

So You Want To Be A Brain Surgeon

In 1993, Tony Magee, who had foundered at every job he'd ever had, decided to become the founder of a brewery. *So You Want to Start a Brewery?* is the thrilling first-person account of his gut-wrenching challenges and heart-warming successes. Based in Petaluma, California, the Lagunitas Brewing Company makes simple and flavorful craft beer that defies categorization. The same could be said for this book. Equal part memoir, narrative, and business story, with liberal dashes of pop culture and local color, this illuminating yet hilarious account of a one-of-a-kind made-in-America journey just happens to culminate with the success of one of the nation's most popular craft beer brands. In twenty years, Lagunitas has grown from a seat-of-the-pants one-man operation to be the fifth largest—and the fastest-growing—craft brewer in the United States. *So You Want to Start a Brewery?* is a look behind the curtain rather than a simple business story. It's unglamorous and full of hilarious digressions, but it's never afraid to mess with the nuts and bolts. Devoted to details but never boring, this is a must-read for all who have considered starting their own business—or have sweated blood working to get one on its feet. Told in the vibrant voice of the man closest to the process—and with the most to lose—this illuminating volume should quench the thirst of anyone who has ever tried a Lagunitas beer. Tony Magee is the founder and CEO of the Lagunitas Brewing Company. He lives in Marin County, California.

The long-term success of a marriage depends heavily on how well spouses adjust during the early years. Getting good advice early on helps couples manage expectations and encourages them to prepare by discussing key issues. *SO, YOU WANT TO GET MARRIED?* consists of 12 letters that the author wrote to an engaged couple some years ago. The informal letter format provides a useful tool to share insights that are significant to young lovers who are in the process of courtship or who are engaged. The author's sincere prayer is that these pages will touch readers' lives in a deep and wonderful way, and serve as reminders that Jesus Christ is the Author of marriage and as such is the Way, the Truth, and the Life in this as in every area of life. *So You Want to Be a Teacher* is a bit of light reading in a troubled world today. I left names by the wayside and emphasized actions, especially innovative behavior. The students I enjoyed were full of mischief, but for the most part, it was simply that—mischief. Very few of the students I taught in my forty years were bad—they just needed a bit of love and understanding. Who cares what Socrates said when you are a student who had no supper the night before? I try to be a stepping-stone, not a stumbling block.

government mandated that large church buildings become government buildings and museums, while small churches were bulldozed? What if all known men and women of God were designated enemies of the state and either imprisoned in solitary confinement or summarily executed? What if the government started a new state religion, which was clearly a substitute for the worship of Yahweh God? What if you seemed to be the only one who recognized the situation, the only person who still recognized and prayed to God? Would you keep a low profile for your own safety? Would you pray for God's honor? This is exactly the situation in which Elijah found himself in ancient Israel. Not only was he apparently the only man of God left in the land, he was seemingly a nobody. He was an ordinary man living in a rural area. Join us as we examine Elijah's life in the crucible of ancient Israel, where he jumped from obscurity to the most wanted, where the entire government mobilized itself to find him, in order to put him to death. Join us as we follow his death-defying steps to one of the greatest miracles of God in all history. Would you like to be an Elijah?

What does it take to be a scientist? Equally important, what does it take to be happy as a scientist? Drawing on thirty years of experience, Philip Schwartzkroin offers the budding scientist an invaluable glimpse into the day-to-day life of the researcher, filling a huge hole in the education of most would-be scientists--whether undergraduates or high school seniors. As Schwartzkroin points out, many of the most important things researchers learn as they hone their craft are not written down anywhere. And many of these insights come as a surprise to the naïve and well-meaning student who somehow believes that "doing research" is an occupation that is substantially different from doing

a job in "the real world." This book looks at the "job" of science. Starting with suggestions about how to decide whether you'd want to pursue such a career (and if so, how to get started), the book works through some of the obvious topics relevant to a research profession--how to write a paper, give a talk, construct a grant proposal. It also examines less obvious topics that are generally incorporated into a research education only by trial and error--"thinking" like a scientist, negotiating scientific politics, dealing with research ethics, and understanding social interactions. And the book includes many "real-life situations" that may confront the young scientist, along with the author's advice on how to solve these problems. Based on the author's long career in the laboratory and his rich experience mentoring trainees, *So You Want to be a Scientist* provides information and insights that will help the young scientist make better decisions and choices. It will also be useful to teachers, counselors, and parents for its realistic look at the demands and requirements for success in a research career.

So You Want to Be Married offers a guide to dating and marriage that will walk you through key steps to having a successful marriage in the Lord. It teaches the keys to embrace your singleness with the Lord and the patience to wait for the man or woman of valor. Author Lady M presents this guide as a testimony resulting from circumstances surrounding her own relationships that were not in alignment with God's purpose and plan, but initiated by her own will, even years later after entering into a marriage that ended in divorce. During her separation, the Lord pressed upon her heart the inspiration to express the importance of seeking God in your friendship, courtship, and marriage. *So You Want to Be Married* is aimed at the women and men who desire to be married, but only think about the hype of the wedding day, forgetting about the vows, the commitment, and the true meaning of marriage. It intends to minister to the heart of the Lord's people so they may receive the knowledge to wait for that special mate chosen by our Father, with testimonies throughout the book from brothers and sisters of the body sharing words of encouragement.
