Because the monetary value of artwork cannot be established without reference to the aesthetic qualities and art historical significance of our subject works, two substantial chapters detail the processes involved in researching and documenting the fine and decorative arts, respectively, and provide annotated bibliographies. Methods for assigning values for art objects are explored, and sources of price data, both in print and online, are identified and described in detail. In recent years, art historical scholarship increasingly has addressed issues related to the history of art and its markets: a chapter on resources for the historian of the art market offers a wide range of sources. Finally, provenance and art law are discussed, with particular reference to their relevance to dealers, collectors, artists and other art market stakeholders.

Twentieth century Danish furniture design is simple and clean., mixes well with other design styles, and has an inherent value and history beyond its beauty. In Modern Danish, Andrew Hollingsworth explores the history of Danish design, from the earliest cabinetmakers' guilds in the 1770s through the impact of two world wars, and its evolution into the twentieth century. The book includes photographic surveys of Danish Modern furniture in homes across the Unites States; a market guide with tips, facts and resources that includes discussions of veneer vs. solid wood, places to find Danish Modern furniture, and a guide to caring for it; and an extensive resource section.

Clean, elegant lines, delicate color schemes, well-proportioned, light-filled spaces, and natural materials—the hallmarks of Scandinavian design are unmistakable. As the trend in residential design continues to move toward pared-down, comfortably elegant, environmentally friendly homes, the Scandinavian aesthetic has become a global influence in interior design. Lars Bolander, one of Sweden’s foremost interior designers, has been creating the Scandinavian look in homes all over the world for decades. In this impressively illustrated volume, he and author Heather Smith MacIsaac, a former editor of *House & Garden* magazine, share their expert knowledge of the very best in Scandinavian design, past and present, offering guidance on how to achieve the Scandinavian look, incorporate the trademark elements into any decor, and mix and match traditional and modern, humble and grand. Praise for *Lars Bolander's Scandinavian Design*: “A private, exclusive tour of the best of Scandinavian design. . . . This book is a new treasure for my design library, one I will refer to over and over.” ~ Bunny Williams “A sophisticated volume . . . an in-depth, intelligent, and informative look at the design sensibilities found in Scandinavian domestic furniture and decoration. . . . Lars Bolander surveys all of this with his keen . . . eye and finely honed historical knowledge, and the results are breathtaking.” ~ Martha Stewart “From his captivating shops in New York and Palm Beach, Lars Bolander has won an army of converts to his seductive vision of Scandinavian design, antique and modern, rustic and urbane. In this book, he brings that world of style vividly to life with images of some of the most magical and inspiring environments to be found

there, from the light-dappled elegance of Gustavian interiors to the inventive purity of the very best in contemporary architecture.” ~ Hamish Bowles “Lars Bolander’s handsome and intelligent book tells the story of Scandinavian design and its influence—in the past, in the present, and leading into the twenty-first century. A product of a northern world separated to a great extent from Europe, Scandinavian design looked to the styles of the French court in the eighteenth century, but developed its own style with an adaptive simplicity that has given it a place unto itself in the history of design, as beautifully visualized on the pages of this book.” ~ David Easton “Lars has the magic formula for combining the sophisticated Gustavian style with the rustic charm of the Scandinavian countryside. Just perfect!” ~ Juan Pablo Molyneux “He creates both classic and new looks, as well as bringing the traditional pieces into the 20th century (which I love)!” ~MadebyGirl “Lars Bolander is the go-to person for Scandinavian decor in America.” ~Veranda “It’s total design porn at its finest.” ~Everything LEB “Gorgeous.” ~Annechovie “A visual delight.” ~Swedish Interiors by Eleish van Breems “A lovely read and must-have reference and inspiration guide for any design library.” ~ Hampton Hostess “One you’ll want to add to your library.” ~From the Right Bank “Wonderful.” ~Rita Konig(interview withA Lovely Being)~

Networks of Design maps a new methodological territory in design studies, conceived as a field of interdisciplinary inquiry and practice informed by a range of responses to actor network theory. It brings together a rich body of current work by researchers in the social sciences, technology, material culture, cultural geography, information technology, and systems design, and design theory and history. This collection will be invaluable to students and researchers in many areas of design studies and to design practitioners receptive to new and challenging notions of what constitutes the design process. Over ninety essays are thematically organised to address five aspects of the expanded notions of mediation, agency, and collaboration posited by network theory: Ideas, Things, Technology, Texts, and People. The collection also includes an important new essay on rethinking the concept of design by Bruno Latour, one of the most influential figures in the philosophy and sociology of science and technology and a pioneer of actor network theory, and essays deriving from forum discussions involving designers and designer-makers responsive to actor network theory. Rather than an anthology of previously-published essays, Networks of Design presents work in progress on design theory and its applications. It is the outcome of a live and vigorous debate on the possibilities and actualities offered by actor network led conceptualisations of the relationships and

Picturing the Cosmos elucidates the complex relationship between visual propaganda and censorship in the Soviet Union in the Cold War period, focusing on the 1950s and 1960s. Drawing from a comprehensive corpus of rarely seen photographs and other visual phenomena narrating the Soviet Union's 1957 victory in the 'Race for Space', the author illustrates the media's role in cementing the way for Communism whilst retaining top-secret information. Each photo is examined as a deliberate, functioning part of a specific political, ideological and historical situation that helped to anchor the otherwise abstract political and intellectual concepts of the future and modernization.

This book offers a study of Danish, Norwegian, Swedish and French crime fictions covering a fifty-year period. From 1965 to the present, both Scandinavian and French societies have undergone significant transformations. Twelve literary case studies examine how crime fictions in the respective contexts have responded to shifting social realities, which have in turn played a part in transforming the generic codes and conventions of the crime novel. At the centre of the book's analysis is crime fiction's negotiation of the French model of Republican universalism and the Scandinavian welfare state, both of which were routinely characterised as being in a state of crisis at the end of the twentieth century. Adopting a comparative and interdisciplinary approach, the book investigates the interplay between contemporary Scandinavian and French crime narratives, considering their engagement with the relationship of the state and the citizen, and notably with identity issues (class, gender, sexuality
