This memoir of "a happy childhood in rural Missouri just before the digital revolution [is] a sweet record of a time and a place that was not Always On." —St. Louis Post-Dispatch Spanning one year of the author's life—1984—I Will Not Leave You Comfortless is the intimate memoir of a young boy coming to consciousness in small-town Missouri. The year will bring ten-year-old Jeremy first loves, first losses, and a break from the innocence of boyhood that will never be fully repaired. For Jeremy, the seeming security of his life on the family farm is

forever shaken by the life-altering events of that pivotal year. Throughout, he recalls the deeply sensual wonders of his rural Midwestern childhood—bicycle rides in September sunlight; the horizon vanishing behind tall grasses—while stories both heart-wrenching and humorous, tragic and triumphant, Jackson weaves past, present, and future into the rich Missouri landscape. “I could smell the mulberries crushed underfoot and the sweet steam of the cinnamon roll Grandma heated in the toaster oven just for Jeremy, hear the ever-increasing volume of an approaching late-spring storm . . . The year of Jeremy Jackson’s life on which he meditates in *I Will Not Leave You Comfortless* marked his transition from the perfect happiness of childhood to the much more complex reality of adulthood. It records, as well, the abiding comfort that remains—family, home and love.” —Wichita Eagle “Jackson writes about Missouri as the young Hemingway wrote about Michigan: with a clear eye; with hard-edged nostalgia; and (here’s the thing) with brilliance.” —Darin Strauss, author of *Half a Life* Jay Winder is back in the conclusion of the *Invasion Trilogy*. He and Mandi have taken in a small child and now must fight to protect her and save the world from Lucifer, not Aliens. Lucifer will not go down without a fight! He will stop at nothing to get what he wants and he is not above killing a child to do it. Characters you have come to love and a few new characters come to help Jay in the final battle. Will Jay crumble when faced with an added lose he will encounter or will he prevail? The finally battle between Good and Evil. Love lost, love found, and families who were torn apart will they be reunited? In the end, there can be only one...

The Livingston family probably originated in Germany. Johann Georg Liebenstein emigrated from Germany to America in 1732. He settled in Pennsylvania and was the father of eleven children, the eldest being John Adam Liebenstein (1739-1820). Adam, as he went by, later changed his name to Livingston. He later moved to Virginia. He was the father of at least eight children. One of his children was Jacob Livingston (1773-1854) who married Mary Klein and later settled in Hawkins County, Tennessee. They were the parents of thirteen children. Descendants live throughout the United States.

Fieldwork extending over a thirty-year period provided materials for this book. Paths and Rivers offers an unusually deep and broad picture of the Sa'dan Toraja as a society in dynamic transition over the course of the past century. The Toraja inhabit the mountainous highlands of South Sulawesi, Indonesia, and are well known for their dramatic architecture, their unusual cliff burials, and their flamboyant ceremonial life, which places extraordinary economic demands on individuals and families. The analysis is informed, firstly, by a comparative perspective which sets Toraja social structure in the context of the Austronesian world. Secondly, the author delves deeply into Toraja social memory to show how people think about the past. She examines the usefulness of history and myth in the present as a source of identity, a template for action, or a resource by means of which to claim precedence. The book gives a clear picture of the structure and ethos of the indigenous Toraja religion, the Aluk To Dolo or "Way of the Ancestors", with its complex cycle of rituals. The book concludes with an analysis of the ceremonial economy, which draws upon both domestic subsistence production and the global market economy.

Wake up, Lien. Think for yourself! describes the origins and some of the history and the excesses of Christianity and Islam. It shows how mind-control enters into the formation of these religions, and it urges the reader to free himself or herself from the out-dated notions that may have been implanted in his mind by parents, teachers, and religious functionaries. It suggests the Eastern teaching of reincarnation as a possible substitute as that appears to be a more satisfying and logical belief system.

One warm July night, when thoughts of Ireland are far from James Dwyer's mind, a homeless man with a sunburnt face, who smells like dry wood, comes to the screen door of his Michigan apartment. Walter has two messages. The first is that an old lady is lying in the middle of his street. But when James goes to look there's nobody to be seen. The second, while apparently more ordinary, is ultimately more troubling: a childhood friend wants him to visit. Kevin Lyons, the wayward older son of a neighbouring builder James knew long ago as a boy in Tipperary, now lives in the USA too, and wants to reconnect with his past. But James, who has spent years establishing

the foundations of his American life, has put that past behind him. As the day of the visit approaches, James slowly re-examines the mysteries of that time: what happened to Aunt Tess, who went away to become a nurse in Dublin; what Kevin's father was really doing late at night by candlelight in his makeshift office in the yard; what became of Kevin's red-haired sister Una, who young Jimmy fell for in a big way and whether, after all these years, people like Kevin ever really change. *The Visitors* is a captivating story of the interwoven fates of two families, of the gap between childhood and the adult world, between a river in Ireland (and all that happened there) and another in America, and of the shocking revelations that come with crossing the divide.

Seasons in the Sun is the memoir of a college student/athlete in the mid-1970's. Bill Hauser played quarterback at Ohio's Wittenberg University, one of the top small-college football teams in America, and for one of the most successful coaches in the game. This book takes the reader through the ups and downs of competition and the life-lessons learned from that experience. But it is not all about football. The author's enjoyment of music of the period is woven throughout the book with popular songs of the time serving as chapter titles. If you remember the 1970's — the music, the events of the time and the college experience — you should enjoy this book. If you are a fan of college football, particularly small-college football, you likely will enjoy the intimate look at what the game was like in the 70s. Younger readers might also find the contrast in student life today and back in the 70s interesting and amusing. And the lessons learned and training received on the gridiron are as relevant in the present as they were back then.

It would seem that the end of every war has been followed in the United States by social and moral changes, mostly for the worse. Zane Grey certainly felt that way about the effects of the Great War, and to show these changes and how to cope with them became the impulse behind what he called *The Water Hole*. However, before magazine publication, changes were made in his text, including the names of all the characters. Fortunately Grey's original handwritten manuscript has survived, so now this story can be told with his characters named and presented as he intended them to be. In 1925 widowed businessman Elijah Winters brings his daughter, Cherry, from Long Island to stay at a trading post in a remote area some distance from Flagstaff, Arizona. Removed from the country clubs and speakeasies, Cherry is at first bored with simple ranch life, and to entertain herself she flirts with several of the cowboys, not realizing they are very different from the young men she knew back east. Also very different is Stephen Heftral, a young archaeologist who is searching for an ancient and lost kiva of a primitive Indian tribe that disappeared centuries before in what became the land of the Navajos. Heftral believes that this lost kiva is most probably in a desert fastness called Beckyshibeta, the Navajo word for water hole. Elijah colludes with Heftral to awaken Cherry to a new and healthier way of life by taking her, by force if necessary, to the site. Cherry resents being kidnapped but comes to forget the luxury of her past in the beauty and dangers of the canyons-and in the thrill of making an important archaeological discovery.
