A writing workshop in a book! Writing teacher and artist/calligrapher Adams knows the tremendous power of the written word. And she has made it her mission to put into action her belief that everyone can experience and enjoy this power and the fruits of her or his own creativity. Many can write, but few do. Why? Fear stops us, Adams writes. Fear, not knowing how to get started, and the lack of inspiration. Having discovered these truths while teaching her numerous writing workshops, Adams has put them into *The Power to Write* and created a writing workshop in a book. Readers can use it alone or form their own groups.

A fictionalized account of Charley (Charlotte) Parkhurst who ran away from an orphanage, posed as a boy, moved to California, and fooled everyone by her appearance.

Presents fifteen activities designed to help students in grades three through six write and publish their poems. An Iron Horse Saga is not a traditional romantic novel with a sultry love triangle but rather a true story of an adventurous cross country motorcycle ride by a deeply in love husband and wife. A deep bond developed between the Rider and Iron Horse during the ride's impossible conditions. Normally a 5,200 mile Coast to Coast ride should be a simple test of Rider endurance. This ride was anything but normal! A transplanted skier from Upstate New York, the author moved to Florida to take advantage of the warmer climate and pursue his 2nd passion of motorcycle riding. The author's motorcycle riding experience spans 50 years and over 500,000 miles. A cross country motorcycle ride between the Atlantic Ocean and Pacific Ocean was an idea borne by the author to combine his passion for motorcycle riding with an opportunity to raise money to benefit children in the community. The Kiwanis Club of Southeast Volusia County sponsored the Coast to Coast Benefit Ride for Children.

The Rhetoric of Official Apologies: Critical Essays focuses on the many challenges associated with performing a speech act on behalf of a collective and the concomitant issues of rhetorically tackling the multiple political, social, and philosophical issues at stake when a collective issues an official apology to a group of victims. Contributors address questions of whether collective remorse is possible or credible, how official apologies can be evaluated, who can issue apologies on behalf of whom, and whether there are

certain kinds of wrongdoing that simply can't be addressed in the form of an official apology. Collectively, the book speaks to the relevance of conceptualizing official apologies more broadly as serving multiple rhetorical purposes that span ceremonial and political genres and represent a potentially powerful form of collective self-reflection necessary for political and social advancement.

Five years after an Indian raid catapulted a young Brighid Cassidy into the world of the Lenni Lenape, a treaty between the British and the Original People forced her return to New Eden, where her family had become victims of a massacre. She was suddenly a woman without a home, belonging nowhere.

Philip Crown had been charged with returning Brighid to her cousin, a simple enough task until he realized he might have to rescue her again and again. From herself, from her half-forgotten past, and from those who condemned her for having been taken at all. Starting with the figure of the bold, boisterous girl in the mid-19th century and ending with the “girl power” movement of the 1990’s, *Tomboys* is the first full-length critical study of this gender-bending code of female conduct. Michelle Abate uncovers the origins, charts the trajectory, and traces the literary and cultural transformations that the concept of “tomboy” has undergone in the United States. Abate focuses on literature including Louisa May Alcott’s *Little Women* and Carson McCullers’s *The Member of the Wedding* and films such as Peter Bogdanovich’s *Paper Moon* and Jon Avnet’s *Fried Green Tomatoes*. She also draws on lesser-known texts like E.D.E.N. Southworth’s once wildly popular 1859 novel *The Hidden Hand*, Cold War lesbian pulp fiction, and New Queer Cinema from the 1990s. *Tomboys* also explores the gender and sexual dynamics of tomboyism, and offers intriguing discussions of race

and ethnicity's role in the construction of the enduring cultural archetype. Abate's insightful analysis provides useful, thought-provoking connections between different literary works and eras. The result demystifies this cultural phenomenon and challenges readers to consider tomboys in a whole new light.

The benefits of collaborative learning are well documented—and yet, almost every teacher knows how group work can go wrong: restless students, unequal workloads, lack of accountability, and too little learning for all the effort involved. In this book, educators Nancy Frey, Douglas Fisher, and Sandi Everlove show you how to make all group work productive group work: with all students engaged in the academic content and with each other, building valuable social skills, consolidating and extending their knowledge, and increasing their readiness for independent learning. The

key to getting the most out of group work is to match research-based principles of group work with practical action. Classroom examples across grade levels and disciplines illustrate how to

- * Create interdependence and positive interaction
- * Model and guide group work
- * Design challenging and engaging group tasks
- * Ensure group and individual accountability
- * Assess and monitor students' developing understanding (and show them how to do the same)
- * Foster essential interpersonal skills, such as thinking with clarity, listening, giving useful feedback, and considering different points of view.

The authors also address the most frequently asked questions about group work, including the best ways to form groups, accommodate mixed readiness levels, and introduce collaborative learning routines into the classroom. Throughout, they build a case that productive group work is both an essential part of a gradual release of responsibility instructional model and a necessary part of good teaching practice.

This book offers an account of two-wheeled vehicle development that challenges the common evolutionary model of development from the bicycle to the motorcycle. It examines the bicycle and motorcycle as material objects and focuses on the complex socio-political and economic convergences that produced the materials, which in turn shaped the vehicles' appearance, function, and adoption by riders.
