This book analyses how multiple and hybrid 'modernities' have been shaped in colonial and postcolonial India from the lens of sociology and anthropology, literature, media and cultural studies, law and political economy. It discusses the ideas that shaped these modernities as well as the lived experience and practice of these modernities. The two broad foci in this book are: (a) The dynamism of modern institutions in India, delineating the specific ways in which ideas of modernity have come to define these institutions and how institutional innovations have shaped modernities; and (b) perspectives on everyday practices of modernities and the cultural constituents of being modern. This book provides an enriching read by bringing together original papers from diverse disciplines and from renowned as well as upcoming scholars.

Former chief CNN India correspondent and award-winning journalist Ravi Agrawal takes readers on a journey across the Subcontinent, through its remote rural villages and its massive metropolises, seeking out the nexuses of change created by smartphones, and with them connection to the internet. As always with India, the numbers are staggering: in 2000, 20 million Indians had access to the internet; by 2017, 465 million were online, with three Indians discovering the internet every second. By 2020, India's online community is projected to exceed

700 million, and more than a billion Indians are expected to be online by 2025. In the course of a single generation, access to the internet has progressed from dial-up connections on PCs, to broadband access, wireless, and now 4G data on phones. The rise of low-cost smartphones and cheap data plans has meant the country leapfrogged the baby steps their Western counterparts took toward digital fluency. The results can be felt in every sphere of life, upending traditions and customs and challenging conventions. Nothing is untouched, from arranged marriages to social status to business start-ups, as smartphones move the entire economy from cash-based to credit-based. Access to the internet is affecting the progress of progress itself. As Agrawal shows, while they offer immediate and sometimes mind-altering access to so much for so many, smartphones create no immediate utopia in a culture still driven by poverty, a caste system, gender inequality, illiteracy, and income disparity. Internet access has provided greater opportunities to women and changed the way in which India's many illiterate poor can interact with the world, but it has also meant that pornography has become more readily available. Under a government keen to control content, it has created tensions. And in a climate of hypernationalism, it has fomented violence and even terrorism. The influence of smartphones on "the world's largest democracy" is nonetheless pervasive and irreversible, and India Connected

reveals both its dimensions and its implications.

Many societies are experiencing growing longevity and population ageing simultaneously with increasing urbanization and mobilities. Such fundamental demographic and structural shifts have been reflected in a multitude of narratives and strategies how to "age well" in view of rapidly transforming environments, mobilities of people and changing social relations. This volume explores the transcultural dimensions of ageing and care through close-up ethnographic and literary case studies

in South Asia, as well as one European case study from a South Asian researcher's view. By critically engaging with Eurocentric aspects in ageing studies, the eleven contributions of this volume highlight how perspectives from the Global South shed light on transcultural entanglements and connectivities of experiences of care and ageing. Based on extensive information gathered from the surviving members of the unit, "Dong Xoai, Vietnam 1965" shows a unique perspective. Omprakash Valmiki describes his life as an untouchable, or Dalit, in the newly independent India of the 1950s. "Joothan" refers to scraps of food left on a plate, destined for the garbage or animals. India's untouchables have been forced to accept and eat joothan for centuries, and the word encapsulates the pain, humiliation, and poverty of a community forced to live at the bottom of India's social pyramid. Although untouchability was abolished in 1949, Dalits continued

to face discrimination, economic deprivation, violence, and ridicule. Valmiki shares his heroic struggle to survive a preordained life of perpetual physical and mental persecution and his transformation into a speaking subject under the influence of the great Dalit political leader, B. R. Ambedkar. A document of the long-silenced and long-denied sufferings of the Dalits, Joothan is a major contribution to the archives of Dalit history and a manifesto for the revolutionary transformation of society and human consciousness.

2019 Eisner Award Winner for Best Reality-Based Work Comedian and performer Andy Kaufman's resume was impressive—a popular role on the beloved sitcom *Taxi*, a high-profile stand-up career, and a surprisingly successful stint in professional wrestling. Although he was by all accounts a sensitive and thoughtful person, he's ironically best remembered for his various contemptible personas, which were so committed and so convincing that all but his closest family and friends were completely taken in. Why would someone so gentle-natured and sensitive build an entire career seeking the hatred of his audience? What drives a performer to solicit that reaction? With the same nuance and sympathy with which he approached *Andre the Giant* in his 2014 biography, graphic novelist Box Brown's *Is This Guy For Real?* takes on the complex and often hilarious life of Andy Kaufman.

the world the Kamasutra could have become a closed, repressed society with a shockingly high incidence of rape and violence against women the dark underside to the greater sexual freedom that men and women in our cities have begun to enjoy today. Trivedi goes deep into one of the most enduring institutions of Indian society marriage and investigates how it is faring in modern times. She interviews marriage brokers, astrologers, lawyers, relationship counsellors, 'love commandos', parents and nervous young brides and grooms, amongst others, to present a nuanced picture of the state of marriage in the country. She discovers that love marriages are skyrocketing and even the age-old arranged marriage is undergoing a transformation. Also on the rise are divorces, extra-marital affairs, open marriages, live-in-relationships and the like. Supporting her eye-opening reportage with hundreds of interviews, detailed research, authoritative published surveys and discussions with experts on various aspects of sexuality and marriage, Trivedi has written a book that is often startling, sometimes controversial, but is always entertaining and original.
