sell the young girl to a Saudi buyer in payment for the drugs they were funneling up the Baja into the U.S. President Hunt's betrayal of Alec brings a harsh response from the CIA. His misdeeds have been well documented and a secret campaign is launched to expose this treachery and unseat him. But the CIA's initial efforts fail. Hunt is ultimately taken down, but not by the CIA. A person outside the agency with a personal vendetta is thought to be the assassin. But she

disappears and a worldwide manhunt ensues. Is the assassin a CIA pawn? Does Alec remain with the CIA and go with Vanessa to Morocco on yet another black ops assignment? Or does he return to Montana to the respectable lifestyle his wife has planned for him? And, what does Alec mean when he toasts Vanessa with... "Here's looking at you, Kid!"

"Human flight is not a simple matter of science and technology. It is a continuing epic of dreams and obsession, of yearning and striving to harness the intellect in the service of the emotions." In *Like Sex with Gods: An Unorthodox History of Flight*, Bayla Singer offers a unique approach to humanity's fascination with flying. Rather than merely tracing the factual prehistory of flight up to the success of the Wright Brothers, Bayla Singer considers the interaction and influence of our dreams, fantasies, culture, and technology on the age-old quest to fly. This enlightening study begins with the deities and other denizens of the heavens that humanity has created in its religion, literature, and art. At first a monopoly of the gods, flight came to interest humanity as a way to free itself from the physical and intellectual bonds of the earth. The myth of flight eventually gives way to the pursuit of actual flight. Singer shows in compelling detail the many flying machines that have been created, including balloons, gliders, and kites. The accomplishment of the Wright Brothers and our successful trips into space are merely stops on a continuing journey, as our ancient dream of flight continues to push us to new and loftier places. Filled with compelling stories and detailed illustrations, this book provides absorbing reading for aviation experts, those fascinated with the intimate relationship between technology and culture, and all of us who have even a passing interest in flying.
