Methods and Curriculum Design offers students a step-by-step course of study for how to teach dance and create sustainable dance programs in schools. The authors synthesize a wide variety of research and resources to support dance pedagogy and curriculum development, provide the infrastructure to meet the changing needs of students to teach dance in the 21st century, and supply extensive references for students to use to increase their dance education knowledge. Book Organization The text is organized into three parts. Part I covers information specific to teaching dance and understanding learners from grades preK through 12. Part II focuses on applying the dance knowledge gained from part I to the teaching and learning process in the four categories of dance forms. In part III, students learn how to develop unit plans and choose a curriculum design for their dance programs. Filling a Void Dance Teaching Methods and Curriculum Design, Second Edition, addresses the knowledge, skills, processes, and content that students need as they prepare to teach dance in various settings. This text fills a void in dance education literature, studying all the steps as it provides students the foundational knowledge and practical know-how they need to confidently begin teaching dance in schools, recreation programs, or private dance studios.
