

## Quo Vadis

Quo Vadis: A Narrative of the Time of Nero, commonly known as Quo Vadis, is a historical novel written by Henryk Sienkiewicz in Polish. "Quo vadis Domine" is Latin for "Where are you going, Lord?" and alludes to the apocryphal Acts of Peter, in which Peter flees Rome but on his way meets Jesus and asks him why he is going to Rome. Jesus says, "I am going back to be crucified again," which makes Peter go back to Rome and accept martyrdom. The novel Quo Vadis tells of a love that develops between a young Christian woman, Ligia (or Lygia), and Marcus Vinicius, a Roman patrician. It takes place in the city of Rome under the rule of emperor Nero, circa AD 64. Sienkiewicz studied the Roman Empire extensively prior to writing the novel, with the aim of getting historical details correct. Consequently, several historical figures appear in the book. As a whole, the novel carries an outspoken pro-Christian message.

"An epic saga of love, courage and devotion in Nero's time, Quo Vadis portrays the degenerate days leading to the fall of the Roman empire and the glory and the agony of early Christianity. Set at a turning point in history (A.D. 54-68), as Christianity replaces the era of corruption and gluttony that marked Nero's Rome, Quo Vadis brims with life."--Publisher description.

This book explores discussions and practice around corporate governance in Russia from the early 1990s until 2018. It covers three major aspects of corporate governance theory and practice: a vision of corporate governance in Russia in the context of global trends and challenges, the general perception of corporate governance in Russia, and the real nature of Russia's corporate community from the viewpoint of its corporate governance practices. It provides a unique complex analysis and detailed description of how corporate governance has been perceived by both Russian regulators and the business community, and how it has been applied in Russian companies. This analysis covers the period of over 25 years: from early attempts at directing transfer and implanting the Western model of corporate governance to the nascent Russian big private business, up to the period of resurgence of the state as the dominant player both in Russian society and its economy at large. It gives an understanding of what

corporate governance is in Russia in the days of "sovereign democracy" and confrontation with the West. It explains how cultural, political, economic and institutional factors have shaped corporate governance in Russia. The authors provide insights into such aspects of Russian corporate governance framework and practices as regulatory philosophy and enforcement, ownership structure, the role of the state, the impact of unfriendly domestic business climate, how the value of corporate governance is perceived in Russian context, etc. Predominantly, the book paints an interesting picture of how the "sovereign corporate governance" model has been shaped in Russia. This book will be useful not just for experts in corporate governance and investors, but also for those who have an interest in modern Russia at large.

The papers in this volume, derived from Quo Vadis international workshop held in Rome, Italy, in 2013, address the two major challenges facing the global economy: globalization and European structural crisis as well as examining the impact on the Italian economy. A host of experts drawn from international institutions, economic and political research centres, and leading economists provide a multi-disciplinary perspective on the outlook of the world economy, taking into consideration factors such as the Euro crisis, capital and investment, financial markets, European energy and health systems. To support this discourse the contributors closely examine the regional policies of Europe, the United States, Russia, Morocco, Egypt and Italy, and also consider the role of the IMF, EIB, World Bank and WTO. The findings reflect on the challenges of long-term growth and suggest ways for sustainable financial conditions in the future. Quo Vadis provides a comprehensive analysis of the problems facing the global economy and is essential reading for scholars, researchers and policy makers.

Whatever happened to Social Europe? The promise of Jacques Delors seems to have spawned a flurry of European Union directives, yet has since fizzled out. This edited volume, bringing together a team of international interdisciplinary experts from across Europe, systematically explores the EU's social policy activities, both before and after the Eurocrisis. The contributors examine how and why the great expectations remained unfulfilled, but also move the scholarly debate beyond the emphasis on courts and markets. European Commission policy entrepreneurship, eastern enlargement, the shifting ideological contours of European Social Democracy, and the spirit of the Lisbon Agenda have all led to market creation taking strong precedence over market correcting policies. This insightful and comprehensive volume will be of great interest to European Union scholars and practitioners alike.

Graph Theory (as a recognized discipline) is a relative newcomer to Mathematics. The first formal paper is found in the work of Leonhard Euler in 1736. In recent years the subject has grown so rapidly that in today's literature, graph theory papers abound with new mathematical developments and significant applications. As with any academic field, it is good to step back occasionally and ask Where is all this activity taking us?, What are the outstanding fundamental problems?, What are the next important steps to take?. In short, Quo Vadis, Graph Theory?. The contributors to this volume have together provided a comprehensive reference source for future directions and open questions in the field.

Whither Quo Vadis? offers an engaging account of how the Roman world and its history are represented in film and the way in which the different adaptations reflect the shifting historical situations and ideological concerns of their own times. Explores five surviving film adaptations – Guazzoni's of 1912; D'Annunzio/Jacoby of 1925; Mervyn LeRoy's of 1951; the Italian TV mini-series of 1985 by Franco Rossi; and Kawalerowicz's 2001 Polish version Examines how these different versions interpret, select from, and modify the novel and the ancient sources on which it is based Offers an exceptionally clear view of how films have presented ancient Rome and how modern conditions determine its reception Looks at rare and archival material which has not previously received close scholarly attention

In the dark, decadent last days of the Roman Empire, a pagan soldier sees a girl of exotic beauty and decides he must have her as his concubine. But unknown to him, Ligia is a Christian intent on living a pure life, even as Nero's ruthless persecution sweeps the city. As the lives of Vinicius and Ligia intertwine, they watch the world they know change before their eyes. While the apostles Peter and Paul seek to save the immoral city from ruin, Christians are brutally martyred in the Coliseum and Rome burns. Quo Vadis, part of Focus on the Family Great Stories collection, vividly captures all the madness and suspense of one of history's most unforgettable chapters.

The old philosophical discipline of metaphysics – after having been pronounced dead by many – has enjoyed a significant revival within the last thirty years, due to the application of the methods of analytic philosophy. One of the major contributors to this revival is the outstanding American metaphysician Peter van Inwagen. This volume brings together twenty-two scholars, who, in commemoration of Prof. van Inwagen's 75th birthday, ponder the future prospects of metaphysics in all the richness to which it has now returned. It is only natural that logical and epistemological reflections on the significance of metaphysics – sometimes called “meta-metaphysics” – play a considerable role in most of these papers. The volume is further enriched by an interview with Peter van Inwagen himself.

Young Marcus Vinicius has just returned from the wars. His uncle Petronius, former proconsul of Bithynia, is advisor to the emperor--Nero. The lives of both are dramatically changed when Marcus falls in love with a Christian girl.

A historical novel about the rise of Christianity in the Roman Empire. Through a romance between a high-born Roman pagan and a Christian woman, it brings to life the decadence of imperial Rome during the reign of Nero Claudius Caesar (AD 54-68), the bloodthirsty persecutor of the early Christians.

This historical novel contrasts the decadence of ancient Rome with the powerful simplicity of the earliest Christians. Its epic tale recounts the romance between a young Christian convert and a Roman soldier.

This volume explores the historical novel Quo vadis written by the Polish author Henryk Sienkiewicz, examining how Sienkiewicz recreated Neronian Rome so vividly and the reasons why his novel was so avidly consumed and reproduced in new editions, translations, visual illustrations, and adaptations to the stage and screen.

Lawyer, arbitrator, negotiator, author, educator, drafter, rapporteur andndash; for sixty years Pieter Sanders has been in the eye of

the storm as during this period arbitration grew into the world's preferred method for the resolution of commercial disputes. No one is better qualified to assess the current worldwide condition and prospects of arbitration and conciliation, or to offer practical, insightful solutions to the problems confronting arbitration practice today. Quo Vadis Arbitration? will not disappoint the many lawyers, judges, legislators and businesspeople to whom it is addressed. Drawing on his wide and varied experience--and especially on the occasions when resourceful measures had to be taken in the absence of clear legal guidance--Professor Sanders presents cogent, well-reasoned arguments and recommendations for: the main issues which may arise in any arbitration a revision of the UNCITRAL Model Law a harmonisation of Rules on Conciliation and drafting a Model Law on Conciliation refining Codes of Ethics and Codes of Taking Evidence to strengthen bridges between cultural differences A list of the author's achievements is virtually a history of the development of international arbitration since the 1930s. With many warmly shared anecdotes of the conflicts, compromises and triumphs of pivotal meetings and conventions, Professor Sanders takes the reader behind the scenes for a rare glimpse into the inner workings of the complex and rewarding process that created this invaluable modern discipline. Quo Vadis Arbitration? also provides a masterful but simple exposition of the arbitral process, from the validity of the arbitration agreement to the means of recourse against the award. This is a book that will be warmly appreciated--and used--by arbitration specialists of any degree of expertise, anywhere in the world.

LCA - Quo vadis? discusses overarching topics, new developments and major problems of Life Cycle Assessment (LCA), and compares LCA with site-specific environmental management. The text profits from two years of interdisciplinary, coordinated research activities of the Priority Programme Environment of the Swiss National Science Foundation. How should system boundaries of a product life cycle be drawn? · How can environmental interventions be allocated to products? · How are background inventory data collected and used? · How can imprecision in the LCA method be ascertained and checked? · How can relevant environmental interventions be distinguished from irrelevant ones? · What

requirements should a software tool for LCA meet?§ A concept of site-specific LCA is proposed in response to criticism of the current approach of LCA. Furthermore, managerial eco-controlling - the emerging method of site-specific environmental management - is discussed. The book concludes with an outlook of possible paths in the future development of LCA.

'Quo Vadis' is a Latin phrase meaning "where are you going?" A love story between a young Christian woman and a Roman officer has been beautifully captured by the author. The male protagonist converts to Christianity after meeting the love of his life. Author uses the plot to examine the differences between worldly sumptuousness enjoyed by Roman elites and spiritual power of Christians.

Each contribution is an article in itself, and great effort has been made by the authors to be lucid and not too technical. A few brief highlights of the round-table discussions are given between the chapters. Topics include: Quantum non-locality, the measurement problem, quantum insights into relativity, cosmology and thermodynamics, and possible bearings of quantum mechanics to biology and consciousness. Authors include Yakir Aharonov and Anton Zeilinger, plus Nobel laureates Anthony J. Leggett (2003) and Gerardus 't Hooft (1999). Foreword written by Sir Roger Penrose, best-selling author (*The Emperor's New Mind*) and world-renowned mathematical physicist.

A timely contribution to the current direction of Vatican II's teachings on collegiality.

Written at a time of global pandemic, when we have been forced to confront age-old existential questions—Why are we here? Where are we going?—perhaps for the first time, *Quo Vadis?* is extraordinarily relevant to leaders, managers and anyone who wants to bring meaning and authenticity into their work and life. Manfred Kets de Vries argues that we need to address these fundamental and disturbing questions if we are to live fully and meaningfully. Too many people wake up on a Monday morning and do the same things they have done every Monday. They go to work and function on autopilot without questioning their purpose. But how can we make sure our lives are rich and fulfilling? How do we know we're on the right track? This is a book about death and the fear of death, about angst and absurdity; but it is also about endurance, honesty, well-being, responsibility, living with hard truths, creating meaning—and happiness. *Quo Vadis?* makes us look full on at the things we prefer not to see. It is a short book that pulls no punches but is far from bleak. Instead, Kets de Vries shows that our life is enriched, and our ability to make meaning and find happiness is increased, when we acknowledge the inevitable price we have to pay for knowing our own mind and understanding our inevitable end.

The audit profession is at a tipping point. Without significant innovation in its business model, staff recruitment strategies and audit execution processes, the audit profession may not remain relevant in the 21st century. The number of claims against auditors has

significantly increased over the past twenty years due to the spate of corporate and audit failures early in the 21st century (Enron, Worldcom, Parmalat, etc.). Regulation to monitor professional and ethical standards has increased, leading audit firms to feel under even more financial pressure. In addition, the investor community is calling for greater insight and foresight from auditors. These challenges, coupled with the unlimited liability regime of auditors still applicable in many jurisdictions, are making audit firms and regulators nervous as to the systemic risk of another one of the Big 4 failing. And yet, the audit profession is in place to protect businesses, their wider stakeholder groups, including clients and investors, and society at large. Therefore, this book asks the important question about the profession's future and engages a broad readership in the discussion of audit failure and reform. Intended to help readers to get up to speed with the issues and possible solutions quickly, this book assists directors, investors, business people and regulators, especially those with a non-financial background, to gain a greater understanding of the challenges and threats being faced by the audit profession, which in turn could disrupt the capital market and affect businesses across the globe. The book outlines the critical success factors needed for a sustainable audit profession.

Offers a guide and provides an analysis of how a public European fisheries policy should be evaluated, implemented, and reformed Quo Vadis Common Fisheries Policy? is an essential book that provides an authoritative guide to the future challenges that face the public European fisheries policy. Written by a noted expert with 30 years' experience in fisheries policies, the book provides the information needed to analyze how a public EU policy should be evaluated, implemented, and reformed. The book examines the difficulties of implementing the new policy including the application of the objectives of the 2013 policy reform. The author explores the myriad challenges that face the new policy due to global warming, pollution, and other global drivers. The book compares the new policy with other fisheries policy, particularly with the United States fisheries policy under the Magnusson-Stevens Act. The book offers an opportunity to address and discuss the challenges and obstacles that are not currently in the public domain. This important book: Provides a unique view from a noted expert and former policy insider Offers a critical analysis of a public EU policy from a pro-European standpoint. Gives a foundational resource to aid in the debate on the future of the Common Fisheries Policy Includes topics that go beyond EU's policy and have implications for fisheries' management around the world Written for administrations and stakeholders in the European and international fishing industry, Quo Vadis Common Fisheries Policy? addresses the challenges of EU's new fisheries policy and offers a comparison of the US fisheries policy. The book helps foster much-needed debate about this topic.

This book brings together the contributions of leading researchers in the field of machine intelligence, covering areas such as fuzzy logic, neural networks, evolutionary computation and hybrid systems. There is wide coverage of the subject — from simple tools, through industrial applications, to applications in high-level intelligent systems which are biologically motivated, such as humanoid robots (and selected parts of these systems, like the visual cortex). Readers will gain a comprehensive overview of the issues in machine intelligence, a field which promises to play a very important role in the information society of the future.

This book is an epic love story set in the time of Nero and Christian persecution. Quo Vadis (where are you going?) - is a usage of the phrase that refers to the Christian tradition. It refers to the apocryphal Acts of Peter (Vercelli Acts XXXV), in which Peter meets Jesus as he is fleeing from likely crucifixion in Rome. Peter asks Jesus the question " Quo Vadis?"; To which Jesus' answer is, "I am going to Rome to be crucified again" (Eo Romam iterum crucifigi), prompts Peter to gain the courage to continue his ministry and eventually become a martyr. The eBook contains the original illustrations of the Altemus Edition (1897).
