BORN TO TAKE DOWN BATTLEMECHS... Resourceful, ruthless, beautiful, apparently without fear, Scout Lieutenant Cassie Suthorn of Camacho's Caballeros is as consummately lethal as the giant BattleMechs she lives to hunt. Only one other person in the freewheeling mercenary regiment has a hint of the demons which drive her. **CAUGHT IN A WEB OF DECEIT...** When the Caballeros sign on to guard Coordinator Theodore Kurita's corporate-mogul cousin in the heart of the Draconis Combine, they think they've got the perfect gig: low risk and high pay. Cassie alone suspects that danger waits among the looming bronze towers of Hachiman—and when the yakuza and the dread ISF form a devil's alliance to bring down Chandrasekhar Kurita, only Cassie's unique skills can save her regiment. **AND ONLY ONE WAY OUT.** All she has to do is confront her darkest nightmares...

DREAMS OF GLORY... On the planet Epsilon Eridani, young Tybalt Kelly dreams of one day becoming a MechWarrior—no matter how much his father hates the idea. When the local County Shu Militia starts recruiting for warrior training, Tybalt finally gets his wish. But he might not live to regret it. **SHATTERED BY REALITY.** Because the raw, untested forces of the Shu are about to meet their baptism by fire. Unidentified 'Mech raiders have been hitting cities and supply depots, destroying and plundering at will. And the newly fitted MechWarriors are going after them. Now Tybalt is about to discover the hard truth that some battles have no winner—and in war, glory may be fleeting, but death is forever...

From the Star Wars expanded universe to Westworld, the science fiction western has captivated audiences for more than fifty years. These twelve new essays concentrate on the female characters in the contemporary science fiction western, addressing themes of power, agency, intersectionality and the body. Discussing popular works such as Fringe, Guardians of the Galaxy and Mass Effect, the essayists shed new light on the gender dynamics of these beloved franchises, emphasizing inclusion and diversity with their critical perspectives.

At 16 and a quarter years old BILL MAGELLAN is feeling more like an adult than a youth and with that freedom should come the ability to sleep in on Saturdays, but that won't happen as long as Robert MacManus, the strangest little kid he's ever met, keeps bypassing the locks on his bedroom to wake him up because Robert needs someone older to book the Combat Flight Simulator for him. So begins the sequel to the Young Space Oddity novel ""DEATH IN SPACE - Or What I Did on My Summer Vacation"". And this time they go to Earth before almost dying! When Adella's town is attacked by mysterious raiders and her brother goes missing, she would do anything to bring him home again- even if that means working with the enemy. Kol, a deadly mercenary, finds himself in dire need of Adella's help. The two of them join up with some unexpected allies, and together the group must survive many dangers as they ride across the Campos. But her quest takes an unexpected turn as ancient legends come to life, and she inadvertently lets a powerful artifact fall into the wrong hands. To set things right, Adella and her friends must face assassins, pirates, sea monsters... and that's only the beginning. Will Adella and her friends succeed? Will they survive?

only requirement: Their new job must let them face off against the Clans. They find more than they bargained for. Their assignment: Garrison duty on Wolcott—a Kurita planet deep in the heart of the Clan Smoke Jaguar occupation zone. The world itself is besieged, but protected from further Clan aggression by the Clan code of honor. And Wolcott makes a useful staging area for Kurita raids on Smoke Jaguar-occupied territory. The mission pay is good. The advance is unbelievable. They just have to live long enough to spend it...

The Star Wars epic continues its dazzling space odyssey in *The New Jedi Order*—as Luke and Mara, Leia and Han, and others battle the mighty enemy from beyond the galactic rim. The brutal Yuuzhan Vong are scouring the universe for Jedi to slaughter. With no help from the divided New Republic, the Jedi stand alone against their seemingly invincible foe. Han and Leia Organa Solo risk deadly consequences with their controversial tactics to bolster the Jedi resistance. After uncovering a new Yuuzhan Vong menace, Anakin and Tahiri find themselves wanted for murder by the Peace Brigade. To avoid capture, they jump into hyperspace . . . and into trouble far graver. Hunted by the Yuuzhan Vong, wanted as criminals by the New Republic, and with unrest stirring within their own ranks, the Jedi find peril everywhere they turn. But even in the midst of despair, while the most fiercest battle of all looms on the horizon, hope arises with the birth of one very special child. . . . This book relates the history of asteroid discoveries and christenings, from those of the early pioneering giants of Hersehel and Piazzzi to modern-day amateurs. Moving from history and anecdotal information to science, the book's structure is provided by the names of the asteroids, including one named after the author. Free from a need to conform to scientific naming conventions, the names evidence hero-worship, sycophancy, avarice, vanity, whimsy, erudition and wit, revealing the human side of astronomers, especially where controversy has followed the christening. Murdin draws from extensive historical records to explore the debate over these names. Each age reveals its own biases and preferences in the naming process. “Originally regarded as “vermin of the skies,” asteroids are minor planets, rocky scraps left over from the formation of the larger planets, or broken fragments of worlds that have collided. Their scientific classification as “minor” planets makes them seem unimportant, but over the past decades asteroids have been acknowledged to be key players in

the Solar System. This view of their starring role even alters the trajectories of spacecraft: NASA's policy for new space missions en route to the outer planets is that they must divert to study passing asteroids whenever possible. This book provides for readers a complete tour of the fascinating world of asteroids.

Paul "Rocky" Cody's destiny was laid out for him before he was born. And on the slopes of the Appalachian Mountains in eastern Kentucky, the name Cody means family, and loyalty. But over the years, it has also become synonymous with legends of devil dogs with black fur and yellow eyes; the Appalachian Hellhound, spurring the evolution of the Hellhounds Motorcycle Club. When Rocky's leadership is needed in Michigan, he decides to stay, serving as Vice President for a chapter badly in need of reorganization. Pouring himself into the role, he gives the Marysville Hellhounds his loyalty, his blood, and most importantly, his name. But at forty-two, he's never had a thing to call his own. Sunny Anderson was broken a long time ago, but at thirty, she's managed to pick up the pieces and start over... again. All she wants is a little peace and quiet for her and her daughter, the only thing she's got left. She finds her solace in a little bungalow, surrounded by trees and abandoned farmland. But something more sinister lurks close by, something that will send Sunny on a collision course with the Hellhounds. Forced to stand her ground when the Hellhounds come

WHEN ALL SEEMS LOST... All his life, Sturm Kintaro wanted to be a MechWarrior. Now he is one—untested in combat, but eager to show his prowess and be transferred away from the backwater planet Kore. But he is about to get a bigger opportunity than he ever wanted when a band of interstellar pirates launches a surprise attack and takes control of the planet. After the rout, Sturm finds himself stranded in the frozen wastes of Kore with no 'Mech, no help, and no hope... ONE MAN RISES TO THE CHALLENGE. Until he stumbles upon a long-hidden secret, one that will help him prove himself a worthy MechWarrior. Now Sturm must wage a one-man war against the invading force—and resurrect a ghostly legend of Kore—if he is going to save his people from annihilation. by the ever-present North Atlantic Ocean. This has been a constant in the islanders' history, forging their unique way of life, influencing their customs and traditions, and has been instrumental in moulding their identities. This volume is an exploration of a rich, intimate and, at times, terrifying relationship. It is the result of an international conference held in April 2014, when scholars from across the North Atlantic rim congregated in Lerwick, Shetland, to discuss maritime traditions, islands in Old Norse literature, insular archaeology, folklore, and traditional belief. The chapters reflect the varied origins of the contributors. Icelanders are well represented, as are scholars based in Orkney and Shetland, indicating the strength of scholarship in these seemingly isolated archipelagos. Peripheral they may be to the UK, but they lie at the heart of the North Atlantic, at the intersection of British and Nordic cultures. This book will be of interest to scholars of a wide range of disciplines, such as those involved in island studies, cultural studies, Old Norse literature, Icelandic studies, maritime heritage, oceanography, linguistics, folklore, British studies, ethnology, and archaeology. Similarly, it will also appeal to researchers from a wide geographical area, particularly the UK, and Scandinavia, and indeed anywhere where there is an interest in the study of islands or the North Atlantic.

continents, employs hundreds of jets and, in 2014, was predicting that his spaceship company – Virgin Galactic – would soon open the space frontier to commercial astronauts, payload specialists, scientists and space tourists. With more than 600 seats sold at \$250,000 each, what started off as a dream to send people just for the excitement to look back and marvel at Earth, was on the cusp of finally being turned into a business. Then, on October 21, 2014, tragedy struck. SpaceShipTwo was on its most ambitious test flight to date. Seconds after firing its engine, Virgin Galactic's spaceship was breaking through the sound barrier. In just the three seconds that it took for the vehicle to climb from Mach 0.94 to Mach 1.02, co-pilot Mike Alsbury made what many close to the event believe was a fatal mistake that led to his death and the disintegration of SpaceShipTwo. Miraculously, the pilot, Peter Siebold, survived the 16-km fall back to Earth. Soon after the event Branson vowed to continue his space tourism venture in spite of this. Already a second SpaceShipTwo is being built, and ticket-holders eagerly await the day when Virgin Galactic offers quick, routine and affordable access to the edge of space. This book explains the hurdles Virgin Galactic had and still has to overcome en route to developing suborbital space travel as a profitable economic entity, and describes the missions that will be flown on board SpaceShipTwo Mk II, including high-altitude science studies, astronomy, life sciences, and microgravity physics.

Since the 1960s the South Bronx has been reduced to an archetype of the "inner city," the exemplar of urban decay and of the cultural renaissance produced by hip hop.

Peter L'Official turns to literature and visual arts to capture the history of a place whose truth lay obscured between the Bronx as symbol and the Bronx as lived fact.

charismatic leader-dared to raise the flag of rebellion. That man is Hawk Hunter. In the middle of a fierce battle with the Imperial forces, Hunter suddenly finds himself alone. His badly-damaged fleet has vanished-gone through a portal to another dimension. They can lay low, rest, make repairs, and gain strength for their next assault. But the enemy also finds the portal-and it leads them to a different dimension where they discover powerful and deadly new allies. Now Hunter must undertake his own Interdimensional search for support. Because when the portal reopens, the battle that follows could destroy not only the rebels and the Empire, but also the entire galaxy.
