this book is recognised as THE standard reference on the 57 and its close relatives. This book details the origin and racing history of the Ferrari 333 SP. Uniquely, none of the 333 SP models were entered into races by Ferrari itself. The cars were built specifically for customer use; a purchase price of \$900,000 included two spare engines and race technical support supplied by Ferrari engineers. A total of 40 cars were built; the first four by Ferrari, the remainder manufactured by Dallara & Michellotto using Ferrari engines. All of the cars were sold to, and race entries made by, privateer teams. From 1994, the cars contested the IMSA World Sports Car Championship, the United States Road Racing Championship, and the American Le Mans Series, at circuits throughout North America. In 1997, the cars also featured in the Europe-based International Sports Racing Series, as well as the 24 Hours of Le Mans. Two years later, the Doran-Lista team installed a Judd V10 engine into its 333 SP, with the aim of increasing power and improving fuel efficiency. In all, from the 126 races entered, 47 victories were claimed by the 333 SP.

"Prima's" guide for this ultimate racing game includes the tips and info you need to beat the Pros and win the cash. accessory mascots which owners could purchase to individualise their cars  
The new updated and enlarged edition of the only book on the complete Jaguar XK/XKR range of 1996 to 2014. Covering design, development, maintenance, modifications and full model-by-model details, this is the perfect 'handbook' for the XK range.

Automakers are as prone to turn out clunkers as politicians are to lie. Their cars may be ugly, misconceived, badly built, diabolical to drive, ridiculously thirsty, or just plain unreliable. So which were the worst of the past 20 years?

Despite only nine years of production, Vincents continue to be ridden regularly in rallies, hard in racing, and certainly well beyond the normal lifespan of a motorcycle. This book tells the Vincent story from 1946 until the present day, including the stories of those significant individuals who helped to make Vincents such legendary machines.

Luigi Chinetti's association with Ferrari, and the origins, formation and racing history of NART (North American Racing Team). A complex organisation, inextricably linked to Luigi Chinetti Motors Inc, NART enjoyed success on the race tracks of the US and Europe for three decades – as well as financial difficulties and arguments with organisers – to rightly become a legend.

This totally revised, updated and enlarged book is THE complete guide to building a fast MG Midget or Austin-Healey Sprite for road or track. Daniel has been continuously developing his own 'Spridget' for years, and really does know what works and what

doesn't when it comes to building a fast Midget or Sprite. Best of all, this book covers every aspect of the car, from the tyre contact patch to the rollover bar, and from radiator back to exhaust tailpipe. This new edition contains updated information for parts and suppliers, many new photos, and features new material covering aerodynamics, including results from testing the effect of modifications at the MIRA wind tunnel. With over 400 mainly colour photos and exclusive tuning advice, this is a MUST for any Sprite or Midget owner.

This book chronicles the life of Keith Duckworth OBE, the remarkable engineer famous for being co-founder of Cosworth Engineering and creating the most successful F1 engine of all time, the DFV. Although the company's engines are given due prominence, this isn't an intricate technical examination of their design, but a more rounded look at the life and work of their designer – work which included significant contributions to aviation, motorcycling, and powerboating.

Veloce Classic Reprint of the only book dedicated to the Type 46 & 50 Bugattis. The book features over 200 period plates, many rare and previously unpublished, showing a galaxy of superb coachbuilt and standard bodies on T46 and T50 chassis as well as much mechanical detail.

This book details the evolution of Ford's family car through the golden era of Detroit. It tells how Henry took the no-frills Fairlane, added more zing to create the Torino, and satisfied America's luxury desires with the LTD II; and follows the evolution of Ford's midsize muscle cars, to the creation of the first car-based pickup – the Ranchero. Krause Publications' Standard Catalog series is available by specific marque, in individual volumes or a set. Each book contains in-depth profiles of specific makes by model, factory photos, and up-to-date vehicle pricing. The I-to-conditional pricing system assures readers of accurate values, whether a vehicle is a #1 low-mileage, rust-free beauty or a #6 parts-only heap. "Techs & specs", original factory prices, production and serial numbers, and engine/chassis codes are noted by model, thus helping you determine authenticity accuracy. Historical, technical and pricing information are combined from hundreds of sources. James Flammang values each model according to the popular 1-6 grading system invented by Old Cars magazine.

The overhead camshaft single provided the DNA for Ducati motorcycles, but, with little accurate documentation and information available until now, they can be difficult to restore and authenticate. This is the first book to provide an authoritative description of

the complete range of Ducati OHC singles.

Wolseley cars are easily recognised by their illuminated radiator badges and unique front grilles, distinguishing them from their Austin and Morris counterparts. All the models from 1948 to 1975 are covered in this informative guide. Illustrated with original colour photographs, and with detailed information including colour schemes, optional equipment and technical specifications, this book provides a complete history of the cars from 1948 to the end of production, as well as the Wolseley models built by the Nuffield organisation in the late forties. These classic British cars are rarely covered in other books, and never in as much detail as you will find here – this is the ultimate guide for all Wolseley enthusiasts!

Researched in incredible detail, this book explores the story of the timeless VW bus, from early origins through to the present day. This entirely new edition includes details of many of the different camper conversions, and examines the social history and the T2's evolution. Including full specifications, production figures and buying advice, this is a must for any VW enthusiast.

The wedge-shaped V12 Lamborghini flagships were always spectacular – in shape, sound and performance. The Murciélago was an evolution of the Countach and the Diablo, and was as iconic in its time as its illustrious predecessors were in theirs. This book examines the Murcielago in detail, while casting a look back through Lamborghini's troubled history, to understand how the Murciélago came into being.

Ferruccio Lamborghini, Patrick Minram, Megatech, Chrysler, and finally VW-Audi, all played their part in the birth of this modern classic. The book touches on the people and organisations involved in the production of this iconic car, before examining each of the model variants, and discusses the joys and tribulations of ownership.

This book reveals the full history of the second generation Mercedes-Benz SLK, covering in detail the German, US, UK, Australian and Japanese markets. The perfect book to grace a Mercedes-Benz enthusiasts' library shelf, it's the definitive record of the model illustrated with stunning photographs.

To Boldly Go details 26 sometimes controversial vehicles, from 1911 to present, all solving different design challenges. From the Issigonis Mini that changed design and social mores, to racers so successful they were banned from competition, from cars produced in millions, to one-offs, all created by those marching to the beat of their own drum.

This book gives a unique insight into design and project work for a number of companies in the motor industry. It is aimed at both automobile enthusiasts and to encourage upcoming generations to consider a career in the creative field. Written in historical order, it traces the changes in the car design process over nearly 50 years.

Hans Ledwinka's innovative Tatra cars were models of design excellence, and were highly influential in shaping modern car design concepts and the development of the Volkswagen. This book places Ledwinka in his well-deserved place amongst the great car designers. This enlarged 2nd edition contains updated material and additional illustrations.
