

Robert Potash El Ejercito Y La Politica En La Argentina

Sebreli enfrenta en este libro temas como el liberalismo conservador, el nacionalismo y el Che Guevara. Analiza cada uno de ellos con una fervorosa neutralidad intelectual y logra por lo tanto inventariar y evaluar un complejo conjunto de avances y regresos, de decisiones e inercias, de moderados éxitos y apabullantes fracasos que llevó más de un siglo.

Students and scholars of both Latin American politics and comparative politics will find *The Resilience of the Latin American Right* of vital interest.

The impact of events in Nazi Germany and Europe during World War II was keenly felt in neutral Argentina among its predominantly Catholic population and its significant Jewish minority. *The Catholic Church and the Jews, Argentina, 1933-1945* considers the images of Jews presented in standard Catholic teaching of that era, the attitudes of the lower clergy and faithful toward the country's Jewish citizens, and the response of the politically influential Church hierarchy to the national debate on accepting Jewish refugees from Europe. The issue was complicated by such factors as the position taken by the Vatican, Argentina's unstable political situation, and the sizeable number of citizens of German origin who were Nazi sympathizers eager to promote German interests. Argentina's self-perception was as a Catholic country. Though there were few overtly anti-Jewish acts, traditional stereotypes and prejudice were widespread and only a few voices in the Catholic community confronted the established attitudes.

La historia de la siderurgia argentina comienza hace algo más de cien años atrás. La presente obra cubre de manera sucinta la evolución de las industrias metalúrgicas locales durante el siglo diecinueve y se concentra en la siderurgia argentina propiamente dicha a partir de su implantación en los albores del siglo veinte, y se detiene también en la historia de las empresas creadas hasta el inicio de la Segunda Guerra Mundial. Este libro marca un hito inicial que permite disponer de una documentada y fidedigna versión de los hechos que han ido conformando la historia de una de las industrias madre del país.

This title is part of UC Press's *Voices Revived* program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, *Voices Revived* makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1988.

Las relaciones de Sebreli con el peronismo pasaron por diversos avatares. En este libro, sus críticas y autocríticas.

Argentina is famous for its ties with fascism as well as its welcoming of Nazi war criminals after World War II. At mid-century, it was the home of Peronism. It was also the birthplace of the Dirty War and one of Latin America's most criminal dictatorships in the 1970s and early 1980s.

How and why did all of these regimes emerge in a country that was "born liberal"? Why did these authoritarian traits first emerge in Argentina under the shadow of fascism? In this book, Federico Finchelstein tells the history of modern Argentina as seen from the perspective of political violence and ideology. He focuses on the theory and practice of the fascist idea in Argentine political culture throughout the twentieth century, analyzing the connections between fascist theory and the Holocaust, antisemitism, and the military junta's practices of torture and state violence, with its networks of concentration camps and extermination. The book demonstrates how the state's war against its citizens was rooted in fascist ideology, explaining the Argentine variant of fascism, formed by nacionalistas, and its links with European fascism and Catholicism. It particularly emphasizes the genocidal dimensions of the persecution of Argentine Jewish victims. The destruction of the rule of law and military state terror during the Dirty War, Finchelstein shows, was the product of many political and ideological reformulations and personifications of fascism. The Ideological Origins of the Dirty War provides a genealogy of state-sanctioned terror, revealing fascism as central to Argentina's political culture and its violent twentieth century.

First published in English in 1990 as *Latin American Politics: A Theoretical Framework*, a translation of Torcuato S. Di Tella's original *Sociología de los procesos políticos*, this new edition also focuses on the prerequisites for democracy in any society and on the role of the popular classes in social change. Di Tella draws on the work of Montesquieu, Burke, Tocqueville, Marx, Weber, and Durkheim in formulating his explanatory theories. These theories are then tested against crucial events in Latin American history—from the rebellions of the eighteenth century to the caudillos of the nineteenth century and the militarism of the twentieth century. This latest edition is more attuned to an English-speaking audience, with a new chapter addressing the historical process in Argentina from the 1930s to 2000. *Latin American Politics* is written in a style easily accessible to the general reader or student, while its emphasis on the growth of democracy in Latin America makes it particularly timely.

"Author's father was a general who participated in military blackmail against President Arturo Frondizi, then later became his War Secretary and defended him. The book is based on Gen. Fraga's notes and papers, as well as on interviews with other protagonists of the period. It is a useful supplement to works by Robert Potash and Alain Rouquié on civil-military relations during Frondizi's turbulent four years in office"--*Handbook of Latin American Studies*, v. 57.

Conscientes de que recorrer la historia argentina desde 1930 hasta 2003 significa un riesgo para cualquier historiador, los autores priorizan una narración y una perspectiva de carácter introductorio –que si bien utiliza un lenguaje accesible, no renuncia a la explicación de las complejidades conceptuales de cada una de las etapas seleccionadas–. Este libro está dirigido a los estudiantes de formación superior, universitarios y terciarios, aunque también apunta a todas aquellas personas dispuestas a conocer y reflexionar acerca de las problemáticas vinculadas a la sociedad y al Estado de la Argentina contemporánea.

Este volumen de la Nueva Historia Argentina abarca el periodo que se extendió entre 1943 y 1955, los años peronistas. Tanto por las transformaciones sociales y políticas que introdujeron como por los conflictos que generaron en la convivencia entre los argentinos, los años peronistas cubiertos por la primera y la segunda presidencias de Juan

Domingo Peron han estado en el centro de la investigacion academica y la reflexion intelectual en el pais. Su tratamiento no estuvo exento de la gravitacion de las pasiones po-liticas que acompanan su trayectoria y su impacto posterior sobreel desenvolvimiento historico de la Argentina. En este volumen los lectores encontraran reunidas las contribuciones de especialistasen los diversos aspectos del periodo, cuya obra ha procurado aportar un conocimiento mas equilibrado y riguroso.

Includes sections "Resenas de libros," "Revistas" and "Bibliografia de historia de America."
