

Real Estate Investing Gone Bad 21 True Stories Of What Not To Do When Investing In Real Estate And Flipping Houses

Let's face it—fixing and flipping houses is sexy. Who doesn't love the idea of buying a rundown, mold-infested shack and transforming it into someone's dream home for massive profits? Reality TV shows make it look so easy. A little paint here, some new kitchen cabinets there, and presto! The house is sold for big bucks and everyone lives happily ever after. If only it were that simple. Fixing and flipping houses is a business. In order for a business to survive, prosper, and grow, systems must be put in place. Fixing and Flipping Real Estate: Strategies for the Post-Boom Era is a book that breaks down the four essential components of a fix-and-flip business, giving you the building blocks to efficiently buy and sell 1 to 20 properties a month in today's post-boom era housing market. You'll learn about each of the boxes: Acquisition—How to find and buy a profitable real estate deal. Rehabbing—How to systematically remodel a house and how not to underimprove, or overimprove, your property. Sales—How to sell your flip for the highest possible price in the shortest possible time. Raising Capital—How to get the capital you need to grow your business, including using other people's money, for your real estate deals without getting sued or going to jail. In the post-real estate boom era, fixing and flipping is again a solid business--especially in the "sand" states—Arizona, California, Nevada, Texas, and Florida, among others. It's also a good bet in states as diverse as North Carolina and Washington State. And with the real estate market projected to bottom out nationally in 2012 (this time for real), there are plenty of houses to be renovated and plenty of money to be made by the enterprising in all fifty states. This book shows real estate investors everything they need to know to get started fixing and reselling houses either as a substantial sideline or a full-on business.

Real estate investing is one of the most attractive ways of making good money (that is if you do it correct). Moreover, real estate investing is also a lot of fun. A lot of people practice real estate investing as

their core profession and, in fact, make a lot of money that way. Real estate investing is really an art and, like any art, it takes time to master the art of real estate investing. The key, of course, is to buy at a

lower price and sell at higher price and make a profit even after paying all the costs involved in the two (buy/sell) transactions. When you start looking for houses that you can repair and resale, you should

always take your time and buy the right homes. You won't have the money, time, experience, or support to buy the bigger houses at first, which means you won't have any room for mistakes. Once you have

purchased and resold a few smaller homes, you'll eventually be able to work your way up to the bigger homes - which is where the big profits will come into play. Like any form of investment, there are

certainly benefits and dangers involved, and there's no difference with real estate investing. If you are interested to know more about them, then continue reading as they are discussed further in this report.

If you've ever worried about losing money in real estate, this book is for you. It's meant to show you what can be done with failed deals. My intention is not to scare you. It is to inspire you. I believe there is always a way to win and I want to encourage you to believe the same. Many lessons are learned the hard way. Many can be learned from others doing things the hard way. In this case, it's sometimes me doing things the hard way. Rarely does someone make it overnight. It usually takes years of practice to become an overnight success. Every real estate transaction teaches a lesson. It can be an inexpensive lesson or a very expensive lesson. Most lessons you can learn without Breaking the Bank. The choice is yours. Every real estate deal is a winner, right? When I first started getting into the investing side of real estate, I only heard about the Wins. No one ever talks about all the money that is actually lost in real estate investing. And yes, there is a dark side. The dark side of real estate investing starts with all of the Gurus and False Prophets like the ones you see on TV. They paint this grandioso, awesome lifestyle that everyone seems to have, except you. We're told that we too can live a lavish life if we just quit our day jobs and get into the real estate game like everyone else. Of course, who wants to get left out and miss the boat? Many of these Gurus and False Prophets make most of their money off of selling their courses, their mentorships, and in some cases, even selling their unwanted properties to you. Many have never even done a real estate investment deal in their life. Some have only done a handful. Don't get me wrong. There are some very good real estate Gurus out there, many from whom I have personally learned a lot. Just be aware of what you are getting for your hard-earned cash. It's easy to get swindled today with all of the hype and the easy access to the internet. You too, can set up an internet sales organization in your basement. Can a deal be salvaged? Very few real estate investors will ever tell you of their failures. And there are many, many failures in real estate investing. Like anything in life, you are going to have ups and downs. Just about every failure has a lesson attached, if you look for it. It is worth repeating: I have learned more from my failures than my successes. Sometimes the failures don't make sense. Sometimes you have to look hard and read between the lines to see them. It's always important for you to find the lesson in every deal. One of the most important lessons that I have learned from my failures is what to do with it. Can it be salvaged? Can this flop be flipped and turned into something that's not so bad? Can it still be a win/win/win? You can learn a lot from failed deals! I have found that almost every time that I looked hard enough, a deal gone bad could be made into something good. The only

exceptions are the ones that I chose not to save. Sometimes it is best to just stop the bleeding and walk away. That's why education is so important. You will still make mistakes and failures; they will just be more educated ones. There are always going to be some unforeseen things that we encounter. It's still important to learn the lesson. I'm going to show you some of the failures that have come my way and how most of them were able to be solved. You've heard the saying that when life gives you lemons, simply make lemonade? Well, sometimes you're not lucky enough to even get lemons. Sometimes life gives you onions. So, what are you supposed to do, make onionade? You may like the thought of that, but I don't. So, what do you do with this onionade? Well maybe you just spice it up and make it into some sort of gravy to enhance your potatoes. Sometimes when making some kind of dish, I may not have what I want. And I may not want to go to the store for one thing I need. So, I'll make do with what I have. Real estate investing is the same way.
