Mike Buchanan, a British writer and former business consultant, is the author of eight books since 2008. He's been published internationally by a leading publisher (in English and Chinese editions), and he's self-published. He much prefers self-publishing for a variety of reasons. In January 2010, at the age of 52, he took early retirement and now writes and self-publishes full-time. He developed the model of 'commercial self-publishing' outlined in this book. The model has been designed to help self-publishers enjoy their writing more, increase their output of strong titles, and maximise their profits.
