In the growing field of neuro-oncology, the past few years have witnessed rapid advances in tumor classification, treatment modalities, and the role of neurologists and neuro-oncologists. Neuro-Oncology for the Clinical Neurologist is a first-of-its-kind resource that focuses on patient-clinical scenarios relevant to the practicing neurologist—bringing you up to date with everything from basic principles and neuro-oncology imaging consults to neurologic complications of radiation, systemic, and immune-based therapies, and much more. Focuses on the clinical management of patients typically encountered by neurologists and neurology trainees. Provides clinically relevant updates in five key areas of neuro-oncology: primary CNS tumors, brain and leptomeningeal metastases, inherited tumor syndromes of the nervous system (e.g. neurofibromatosis), paraneoplastic and immune-mediated neurological complications of cancer, and neurological complications of cancer treatments. Includes a summary of clinical pearls and a reference list of clinical cases. Anchors each chapter with patient cases and clinical scenarios, provides evidence-based discussion, and explains patient management. Enhanced eBook version included with purchase. Your enhanced eBook allows you to access all of the text, figures, and references from the book on a variety of devices.

"The United States Code is the official codification of the general and permanent laws of the United States of America. The Code was first published in 1926, and a new edition of the code has been published every six years since 1934. The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress, Second Session, the last of which was signed by the President on January 15, 2013. It does not include laws of the One Hundred Thirteenth Congress, First Session, enacted between January 2, 2013, the date it convened, and January 15, 2013. By statutory authority this edition may be cited "U.S.C. 2012 ed." As adopted in 1926, the Code established prima facie the general and permanent laws of the United States. The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy. In 1947, Congress began enacting individual titles of the Code into positive law. When a title is enacted into positive law, the underlying statutes are repealed and the title then becomes legal evidence of the law. Currently, 26 of the 51 titles in the Code have been so enacted. These are identified in the table of titles near the beginning of each volume. The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 U.S.C. 285b to enact the remainder of the Code, on a title-by-title basis, into positive law.
