The International Conference on Signals, Systems and Automation (ICSSA 2011) aims to spread awareness in the research and academic community regarding cutting-edge technological advancements revolutionizing the world. The main emphasis of this conference is on dissemination of information, experience, and research results on the current topics of interest through in-depth discussions and participation of researchers from all over the world. The objective is to provide a platform to scientists, research scholars, and industrialists for interacting and exchanging ideas in a number of research areas. This will facilitate communication among researchers in different fields of Electronics and Communication Engineering. The International Conference on Intelligent System and Data Processing (ICISD 2011) is organized to address various issues that will foster the creation of intelligent solutions in the future. The primary goal of the conference is to bring together worldwide leading researchers, developers, practitioners, and educators interested in advancing the state of the art in computational intelligence and data processing for exchanging knowledge that encompasses a broad range of disciplines among various distinct communities. Another goal is to promote scientific information interchange between researchers, developers, engineers, students, and practitioners working in India and abroad. This new and expanded monograph improves upon Mohan's earlier book, Residue Number Systems (Springer, 2002) with a state of the art treatment of the subject. Replete with detailed illustrations and helpful examples, this book covers a host of cutting edge topics such as the core function, the quotient function, new Chinese Remainder theorems, and

large integer operations. It also features many significant applications to practical communication systems and cryptography such as FIR filters and elliptic curve cryptography. Starting with a comprehensive introduction to the basics and leading up to current research trends that are not yet widely distributed in other publications, this book will be of interest to both researchers and students alike.

The Mekhilta de-Rabbi Shimon bar Yohai is a collection of classical midrashic interpretation of the biblical Book of Exodus. Lost for centuries, the text was reconstructed and recovered in the 19th and 20th centuries by both German and Israeli scholars from a variety of source materials, including medieval manuscripts of the text and midrashic anthologies. As one of the first collections of rabbinic biblical interpretation, the Mekhilta de-Rabbi Shimon bar Yohai is an indispensable source for understanding the history, beliefs, and practices of the earliest rabbis. This edition, translated and explicated for the first time in English by W. David Nelson, is The Jewish Publication Society's latest contribution to making ancient Jewish literature accessible to modern readers. A critical introduction provides the reader with a firm grounding in the historical setting of the text, as well as its source material, reconstruction, subject matter, and significance for understanding the history of Judaism. Set in a modern, readable typeface, the Hebrew text faces the English translation with the author's annotation beneath. Indexes include scriptural verse citations and rabbinic sages named in the text.

O patrie noua si un neam mare este un manual pentru analiza textelor narative din Geneza, mai ales cele din capitolele 12–26, adica cele privitoare la biografia biblica a patriarhului Avraam. Cercetarea cartii Geneza, ce cunoaste o bogata istorie intinsa pe milenii, este trecuta in revista in primele doua capitole ale cartii. Cu o asemenea mostenire,

este natural ca metoda prezentata aici sa fie una eclecticica. In ea se regasesc: critica textuala, critica formei, critica literara – dintre metodele clasice –, analiza discursului si pragmatica – dintre cele de data mai recenta. Textele narrative sunt analizate nu numai pentru a intelege dinamica relatiei dintre personaje si intriga actiunii in contextul istoric specific, ci si pentru a extrage principiile teologice si moralizatoare impartasite de personaje si de autorii textelor sacre. Silviu Tatu este profesor universitar si pastor. Printre publicatiile sale cu interes pentru publicul larg se numara: Dumnezeu a vorbit in vechime prin profeti, Leul din Sion, Revendicarea mostenirii si Domnul imparateste. In calitate de specialist in limba ebraica si Vechiul Testament, a tradus si editat lucrari de specialitate si a lucrat in colective de traducere a Bibliei ebraice in limba romana si de revizuire a traducerii lui D. Cornilescu. Istoria exegezei poate fi apreciata mai bine atunci cand sunt sesizate legaturile sale cu celelalte discipline, mai ales cu filosofia. Constatarea ca intre filosofie si retorica a existat o interactiune reciproca este mai mult decat naturala, din moment ce interpretarea textelor si coagularea unui sistem coerent de convingeri sunt etape absolut normale ale procesului intelectual de raportare a mintii la cunoastere. Drept urmare, s-au conturat cateva tendinte exegetice – studii de natura filologica, alegorica sau teologica – variind in complexitate in functie de nivelul tehnicilor seculare curente si de competenta autorilor in cauza. Fara a ridica pretentii de exhaustivitate, vom cauta sa ilustram dezvoltarea acestor tehnici, prin studiul unor cazuri concrete din perioada anterioara sec. al XVIII-lea, cand, odata cu aparitia criticii istorice, tehnicile exegetice se diversifica. Cuprins Abrevieri Cuvant-inainte Exegeza Genezei in perioada premoderna 1. Interpretarea patristica 2. Studiile filologice 3. Studiile alegorice 4. Studiile teologice 5. Intrebari de studiu Exegeza Genezei in perioada moderna 1. Ascensiunea criticii germane

2. Julius Wellhausen (1844-1918) si critica superioara 3. Hermann Gunkel (1862-1932) si critica formei 4. Hermann Gunkel si critica folclorului 5. Gerhard von Rad (1901-1971) si critica traditiei 6. Critica redactarii 7. Critica istoriei 8. Critica literara 9. Intrebari de studiu Metoda exegetica

D.I.S.E.C.T.I.A. 1. Delimitarea 2. Incorporarea 3. Segmentarea 4. Evaluarea 5. Conturarea 6. Tabelarea 7. Interpretarea 8. Analogia 9. Intrebari de studiu Tipuri de discurs 1. Caracteristicile povestirii 2. Alte forme literare prezente in povestiri 3. Intrebari de studiu Marci disjunctive. Structura cartii 1. Marci disjunctive textuale 2. Marci disjunctive din traditia evreiasca 3. Marci disjunctive din traditia crestina 4. Subdiviziunile literare ale naratiunilor despre patriarhi 5. Intrebari de studiu Editii si versiuni ale Bibliei ebraice 1. Manuscrisele de la Marea Moarta 2. Textul Masoretic (TM) 3. Pentateuhul samaritean 4. Versiunile antice ale Bibliei ebraice 5. Principii de critica textuala 6. Versiuni si editii recente in limba romana 7. Intrebari de studiu Contextul socio-cultural si istoric 1. Elemente de context specifice relatarilor din VT 2. Elemente de context specifice naratiunilor din Geneza 3. Intrebari de studiu Reprezentarea vorbirii 1. Vorbirea indirecta 2. Vorbirea directa 3. Vorbirea indirect libera 4. Perechile adiacente 5. Relatiile sociale ale participantilor vorbirii 6. Intrebari de studiu Timpul si spatiul 1. Deixa temporala 2. Timpul discursiv, timpul narativ si timpul real 3. Secventa temporala 4. Simultaneitatea cadrelor 5. Deixa spatiala (locala) 6. Deixa spatiala (locala) in limba ebraica 7. Intrebari de studiu Limbajul figurativ 1. Figurile de constructie 2. Figurile de elocutie 3. Figurile de stil 4. Tropii de semnificatie (tropii propriu-zisi) 5. Tropii de expresie (pseudotropii sau tropii in mai multe cuvinte) 6. Intrebari de studiu Limbajul figurativ: ironia 1. Umorele 2. Ironia si speciile sale 3. Ironia in naratiunile despre patriarhi 4. Derivatii omiletice ale numelor proprii 5. Intrebari de studiu

Personajele naratiunii 1. Deixa persoanei si deixa sociala 2. Relatia scriitor-personaj-cititor 3. Tipuri de personaje 4. Modalitati de descriere a personajelor 5. Eroul si misiunea lui 6. Intrebari de studiu Intriga 1. Tipuri de naratiuni 2. Momentele subiectului 3. Profilul intrigii 4. Repetitia si momentele subiectului 5. Intrebari de studiu Teologia Genezei 1. Chemarea lui Avraam 2. Legamantul cu Avraam 3. Binecuvantarea patriarhala 4. Religia patriarhilor 5. Etica patriarhilor 6. Numele lui Dumnezeu 7. Revelatii prin ingeri 8. Intertextualitate 9. Relatia cu NT 10. Intrebari de studiu Bibliografie Indice de referinte biblice Indice de nume proprii O patrie nou? ?i un neam mare nu este un simplu comentariu la cartea Geneza, merit s? ne intermedieze în?elesul acestei c?r?i biblice într-un mod mai mult sau mai pu?in obiectiv, ci este mai degrab? un manual prin intermediul c?ruia colegul nostru, pastor prof. univ. dr. abil. Silviu Tatu, le pune la dispozi?ia tuturor celor interesa?i de studiul c?r?ii Geneza o „unealt?” exegetic? adecvat?, util? pentru descoperirea sensului inten?ionat de autorul biblic inspirat de Duhul Sfânt. O exegez? corect? a c?r?ilor biblice implic? metode adecvate, care s? nu neglijeze nici contextul istoric în care au fost scrise acestea, nici specificul lor literar. Doar a?a le putem p?trunde ?i articula mesajul teologic, mesaj ce trebuie aplicat zi de zi în via?a noastr?. O recomand tuturor celor care doresc s? se echipeze cu uneltele necesare în arta exegetic?; cu ajutorul acestora, textul biblic al Genezei le va deveni tot mai apropiat, iar ei vor reu?i s? identifice corect mesajul teologic, ca apoi s? îl transpun?, în mod adecvat, în via?a de zi cu zi. —Lector univ. dr. Romulus Ganea Decan al Facult??ii de Teologie Penticostal? din cadrul ITP Bucure?ti

In the last few decades, natural fibers have received growing attention as an alternative to the synthetic fibers used in the reinforcement of polymeric composites, thanks to their specific properties, low price, health advantages, renewability,

and recyclability. Furthermore, natural fibers have a CO₂-neutral life cycle, in contrast to their synthetic counterparts. As is widely known, natural fibers also possess some drawbacks, e.g., a hydrophilic nature, low and variable mechanical properties, poor adhesion to polymeric matrices, high susceptibility to moisture absorption, low aging resistance, etc. This implies that their applications are limited to non-structural interior products. To overcome this problem, the hybridization of natural fibers with synthetic ones (i.e., glass, carbon, and basalt) or different natural fibers can be a solution. For this reason, extensive research concerning natural–synthetic and natural–natural hybrid composites has been done in the last years. In this context, this book aims to collect some interesting papers concerning the use of natural fibers together with synthetic ones with the aim of obtaining hybrid structures with good compromise between high properties (e.g., mechanical performances, thermal behavior, aging tolerance in humid or aggressive environments, and so on) and environment care.

This book presents a collection of high-quality, peer-reviewed research papers from the 6th International Conference on Information System Design and Intelligent Applications (INDIA 2019), held at Lendi Institute of Engineering & Technology, India, from 1 to 2 November 2019. It covers a wide range of topics in computer science and information technology, including data mining and data warehousing, high-performance computing, parallel and distributed computing, computational intelligence, soft computing, big data, cloud computing, grid computing and cognitive computing.

In this book the reader will find a collection of chapters authored/co-authored by a large number of experts around the world, covering the broad field of digital signal processing. This book intends to provide highlights of the

current research in the digital signal processing area, showing the recent advances in this field. This work is mainly destined to researchers in the digital signal processing and related areas but it is also accessible to anyone with a scientific background desiring to have an up-to-date overview of this domain. Each chapter is self-contained and can be read independently of the others. These nineteenth chapters present methodological advances and recent applications of digital signal processing in various domains as communications, filtering, medicine, astronomy, and image processing. This book provides the foundations for understanding hardware security and trust, which have become major concerns for national security over the past decade. Coverage includes issues related to security and trust in a variety of electronic devices and systems related to the security of hardware, firmware and software, spanning system applications, online transactions and networking services. This serves as an invaluable reference to the state-of-the-art research that is of critical significance to the security of and trust in, modern society's microelectronic-supported infrastructures.

Aus dem Blickwinkel der Fahrzeugentwickler wird die Technik des neuen Audi Q5 ausführlich und kompetent dargestellt. Baugruppen und Fahrzeugsysteme werden in Funktion und Eigenschaften erklärt, so dass ein technisches Gesamtbild entsteht, das bis ins Detail die faszinierende neue Technik des Kompakt-SUV von Audi erklärt. Garant dafür sind die Autoren, die als Ingenieure in Elektronik und Fahrzeugtechnik dieses Auto entwickelt haben.

In this volume is presented an edition, with translation and introduction, of the commentary on Esther—the first completely extant representative of this medieval Jewish genre—by Yefet ben ‘Eli ha-Levi, one of the preeminent litterateurs of the Karaite “Golden Age” (10th–11th centuries).
