

Social Problems By James Henslin 11th Edition

A sociological understanding of social problems. *Social Problems: A Down to Earth Approach*, 11/e is a theoretically balanced text that provides the latest research and a consistent structure to help students analyze critical social problems facing the United States. The author presents both sides of an argument with a neutral voice and uses a "down-to-earth" writing style. By using this text, not only do students gain a sociological understanding of social problems, but also they are able to explore and evaluate their own opinions about specific social problems. They will gain a greater awareness of the social forces that shape their orientations to social problems and their perspectives on social life. The ideas in this book penetrate students' thinking and help give shape to their views of the world. MySocLab for Social Problems features an engaging student experience including an interactive eText, the New Core Concepts Video Series, the New Social Explorer. Teaching & Learning Experience Personalize Learning – MySocLab is an online homework, tutorial, and assessment program. It helps students prepare for class and instructor gauge individual and class performance. Improve Critical Thinking – Thinking Critically About the Chapter – At the end of each chapter are several questions designed to help students evaluate what they have read. These questions also lend themselves well for stimulating class discussions. Engage Students –Opening Vignette – Intended to arouse student interest in the social problem and to stimulate the desire to read more, this brief opening story presents essential elements of the social problem. Explore Research –Spotlight on Research boxes – Major researchers in social problems share an insider's perspective of how they became interested in a social problem and how they did their research Explore Theory – The three basic theories – Symbolic interaction theory, functional theory, and conflict theory— are introduced early in the text; giving students the opportunity to immediately grasp the differences of these theories. Support Instructors – MySocLab, Instructor's eText, Instructor's Manual, Test Item File, Electronic "MyTest" Test Bank, PowerPoint Presentation Slides, and Pearson Custom course material are available. Project Report from the year 2010 in the subject Law - Criminal process, Criminology, Law Enforcement, grade: A, The University of the West Indies, St. Augustine (-), language: English, abstract: The term recidivism falls under the umbrella of Criminology, which "embraces environmental, hereditary or psychology causes of criminal behaviour, modes of investigation and conviction and the efficacy of punishment." It is considered as a critical aspect of the Criminal Justice System and refers to 'repeated or habitual criminal behaviour' (Taylor, 1984). The assumption made here is that, when the crime rate increases, the number of individuals committing crimes increases. In other words the rate of recidivism is increasing. Recidivism is the act of a person repeating an undesirable behaviour after they have either experienced negative consequences of that behaviour, or have been treated or trained to extinguish that behaviour. It is also known as the percentage of former prisoners who are arrested. Dr. Ken Pryce (1982), states that 'recidivism simple means repetitive criminal or deviate behaviour among low income offenders and usually implies that the treatment or punishment has failed to bring about a permanent change or cure.' Recidivism rates vary according to individual and contextual/social level risk factors. In this study the authors have identified only three individual level risk factors which include previous history dynamics, psychopathic disorder and educational performance and school discipline. The contextual or social (aggregate) level risk variables comprises of family factors, community factors and peer influence.

Social Problems in a Diverse Society provides students and instructors with a text that covers all the major social concerns we must deal with today. It focuses on the significance of racialization and ethnicity, age, sexual orientation, class, ability, and gender in understanding social problems in Canada and around the globe. Throughout the text, people--especially those from marginalized groups--are shown not merely as "victims" of social problems, but also as individual actors with agency who resist discrimination and inequality and seek to bring about change in families, schools, workplaces, and the larger society. The story of a kind of poverty in America so deep that we, as a country, don't even think exists from a leading national poverty expert who defies convention ("New York Times")

Rich with special feature sections and boxes, this broad, theoretically balanced introduction to contemporary social problems provides readers with a thorough understanding of major social problems facing the United States—their causes, consequences, likely future course, and what can be done about them. It provides the basic data and the sociological frameworks for interpreting those data. Features Social Maps and a variety of boxes: Technology and Social Problems; A Global Glimpse; Divided Society; Thinking Critically About Social Problems; and Issues in Social Problems. Covers a full range of social problems and how sociologists view and interpret them: Aging; Prostitution, Homosexuality, and Pornography; Alcohol and Other Drugs; Rape and Murder; Crime and Criminal Justice; Wealth and Poverty; Race and Ethnic Relations; Sex Discrimination; Problems of Physical and Mental Illness; Education; The Changing Family; Urban Problems; Population and Food; The Environmental Crisis; and War, Terrorism, and the Balance of Power. For anyone interested in acquiring a solid foundation in the kinds, causes, consequences, and solutions to a broad range of some of today's most pressing social problems.

In this work, Internet exercises are placed at the end of each chapter. Spousal abuse is used as a new unifying example in the Research Methods chapter.

A latest edition of readings for the Introductory Sociology college market features thirty percent new articles that address current issues of contemporary sociology, from gender and politics to religion and AIDS, in a collection complemented by correlating charts that list key introductory textbooks. Original. 20,000 first printing.

Updated with recent issues such as the national debate on health care reform, this Second Edition of How Can We Solve Our Social Problems? gives students a sense of hope by demonstrating specific, realistic steps we can take to solve some of the most pervasive social problems in America today. Author James Crone maintains a sense of sociological objectivity throughout and helps students realize that we can take steps to solve such key social problems as poverty, racial and ethnic inequality, unequal education, and environmental issues. The book's first two chapters define "social problem,," provide a theoretical background, discuss the daunting barriers we face in attempting to solve social problems, and demonstrate how sociology can help.

Taking a conflict approach, Eitzen and Baca Zinn focus on the underlying features of the social world in an effort to help students to understand today's social problems.

For thirty-five years and through thirteen editions, Jim Henslin's Down to Earth Sociology has opened new windows onto the social realities that shape our world. Now in its fourteenth edition, the most popular anthology in sociology includes new articles on our changing world while also retaining its classic must-read essays. Focusing on social interaction in everyday life, the forty-six selections bring students face-to-face with the twin projects of contemporary sociology: understanding the individual's experience of society and analyzing social structure. The fourteenth edition's exceptional new readings include selections on the role of sympathy in everyday life, mistaken perceptions of the American family, the effects of a criminal record on getting a job, and the major social trends affecting our future. Together with these essential new articles, the selections by Peter Berger, Herbert Gans, Erving Goffman, Donna Eder, Zella Luria, C. Wright Mills, Deborah Tannen, Barrie Thorne, Sidney Katz, Philip Zimbardo, and many others provide firsthand reporting that gives students a sense of "being there." Henslin also explains basic methods of social research, providing insight into how sociologists explore the social world. The selections in Down to Earth Sociology highlight the most significant

themes of contemporary sociology, ranging from the sociology of gender, power, politics, and religion to the contemporary crises of racial tension, crime, rape, poverty, and homelessness.

An anthology of readings 1) that make clearer the interrelationships of social problems (both to one another and to the social institutions of society), 2) that show that social problems do not stand in isolation but are deeply embedded in our culture, and 3) that suggest that solutions require fundamental change in our culture.
