Helena Rubinstein was born into a poor Polish family at the end of the nineteenth century; by the time of her death in 1965 she had built a cosmetic empire that spanned the world. When Rubinstein opened her first salon in Melbourne, her scientific approach to beauty was an instant sensation. Women just couldn't get enough of her innovative advice on skincare, and her beauty products were constantly sold out. Having conquered Australia, Rubinstein went on to open salons in Europe and America, at a time when women were barely seen in business, let alone running their own multinational companies. Dressed by Chanel and Yves St Laurent, painted by Salvador Dali and Picasso and mingling with Colette and Proust, Helena Rubinstein not only enjoyed unbelievable success, but was also instrumental in empowering and liberating women. Helena Rubinstein was a total original, and her legacy can still be seen today in the methods used to market and manufacture cosmetics. This is her amazing life story.

Dame Maggie Smith stands as a remarkable example of the concomitance – in a performer's career – of typecasting and characterisation, that is the ability to impersonate 'against type' infinitely various screen or stage characters. This book of appreciation essentially aims at correcting the preconceived image that the general public has of Dame Maggie Smith. Focusing on the last twenty-five years, it examines, through the many parts she has played since the early 1990s, her ability to go beyond typecasting and give, thanks to her chameleon skills, nuanced and convincing portrayals of infinitely diverse characters. From *The Importance of Being Earnest* to *Gosford Park* and *Becoming Jane*, to *Downton Abbey* and *Sister Act*, to *The Last September* and the Harry Potter saga, Dame Maggie Smith has had a wide spanning career in TV and Film. Not to mention her theatrical work on the stage. Author Caroline Fevrier lives in Paris, France and has a passion for theatre and performing. Caroline holds a PhD in Literature and Humanities and an MA in Literature and Drama. She was also trained as a professional performer and has been involved in several stage productions and short movies. Caroline regularly gives lectures on theatre and performance to academic audiences and has published several books on literature and humanities, and now focuses closely on the performing arts.

Martin Luther King's 1965 address from Montgomery, Alabama, the center of much racial conflict at the time and the location of the well-publicized bus boycott a decade earlier, is often considered by historians to be the culmination of the civil rights era in American history. In his momentous speech, King declared that segregation was "on its deathbed" and that the movement had already achieved significant milestones. Although the civil rights movement had won many battles in the struggle for racial equality by the mid-1960s, including legislation to guarantee black voting rights and to desegregate public accommodations, the fight to implement the new laws was just starting. In reality, King's speech in Montgomery represented a new beginning rather than a conclusion to the movement, a fact that King acknowledged in the address. After the Dream: Black and White Southerners since 1965 begins where many

histories of the civil rights movement end, with King's triumphant march from the iconic battleground of Selma to Montgomery. Timothy J. Minchin and John Salmond focus on events in the South following the passage of the 1964 Civil Rights Act and the 1965 Voting Rights Act. After the Dream examines the social, economic, and political implications of these laws in the decades following their passage, discussing the empowerment of black southerners, white resistance, accommodation and acceptance, and the nation's political will. The book also provides a fascinating history of the often-overlooked period of race relations during the presidential administrations of Ford, Carter, Reagan, and both George H. W. and George W. Bush. Ending with the election of President Barack Obama, this study will influence contemporary historiography on the civil rights movement.

"In this highly readable and entertaining book, Jeanine Basinger shows how the "woman's film" of the 30s, 40s, and 50s sent a potent mixed message to millions of female moviegoers. At the same time that such films exhorted women to stick to their "proper" realm of men, marriage, and motherhood, they portrayed --

usually with relish -- strong women playing out liberating fantasies of power, romance, sexuality, luxury, even wickedness...Basinger examines dozens of films -- whether melodrama, screwball comedy, musical, film noir, western, or biopic to make a persuasive case that the woman's film was a rich, complicated, and subversive genre that recognized and addressed, if covertly, the problems of women." In his first novel, biographer James King takes on the character of poet, painter, forger, and supposed serial killer Thomas Wainwright.

The work of Stanley Cohen over four decades has come to acquire a classical status in the fields of criminology, sociology and human rights. His writing, research, teaching and practical engagement in these fields have been at once rigorously analytical and intellectually inspiring. It amounts to a unique contribution, immensely varied yet with several unifying themes, and it has made, and continues to make, a lasting impact around the world. His work thus has a protean character and scope which transcend time and place. This book of essays in Stanley Cohen's honour aims to build on and reflect some of his many-sided contributions. It contains chapters by some of the world's leading thinkers as well as the rising generation of scholars and practitioners whose approach has been shaped in significant respects by his own.

After years abroad, Jasper Wainwright returns to Beaufort, South Carolina, home of his unruly youth. Slavery and Sea Island cotton have made this summer seat of plantation owners one of the wealthiest and most cultured cities in America . . . and also the most hotheaded, secessionist city in the South. Jasper's cousin, Henry Birch, wants him to marry his niece, Cara, a pianist and the prettiest girl in the county. Believing slavery doomed, Jasper has no desire to settle in the South again and so resists both Henry's matchmaking and his growing fascination with Cara. Then anonymous letters in The

Charleston Courier give Jasper an inkling that maybe the South could change. Though his freed slave, Jim, who travels with him, is antsy to leave, Jasper lingers in Beaufort. Amid a whirl of parties, waltzes and duels, Cara is never far from his eyes or his thoughts. As cries for secession grow louder, Jasper works desperately to convince Beaufort planters that gradual emancipation and transition to a wage-based economy could avert the coming storm of war. Sordid Truths Selling My Innocence for a Taste of Stardom The Sordid Truth about Cats

The extraordinary story of the Jewish ex-servicemen fighting fascism in post-war Britain. Returning to civilian life, at the close of the Second World War, a group of Jewish veterans discovered that, for all their effort and sacrifice, their fight was not yet done. Creeping back onto the streets were Britain's homegrown fascists, directed from the shadows by Sir Oswald Mosley. Horrified that the authorities refused to act, forty-three Jewish exservicemen and women resolved to take matters into their own hands. In 1946, they founded the 43 Group and let it be known that they were willing to stop the far-right resurgence by any means necessary. Their numbers quickly swelled. Joining the battlehardened ex-servicemen in smashing up fascist meetings were younger Jews, including hairdresser Vidal Sassoon, and gentiles as well, some of whom volunteered to infiltrate fascist organisations. The Group published its own newspaper, conducted covert operations, and was able to muster a powerful force of hundreds of fighters who quickly turned fascist street meetings into mass brawls. The struggle peaked in the summer of 1947 with the Battle of Ridley Road, where thousands descended on the Hackney market to participate in weekly riots. The history of the 43 Group is not just a gripping story of a forgotten moment in Britain's post-war history; it is also a timely lesson in how to confront fascism—and how to win.

A particularly timely book, given the high proportion of international students and staff in higher education. Public health was the immediate concern when the Covid-19 pandemic struck in Asia, then in Europe and other parts of the world. The response of our education systems is no less vital. Higher education has played a major role in responding to the pandemic and it must help shape a better, more equitable and just post-Covid-19 world. This book explores the various responses of higher education to the pandemic across Europe and North America, with contributions also from Africa, Asia and South America. The contributors write from the perspective of higher education leaders with institutional responsibility, as well as from that of public authorities or specialists in specific aspects of higher education policy and practice. Some contributions analyse how specific higher education institutions reacted, while others reflect on the impact of Covid-19 on key issues such as internationalisation, finance, academic freedom and institutional autonomy, inclusion and equality and public responsibility. The book describes the various ways in which higher education is facing the Covid-19 pandemic. It is designed to help universities, specifically their staff and students as well as their partners, contribute to a more sustainable and democratic future.

The bishop was a figure of unparalleled importance in the tenth and eleventh centuries,

as he married the advantages of his noble birth to the sacramental and pastoral role of bishop, drawing upon the resultant range of powers to intervene in all areas of life. Scholarship on the episcopate in this period, however, has tended to cluster around two themes: the role of bishops in the fragmentation of the Carolingian Empire and the critiques of these bishops levied by certain church reformers. This book moves beyond these subjects and examines the full scope of bishops activities in southwest France, as they ruled their cathedrals, interacted with lay powers, patronized religious communities, and wrestled with the complex nature of their office.
