How many times have you thought about quitting smoking? How many times have you tried to kick the habit only to give into your cravings and light up again? I've been there. While there are many books focusing on helping people quit smoking, few have them were created by people who really know what it's like to be heavily addicted to the smoker's lifestyle.. and it really is a lifestyle, isn't it? We smoke to be social, we smoke after a good meal with friends, we smoke to relax, and we even smoke just for the joy of it all.. whether it's a choice or not doesn't matter, we don't all hate smoking, we all just know how incredibly risky it is to keep on doing it. So, we stick on the patch and try our hardest to resist the temptation of lighting up.. when that doesn't work, we try chewing on nicotine gum, only to burn our throats and gag at the flavor that hardly replaces a cigarette.. and after those things fail us miserably, we become guinea pigs to hypnosis or magnetic jewelry, all claiming to be instant solutions to butting out that last cigarette, permanently. Yet, how many of those things really work? Our cravings are stronger than most of the aids, and despite how seriously committed you are to quitting, without a solid system in place, you are likely going to continue to shell out money trying every new gimmick to hit the market, only to continue right back where you started. But it doesn't have to be that way... Independent cessation is extremely difficult, with a long-term success rate of 3-9%. Couple this difficulty with the fact that many female (and some male) smokers do not even try to quit because they are afraid of the resulting weight gain, and it seems a near impossibility for smokers to quit alone. Any amount of counseling, from even one ten-minute session, drastically improves a person's chances for cessation success. Many therapists have clients who smoke, yet they do not encourage them to quit because they feel under-equipped to help them. There are very few books for mental health workers that teach smoking cessation techniques; almost all of the books on the market are self-help based. Of those that are for the clinician, most are not user-friendly at all, and none discuss the secondary concerns of weight gain. This guide teaches therapists, in easy to follow session modules, proven methods for their clients to stop smoking, and to avoid the resulting weight gain. Structured as a 16-week group program, this treatment teaches clients to break their smoking habit first, then to avoid replacing that habit with unhealthy eating. If you have ever thought, "wouldn't it be nice to quit smoking" than you've set the mood and you're ready to begin. It's easier to quit nicotine than you think! JW Smith, a smoker for 40 years, wrote this book after ending his vicious cycle of numerous failed attempts to quit. His system for nicotine cessation evolved over a subsequent six-week period of preparation to quit. He shares his story about a conversation with his nine year-old granddaughter that finally set the wheels in motion to find a better way - one that works. JW researched smoking cessation methods and used his own experience to forge a new path. This book may very well be destined to be in a category by itself in the nicotine cessation world of recommendations and advice. Why? Because it works! JW makes the case that smoking cessation is not an event, but rather a process. His book will teach you the key cognitive techniques he used to end both the physical and psychological addictions to nicotine. It debunks myths about nicotine replacement therapy products and instead lays out a natural progression of steps for becoming a nonsmoker. The premise of the book is based on this famous quote; "When you change the

way you look at things, the things you look at change." In the beginning of the book it is recommended to establish an environment and path of least resistance. Less resistance to quit is the first key step to becoming nicotine free. It is recommended that readers continue the use tobacco products including e-cigarettes while reading the book over a two or three day period of time- helping again to establish less resistance to quit. He additionally recommends as a first step that you tell no one of your desire to quit - preventing anyone including yourself of sabotaging your intention. As you apply the techniques and methods written about it becomes a natural procession leading up to your very last cigarette or use of chewing tobacco. A transformation of your thinking takes place and ending your addiction will seem like an "almost non-event" - as something just happens to you as you read this book. You will be physically and mentally prepared to end your addiction after reading this one of a kind book. Free from nicotine for life - and all the great rewards that come with it!
