Strategic Financial Management is an all-inclusive textbook intended to meet the necessities of postgraduate management students specializing in area of finance. The purpose of this book is to acquaint readers with the theoretical and practical aspects of managing finance in an organization to maximize its value through various examples and exhibits. The book begins with an introduction to strategy, financial planning and the method of financial forecasting. Then it explains the concept related to strategic financial management, its scope and how it is used by managers across organizations. Following this, it explores the risk analysis techniques in the selection of any project. The book also discusses the various aspect of valuation of business and talks about all the valuation approaches used by an organization to value the business in case of strategic alliances like mergers, takeovers etc. Further, various sources of international long term finances and methods for international trade finance have been explained in detail. This book gives the clarity on the concept of strategy and its relationship with financial management and also gives clear picture on valuation aspects of the business in an organization. Providing an interface between strategy and finance, it facilitates both, strategic thinking and financial acumen. It contains creative, pragmatically-tested ideas on strategic management of finance and financial evaluation of strategies. This book has plenteous examples, solved numerical examples and questions for intellectual discussions. A very useful book for the students of MBA and other related program of finance.

This text book discusses comprehensively, all aspects of financial management under the major themes of valuation, financial analysis and planning, capital budgeting, financing capital budgeting, long-term financing, working capital management, dividend decisions, corporate restructuring, risk management, and international finance. With numerous examples, illustrations, cases, and exercises, along with Excel application, it focuses on equipping the readers with theories, concepts, tools and techniques that can be used for effective decision making in this area. Developed primarily for the students of business management, it will be equally useful for the students of other disciplines having a course on financial management. The book offers: • Complete chapters on Financial Management for Government Companies and Financial Analysis and Modeling Using Spreadsheets (on CD) • More than 200 solved and 300 unsolved problems • Excel application – with focus on developing Excel templates for problem solving • Rich in-text features for better classroom discussion and immersive learning experience – ‘Pause and Think’, Project Work, chapter-end exercises and cases • CD with supplementary resources – two additional chapters, solutions manual, excel templates, question bank (objective questions with answers), tables to record one’s level of understanding • Online Learning Centre (OLC) with further supplementary material

The LifeSpan Process of Tax Resolution and Financial Freedom is a step by step approach to dealing with IRS tax problems. This book is designed to help individuals with tax liabilities understand how the financial planning process can work to help them deal with the IRS while eliminating negative financial behaviors that often lead to tax troubles. It may also be used as a tool for tax and financial planning professionals to establish tax debt management programs for their clients. Tax Resolution and Financial Freedom explains how to identify and implement the ideal solution to tax problems. The tax resolution plan outlined in this book uses the basic financial planning process to help people take control of tax and financial problems. The ultimate goal is to achieve tax resolution and financial freedom. If you or someone you know is experiencing financial stress related to tax debt, the steps of the LifeSpan Process provide the best path to Tax Resolution and Financial Freedom.
