This book provides up-to-date information on lymphatic filariasis supported with abundant images, tables and algorithms. It is a first such monograph on a disease that has varied presentations which are complete clinical entities, such as chyluria, hydrocele, elephantiasis, etc. This book consists of three parts, parasitology, acute clinical manifestations and chronic presentations of the disease. Approximately 120 million people are infected with lymphatic filariasis in tropical and subtropical countries. About a third of these suffer clinical consequences of this infection, and many are seriously disfigured. India, Indonesia and Nigeria are the most endemic countries in the world. In spite of Global Control Program of WHO, filariasis continues to be a significant medical challenge and current efforts underway will take a long time to bring it under control. Lymphatic Filariasis is meant for general surgeons, physicians, urologists and plastic surgeons, including the postgraduate students. Useful for epidemiologists, internists, and those involved in filariasis prevention programs.

PREFACEThis book is born out of desire to provide a complete, authoritative, current short textbook on surgery. We are fortunate to have been guided by our teachers and supported by our colleagues throughout this goal. An attempt has been made to make this book reader-friendly, while not compromising on the aspect of providing students with necessary information and a better clinical understanding of surgery. Text has been presented in a simple and lucid language so as to help understand and give a summary of the subject better. New topics like fascinating signs, misnomers, triads and other interesting chapters like "Day Care Surgery" have been included. While this book has been compiled with undergraduates in mind, we are confident that it will serve as a useful reference for postgraduates. In compiling this book we have consulted many authoritative books (Bailey and Love's, SRB's Manual of Surgery, Clinical Surgery by S.Das.) and we sincerely express our appreciation and gratitude to all of them. We are grateful to our chairman Prof: Akmal Jamal for guiding us throughout the writing of this book. We thank Dr. PK Iohana for guiding in every step till the publication of the book.
