

## Renault Trafic Master Engine Workshop Repair Manual

A media-independent design studio based in Amsterdam, Mattmo specializes in visual communications and holds to the philosophy that graphic design is all about mood-building and the stirring of emotions. Not surprisingly, intuition and inspiration play a major role in all of Mattmo's creative output. This book is a visual report of their most recent work and includes several projects for which they have won awards. It is divided into three chapters: motion, interaction and print, and each work featured is accompanied by an enlightening commentary on the design process. Examples include a corporate identity program developed for a company that specializes in electronic mail software; thematic websites created for Hewlett Packard; a multimedia event created and staged for Dow Chemicals in The Hague City Hall; and a range of printed materials to promote a television series. Die-cut key tabs aid in navigating the sections.

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.
