There are many ways to learn Spanish, and one sure way to lose it. If you don't use it! Don't do it! Instead, hold on to your hard-earned Spanish and learn more by taking the ¿Cómo se dice? Quiz and studying Spanish, 1 lesson a day... The lessons of ¿Cómo se dice?, Spanish for How does one say?, are designed to put you in daily contact with Spanish. Each volume of ¿Cómo se dice? offers a select group of 122 new lessons, enough to keep you in Spanish for 4 months, 1 lesson a day, with a quiz. Each lesson begins by asking how to say an

English word, expression or phrase in Spanish. Like a flash quiz, this simple format gives you the opportunity to solve the lesson in Spanish before you proceed to read the lesson. It does not matter that you answer correctly, but rather that you engage in this exercise. Thinking about how to say something in Spanish is much more effective as a learning tool than simply being told how to say something. The skill level of ¿Cómo se dice? ranges from entry level to intermediate, to a bit of advanced. Following the quiz, each lesson is broken into its component parts, which are defined and demonstrated by examples. Lesson topics range from simple vocabulary, to a rule of grammar, to the finer points of Spanish. This variety is meant to engage you and give you the knowledge and tools you need to take your Spanish to the next level. Remember, Spanish should never be harder to learn than it has to be. Accordingly, ¿Cómo se dice? will always strive to show you how English and Spanish are the same, as well as different, so that you can leverage your own knowledge of English into a knowledge of Spanish. For example, the English noun transportation goes Spanish as *transportación*, reservation means *reservación*, education becomes *educación*, and so on. Knowing just this one link between English and Spanish is your key to over a thousand words in Spanish, without memorization ? *memorización!* While there are never enough hours in the day, you

We broke our new series on learning Spanish down into different learning stages. Start with the “Lower Beginner” books followed by the “Beginner” and “Upper Beginner” books. Next, progress to the “Intermediate” series, then test and reinforce your knowledge with the “Conversations” series. Our experienced educators and speakers possess the linguistic skills to help you understand and speak Spanish clearly. We are very proud to have developed a product that truly helps you learn Spanish quickly and easily, anytime and anywhere. This audiobook is divided into units. While it provides different learning patterns and accommodates various needs, this audiobook focuses on helping you improve your ability to understand, speak, and memorise Spanish. The sample will give you a taste of what you can look forward to. In Unit 1 you will hear Spanish decoded with each syllable spoken very slowly and clearly with repetition. Immediately before each sentence is spoken, you will hear the translation, so you will always understand what is being said. Unit 2 focuses solely on increasing your listening ability, which will improve your abilities to engage in dialogue with a native Spanish speaker. This chapter requires you to listen very carefully to nuances in the language. By Unit 3 you will already notice progress in your abilities to speak and understand Spanish. The spoken translation is followed by two repetitions in Spanish at a completely natural

speed. While you are learning to process naturally spoken Spanish, Units 3 and 4 will help you memorise new vocabulary and full sentences. In Unit 5 you can test yourself on how much you have learned. If you are having difficulties, we suggest you revisit the listening, speaking, or memorisation section of Units 1, 2 3 or 4, according to what you need more help with. We developed our audiobooks to enable you to learn without an eBook. This gives you the opportunity to advance your Spanish language skills anywhere whether you're on the go or waiting around. As the audiobook is neatly arranged into many sub-units, it is also very practical for educators to navigate and use in classrooms or any time sensitive learning environment. Topics covered in this 2 part series: Part 1: - Greetings - Asking personal information - Asking about people or things - Talking about food - Talking about the current time and date Part 2: - Talking about the location of things - Describing things - Likes and dislikes - Talking about abilities - Talking about appearance - Talking about personality - Talking about the weather - Talking about the house (rooms and furniture)

When a young bilingual child experiences language difficulties, it can be hard to tell if those challenges are due to a disorder or just limited exposure to the English language. That's a critical distinction--because while limited language exposure will fix itself over time, a language impairment is a clinical issue that will cause the child difficulties in school

without timely and effective intervention. Now there's a valid, reliable assessment that specifically responds to the needs of young Spanish-English bilingual children. For use with children ages 4 through 6 years who have varying degrees of bilingualism, the Bilingual English-Spanish Assessment (BESA) was developed to: identify phonological and/or language impairment in bilingual children and English language learners using a standardized protocol differentiate between a delay in English language acquisition and a true language disorder document children's speech and language strengths and needs monitor children's progress in both languages and use the information to make decisions about intervention

How BESA Works Through a combination of subtests for students and surveys for teachers and parents, BESA reveals the big picture of a young bilingual child's language development. Comprehensive assessment with BESA includes: 3 subtests (in both English and Spanish). These three standardized- norm-referenced subtests address the key domains of morphosyntax, semantics, and phonology. The subtests are administered with children one-on-one in a quiet, well-lit, well-ventilated room free of distractions. 2 questionnaires. The SLP gathers more information by interviewing both parents and teachers.

Bilingual Input-Output Survey (BIOS): determines Spanish and English use at home and school and pinpoints which language(s) need testing

Inventory to Assess Language Knowledge (ITALK): identifies the parent's and teacher's perception of the child's performance in each language and highlights areas of possible concern.

Pragmatic activity. This 5- to 10-minute warmup activity, in which children are asked to "help wrap a present" with the examiner, is used to establish rapport with the child and give clinicians an idea of how collaborative and interactive the child will be during the rest of the assessment.

BESA Benefits Valid and reliable.

There are very few assessment tools for bilingual children, and even fewer that are valid and reliable. BESA answers the call for a bilingual assessment backed up with solid evidence of validity and reliability. Culturally and linguistically appropriate. BESA subtests are different for each language; the Spanish subtest isn't just a translation of the English one. Dialects were taken into consideration--the norming sample included 17 Spanish dialects and 7 regional dialects for English--and items were developed for each language based on the markers, structure, and culture of that language. Uncovers the full picture of a child's language development. Not only does BESA identify language impairments, it also helps you gauge progress in both languages and document a child's dominant language across different domains of speech and language. This critical information will help you plan interventions and educational programming for bilingual children. Flexible and convenient. You can use each BESA component independently or combine them as part of an assessment battery. Choose which component you want to give--you're not required to administer both the English and Spanish subtests. BESA can also be given over multiple sessions, so you can easily fit it into your schedule.
