Equal Shares tells a fascinating story--the history of a group of dynamic tapestry workers who changed the economic life of their community. The authors examine a key community-based cooperative in Botswana that was launched in the early 1970s, and is hailed as a model for development and social change. With little formal education, virtually no job experience, still working their own agricultural lands, and many as single mothers, the co-op workers have maintained their business for over twenty-five years. Equal Shares is written in different voices, and tells the story of the defining moments in the lives of the Oodi Weavers. As the workers weave their village stories into the tapestries, the book weaves a story that depicts their evolving collective experience. It's a model of community action. Inspiring reading for all those fighting to take control of their economic lives.

This book has two purposes. First, to introduce the study of work and the workplace as a method for informing the design of computer systems to be used at work. We primarily focus on the predominant way in which the organization of work has been approached within the field of human-computer interaction (HCI), which is from the perspective of ethnomethodology. We locate studies of work in HCI within its intellectual antecedents, and describe paradigmatic examples and case studies. Second, we hope to provide those who are intending to conduct the type of fieldwork that studies of work and the workplace draw off with suggestions as to how they can go about their own work of developing observations about the settings they encounter. These suggestions take the form of a set of maxims that we have found useful while conducting the studies we have been involved in. We draw from our own fieldwork notes in order to illustrate these maxims. In addition we also offer some homilies about how to make observations; again, these are ones we have found useful in our own work. Table of Contents: Motivation / Overview: A Paradigmatic Case / Scientific Foundations / Detailed Description / Case Study / How to Conduct Ethnomethodological Studies of Work / Making Observations / Current Status

Unemployment is one of the most politically explosive issues in China and has gained further prominence as a result of the present global financial crisis. The novelty, urgency, and complexity of Chinese unemployment have compelled the government to experiment with policy initiatives that originate in the West. This book argues that although China is not a liberal democracy, it has turned to neo-liberal forms of governance to deal with unemployment, which now function alongside pre-existing Chinese modes of governance. This book examines the initiatives which represent China's attempt to institutionalize and humanize its approach to governance: these initiatives include training programmes; counselling; a web-based national labour-market information network; insurance; and using community (shequ) organizations as the base for new mechanisms of governance and informal job generation. Based on extensive original research including semi-structured interviews, the book discusses the ways in which the government combines the new techniques with old campaign-style policy techniques. The author argues that these multiple modes of governance make the state's power visible in the new Chinese labour market, and at the same time run the risk of policy incoherence or even failure.

We all go a little crazy sometimes... Jasmine has spent five years underground, locked in a secret government bunker. Outside, the world has gone to hell, a mysterious virus killing all but 1 in 20 of the world's population. It's enough to drive anyone mad - but Jasmine's crazier than most. The cure she was working on had an unexpected side effect, psychotic symptoms which only powerful drugs can suppress. Jasmine's rescuers, the pirate rulers of the New Caribbean, don't care. They need Jasmine's help to discover what it is that has turned the inhabitants of Cuba into rabid killers. Jasmine's quest to find a cure for this new plague, as well as for her own madness, draws her across the fractured continent of America and into the darkest recesses of her own past.

Your mind produces up to 70,000 thoughts a day—most of which are responsible for the decisions that you make. These decisions also determine your success both professionally and personally. However, we are taught what to think and not how to think. Information overload, short time frames and past failures can make even simple decisions and problems daunting. Do you lack confidence in your problem solving ability? Do you feel anxious when faced with a tough decision, or overwhelmed by lots of alternatives? Do you wish there was a formula for getting everything right? Executive coach and educator, Tremain du Preez, fills this book with practical tools and effective techniques, all presented in a clear and practical manner. Making the right decision will be a breeze and no problem will be too difficult to handle when you are armed with these new and proven strategies.

*Following the 30th Anniversary edition of The Legacy comes the thrilling sequel, The Talisman, from bestselling screenwriter and author of The Dirty Dozen, Lynda La Plante. The Talisman is the key to a fortune, or so the tradition says. Each new generation can benefit if they remain selfless enough. Evelyne and Juliana, the fourth generation, are still haunted by the family's past. Edward inherited his father's looks - and his curse - while Alex's quest for revenge will fuel an empire. But a fortune can make people ruthless - and a family can hit you where it hurts. This is the passionate story of a family's live and fortunes and the curse that forged their names . . . ***Lynda La Plante's Widows is now a major motion picture*** Praise for Lynda La Plante 'Lynda La Plante practically invented the thriller' Karin Slaughter 'Classic Lynda - a fabulous read' Martina Cole 'Satisfyingly full of twists and turns' The Independent 'A rare ring of authenticity' Sunday Telegraph 'An absorbingly twisty plot' Guardian

brought together once more. The would-be murderers, three of them, lost one of their own soon after that night from wounds he had received at the hands of their intended victim. Three years later, a second of them fortuitously became the victim of that same man they would have killed. The third and last one, attempting to recover the failing fortunes of the family in a poker game on the river, saw the means to cheat his opponent and at the same time to be rid of his sister who had unexpectedly shown up again. His first attempt on her life as they had travelled upriver had failed, and a second attempt would be difficult now that she expected it and now that she had a protector. He saw another way to be rid of her: in a poker game where he would wager her away. If only it could be that simple. He had no idea the trouble he would cause by that act. The unexpected outcome of that game brought two individuals closer together and eventually healed the initial disruption that had seen them torn apart five years earlier.

Suddenly, in 1994, the author stopped taking life for granted. When her existence filled with sunshine, parties and good times came to an end. A near fatal car crash left her comatose for six weeks; Gillian doesn't know what happened on that night and 'never will'. 'Gillian Mk2' chronicles her feisty determination to regain independence in a society where she was invisible. We follow her trek for the first four years. From hospitals, doctors, falls, nurses onto more hospitals, specialists, falls, attitudes, patients... Gillian Firth is lucky, clearly her family adore her, she lives to tell the tale and does so with blunt honesty. She knew nothing and only remembered she smoked because Pathetic bought her cigarettes, into the hospital ironically, her mum went mad. A Traumatic Brain Injury (TBI) is serious, life-changing, but you laugh out loud, then cry and laugh again, as we listen to Gillian speaking. Watch how she improves, cringe or agree with her observations, feel the anger and frustration, be embarrassed by comments and reactions. This author will be remembered for her flippant, but serious, heart rending yet hilarious, kick in the teeth, that's what it is. Funny, factual and inspirational... my eyes are open.

Stanislavski's 'system' has dominated actor-training in the West since his writings were first translated into English in the 1920s and 30s. His systematic attempt to outline a psycho-physical technique for acting single-handedly revolutionized standards of acting in the theatre. Until now, readers and students have had to contend with inaccurate, misleading and difficult-to-read English-language versions. Some of the mistranslations have resulted in profound distortions in the way his system has been interpreted and taught. At last, Jean Benedetti has succeeded in translating Stanislavski's huge manual into a lively, fascinating and accurate text in English. He has remained faithful to the author's original intentions, putting the two books previously known as *An Actor Prepares* and *Building A Character* back together into one volume, and in a colloquial and readable style for today's actors. The result is a major contribution to the theatre, and a service to one of the great innovators of the twentieth century.

Are you picking up all your students' work is trying to tell you? In this book, assessment expert Susan M. Brookhart and instructional coach Alice Oakley walk teachers through a better and more illuminating way to approach student work across grade levels and content areas. You'll learn to view students' assignments not as a verdict on right or wrong but as a window into what students "got" and how they are thinking about it. The insight you'll gain will help you * Infer what students are thinking, * Provide effective feedback, * Decide on next instructional moves, and * Grow as a professional. Brookhart and Oakley then guide teachers through the next steps: clarify learning goals, increase the quality of classroom assessments, deepen your content and pedagogical knowledge, study student work with colleagues, and involve students in the formative learning cycle. The book's many authentic examples of student work and teacher insights, coaching tips, and reflection questions will help readers move from looking at student work for correctness to looking at student work as evidence of student thinking.

Family always comes first. Alma, New York is the perfect town, right down to the coordinated shopfront decorations on Main Street, and Gina Dewar is the perfect wife, mother, daughter-in-law. She understands the responsibility that comes with marrying into America's golden family, and she tries not to burden her husband Bobby with drama from her own small-town past. But a summer house in the Hamptons doesn't always buy happiness, and the Dewars aren't quite as apple pie as they seem. When Bobby is publicly accused of having an affair cracks start to appear in the Dewar clan, and when he denies any knowledge, Gina faces an impossible dilemma. Should she stand by her husband, or listen to her sister-in-law, telling her that there is more to this story? As the town explodes with speculation, Gina tries to keep the gossips out of her marriage. After all, no one knows better than her that secrets should stay in the family. But then she

hears the rumor that Bobby's supposed mistress is pregnant and she is shaken to the core. With the future of her family so uncertain, Gina is about to find out what she's willing to do to protect those she loves...
