Issues of trust come attached to almost every human interaction, yet few people realize how powerfully their ability to determine trustworthiness predicts future success. David DeSteno's cutting-edge research on reading trust cues with humanoid robots has already excited widespread media interest. In The Truth About Trust, the renowned psychologist shares his findings and debunks numerous popular beliefs, including Paul Zak's theory that oxytocin is the 'moral molecule.' From education and business to romance and dieting, DeSteno's fascinating, paradigm-shifting book offers new insights and practical takeaways that will forever change how readers understand, communicate, and make decisions in every area of life. 'This one's worth reading. Trust me.' Daniel Gilbert, PhD, bestselling author of Stumbling on Happiness

A Companion to Roman Imperialism, written by a distinguished body of scholars, explores Rome's rise to empire, and its vast historical impact on her subject peoples and, equally momentous, on the Romans themselves, an impact still felt today.

Ben has an amazing talent - his pictures come to life! When he and his friends Calum and Maisie are transported onto a Battlefield, their Roman adventures begin. Aimed at an approximate reading age of 6-10, the story includes a chariot race in the Circus Maximus, a day in the Roman Senate and a daring rescue of a slave girl called Phina from the lions in the Colosseum. After hiding in the Catacombs, Ben draws one last picture and he, Calum, Maisie and Phina are transported back to England - 61AD England to be precise where they are soon charging towards the Roman Army alongside Boudicca, the Iceni Queen.
