range of questions and answers with detailed explanations and references. For anyone preparing for the Part 2 MRCOG exam, this book will provide extensive and comprehensive practice and guidance from an expert author team.

This book is a comprehensive collection of questions in the “single best answer (SBA)” format for the MRCOG2 theory exam. This new format has been introduced in the exam paper from March 2015 and most candidates are still getting used to the change. This book will provide them ample opportunity to familiarize themselves with the concept and then practice answering the questions based on almost all subjects included in the MRCOG 2 theory syllabus. Preparing for the MRCOG2 exam is a daunting task for all Obstetrics and Gynecology doctors. The college constantly reforms the exam structure in an effort to optimize the evaluation process. The endeavor of the authors is to equip the candidates with a vision of the holistic nature of the exam so that they master the art of answering SBA questions.

Get Through PLAB Part 1 is an essential revision tool for all candidates preparing for the examination. PLAB Part 1 consists of 70% extended matching questions and 30% single best answer (SBA) questions. As a companion text to the bestselling PLAB: 1000 Extended Matching Questions, this book provides 500 practice SBA questions covering topics that reflect the current PLAB syllabus and presented in a format identical to the exam itself. The author, Una Coales, who has taken and successfully passed the exam herself, offers helpful hints and tips on what to expect and how to negotiate the examination successfully. Get Through PLAB Part 1 is recommended to all candidates sitting the PLAB Part 1 exam, and their trainers.

In September 2009, the format of the written Radiology FRCR Part 2A examinations changed. The previous negatively-marked true-false MCQs have become obsolete, replaced by ‘single best answer’ (SBA) questions, with candidates selecting 1 of 5 options, without negativemarking. The author team have themselves recently successfully sat the FRCR exam, and have prior experience in the SBA format, making them ideally suited to write such a book, and have produced an excellent revision guide for the new format exam. There are 750 stem questions covering all 6 modules, including a separate section with a 75 questions-per-module ‘mock’ examination which readers can use to test themselves against the clock, under examination conditions, to hone their technique. The questions have been extensively researched and cross-checked, with relevant topics being drawn from major radiology textbooks, as well as current radiological journals such as Clinical Radiology and Radiographics. Answers are given with detailed explanations and references are provided, which can also be used for further reading as appropriate. As a bonus the authors pass on their own proven exam tips and techniques.

- Authors recently sat exams themselves
- Over 700 questions
