

Sir Rhys Ap Thomas And His Family A Study In The Wars Of The Roses And Early Tudor Politics

Sir Rhys Ap Thomas and His Family A Study in the Wars of the Roses and Early Tudor Politics
Written with an exciting combination of narrative flair and historical authority, this interpretation of the tragic life of Catherine Howard, fifth wife of Henry VIII, breaks new ground in our understanding of the very young woman who became queen at a time of unprecedented social and political tension and whose terrible errors in judgment quickly led her to the executioner's block. On the morning of July 28, 1540, as King Henry's VIII's former confidante Thomas Cromwell was being led to his execution, a teenager named Catherine Howard began her reign as queen of a country simmering with rebellion and terrifying uncertainty. Sixteen months later, the king's fifth wife would follow her cousin Anne Boleyn to the scaffold, having been convicted of adultery and high treason. The broad outlines of Catherine's career might be familiar, but her story up until now has been incomplete. Unlike previous accounts of her life, which portray her as a naïve victim of an ambitious family, this compelling and authoritative biography will shed new light on Catherine Howard's rise and downfall by reexamining her motives and showing her in her context, a milieu that goes beyond her family and the influential men of the court to include the aristocrats and, most critically, the servants who surrounded her and who, in the end, conspired against her. By illuminating Catherine's entwined upstairs/downstairs worlds as well as societal tensions beyond the palace walls, the author offers a fascinating portrayal of court life in the sixteenth century and a fresh analysis of the forces beyond Catherine's control that led to her execution—from diplomatic pressure and international politics to the long-festering resentments against the queen's household at court. Including a forgotten text of Catherine's confession in her own words, color illustrations, family tree, map, and extensive notes, *Young and Damned and Fair* changes our understanding of one of history's most famous women while telling the compelling and very human story of complex individuals attempting to survive in a dangerous age.

King and Country is a selection of essays and papers from Ralph A. Griffiths, published variously in Wales, England, France and North America between 1964 and 1990. It explores themes in the history of England and Wales in the Fifteenth Century and the dominions of the English crown beyond.

Jasper, Earl of Pembroke, Duke of Bedford, brother and uncle of kings, was a central figure in the Wars of the Roses, and the Lancastrian claimant during the reign of Edward IV. The second son of Owen Tudor and the widowed queen Katherine of Valois, he was the half-brother of Henry VI, who gave him a prominent role at court. As one of England's major nobles and a potential successor to Henry, he was seen as a threat by Yorkists. He took part in the major battles of the war, leading the Lancastrian forces at Mortimer's Cross and Tewkesbury. The tempestuous politics in England meant that he had to spend time in exile in Brittany, taking his nephew, Henry, with him.

Under Jasper's influence, Henry prospered and returned to England to defeat Richard III at the Battle of Bosworth, leading to the establishment of the Tudor dynasty. Despite his important place in history, Jasper has become the forgotten kingmaker, neglected by historians. This book is the first full academic study of him, drawing upon contemporary sources from England, Wales and France, and the wider historiography to present a detailed and superbly-researched biography. Lise Hull takes the reader on a cultural and historical tour of Britain's medieval castles, with a special emphasis on how these structures evolved to serve their inhabitants' changing military and political needs.

Elidir Ddu (fl. 1302-1326) was the son of Elidir ap Rhys of Crug, Wales. He was the father of Philip and grandfather of Nicholas ap Philip ap Syr Elidir Ddu. Nicholas married Sioned, daughter of Gruffydd ap Llwelyn Foethus of Llangathen and became the father of Gruffydd ap Nicholas who became a powerful Welsh nobleman. He was married three times and became the father of eleven children, several of whom also rose to prominence. One of his grandchildren was Sir Rhys ap Thomas (d. 1525) who was important during the Wars of the Roses and then aligned himself with Henry VII, a fellow Welshman.

This sixth volume of the Buildings of Wales series covers two counties, Carmarthenshire and Ceredigion (formerly Cardiganshire) in the south-west of Wales. Like the same authors' Pembrokeshire, the volume covers an architecture still little known, hut encompassing a sweep from prehistoric chambered tombs to the high technology of the world's largest single-span glasshouse. The Buildings of Wales, founded by Sir Nikolaus Pevsner (1902-83), will, when complete, document and describe the architecture of the Principality in seven regional volumes, complementing the sister series on England, Ireland and Scotland. In each one a gazetteer details all buildings of significance from megalithic tombs and Iron Age hill-forts, via grand seventeenth-century houses to Victorian domestic extravaganzas, great industrial centres and monumental public buildings. The countryside is explored to reveal churches, chapels, farmhouses, and traces of early industry. The gazetteer is complemented by an introduction which explains the broader context and builds a complete picture of the country's architectural identity. Each work is illustrated by numerous maps, plans and photographs, completed by glossaries and indexes, and gives a comprehensive and illuminating survey of the buildings of Wales.

In 1485 on a battlefield in Bosworth, King Richard III was dealt a death blow by the man who had sworn loyalty to him only a few months earlier. He was Rhys ap Thomas. This is the story of the man who helped forge the course of British history.

Over 2.260 biographical articles and 218 constituency articles are included in this three volume set of the History of Parliament in the first half of the sixteenth century. Among the biographies are those of Sir Thomas More and Thomas Cromwell; and despite the difficulty of obtaining information about these early parliaments - the official returns for many of the early parliaments or Henry VIII are lost and such names as can be found have often had to be reconstructed from civil, municipal and parish records - many of

Excerpt from The Thomas Book, Giving the Genealogies of Sir Rhys Ap Thomas, K. The Thomas Family Descended From Him, and of Some Allied Families The inheritance of a good name and the memory of the noble deeds of our forefathers, or merely of their simple honesty and their self-respecting labour for daily bread, must have its influence on our lives. Noblesse oblige, if not misapplied, is a true principle, and one of special value to our American civilization, which is too apt to measure every thing by the yardstick of commerce, and to value a man by his present possession of material wealth, quite irrespective of his antecedents. These cannot be known unless they have been recorded in some permanent shape. Left to be handed down by tradition or popular report, they will soon be forgotten. Bosworth stands alongside Naseby and Hastings as one of the three most iconic battles ever fought on English soil. The action on 22 August 1485 brought to an end the dynastic struggle known as the Wars of the Roses and heralded the dawn of the Tudor dynasty. However, Bosworth was also the most famous lost battlefield in England. Between 2005 and 2010, the techniques of battlefield archaeology were used in a major research programme to locate the site.

Bosworth 1485: a battlefield rediscovered is the result. Using data from historical documents, landscape archaeology, metal detecting survey, ballistics and scientific analysis, the volume explores each aspect of the investigation _ from the size of the armies, their weaponry, and the battlefield terrain to exciting new evidence of the early use of artillery _ in order to identify where and how the fighting took place. Bosworth 1485 provides a fascinating and intricately researched new perspective on the event which, perhaps more than any other,
