Survival Korean Crash Course is a practical Korean language guide written by three exchange students from Leiden University in the Netherlands, which runs the only Korean Studies major in Europe. As “Your Friendly Guide to Student Life in Korea,” the book is a friendly, fun read, like the writers are personally sharing their stories of life in Korea to a good friend. The book also contains frequently used Korean words and idioms. The three writers—Irene Schokker, Lauren Kies, and Rachel van den Berg—fell in love with

life in Korea as exchange students at Yonsei University, where they met Korean friends, hung out at university festivals and student outings, joined student clubs and activities, and even raced against Koreans students in the fierce competition to register for classes. They went through difficulties too, as they got used to the cultural differences. Before they learned to call out “Auntie!” at a restaurant or ring a bell on the table, they would wait ages for a server to finally come take their order. And they had no idea that, according to Korean drinking customs, they should have turned their heads away when drinking with their seniors. Based on their own newbie mistakes and confusion, they put together this Survival Korean manual, featuring eight chapters organized by situation. The book lays out essential words and expressions commonly used in daily life and various situations that international students in Korea often encounter, including school classes, searching for a place to live, navigating the streets, ordering food at a restaurant, enjoying leisure time, shopping, and emergencies. Based on the first-hand experiences of the authors themselves, who have just finished their exchange semester and returned to the Netherlands earlier this year, the three students pass on their tips for the things foreigners living in Korea find difficult and the Korean expressions they find confusing. This book will be a useful guide for students who plan to study in Korea or are looking for a mentor on Korean life,

with authentic advice and recommendations from real exchange students. This is basic travel Korean book that summarizes necessary words and phrases that helps your stay in Korea. This book focused on 1200 important sentences, expressions and vocabularies divided by themes and we particularly focused on essential travel conversation and other basic life expressions. Since audio files of all sentences and words are included, it would also be good to know Korean pronunciation and intonation. It can also be used in basic Korean textbook for Korean language learner. Through this book, I hope that many travelers who visit Korea can easily speak Korean and have fun in Korea.

Generations of immigrants have relied on small family businesses in their pursuit of the American dream. This entrepreneurial tradition remains highly visible among Korean immigrants in New York City, who have carved out a thriving business niche for themselves operating many of the city's small grocery stores and produce markets. But this success has come at a price, leading to dramatic, highly publicized conflicts between Koreans and other ethnic groups. In *Ethnic Solidarity for Economic Survival*, Pyong Gap Min takes Korean produce retailers as a case study to explore how involvement in ethnic businesses—especially where it collides with the economic interests of other ethnic groups—powerfully shapes the social, cultural, and economic unity of immigrant groups. Korean

produce merchants, caught between white distributors, black customers, Hispanic employees, and assertive labor unions, provide a unique opportunity to study the formation of group solidarity in the face of inter-group conflicts. Ethnic Solidarity for Economic Survival draws on census and survey data, interviews with community leaders and merchants, and a review of ethnic newspaper articles to trace the growth and evolution of Korean collective action in response to challenges produce merchants received from both white suppliers and black customers. When Korean produce merchants first attempted to gain a foothold in the city's economy, they encountered pervasive discrimination from white wholesale suppliers at Hunts Point Market in the Bronx. In response, Korean merchants formed the Korean Produce Association (KPA), a business organization that gradually evolved into a powerful engine for promoting Korean interests. The KPA used boycotts, pickets, and group purchasing to effect enduring improvements in supplier-merchant relations. Pyong Gap Min returns to the racially charged events surrounding black boycotts of Korean stores in the 1990s, which were fueled by frustration among African Americans at a perceived economic invasion of their neighborhoods. The Korean community responded with rallies, political negotiations, and publicity campaigns of their own. The disappearance of such disputes in recent years has been accompanied by a

corresponding reduction in Korean collective action, suggesting that ethnic unity is not inevitable but rather emerges, often as a form of self-defense, under certain contentious conditions. Solidarity, Min argues, is situational. This important new book charts a novel course in immigrant research by demonstrating how business conflicts can give rise to demonstrations of group solidarity. *Ethnic Solidarity for Economic Survival* is at once a sophisticated empirical analysis and a riveting collection of stories—about immigration, race, work, and the American dream.

They Fought Valiantly for Their Country's Survival contains the personal accounts of South Korean soldiers and marines who fought for the survival of their country following the North Korean sneak attack on South Korea that was the start of the Korean War 25 June 1950–27 July 1953. Inasmuch as a ceasefire or cessation of hostilities was signed at Panmunjom on 27 July 1953 and the shooting stopped, the Korean War remains very much in the forefront of world news as a declaration of peace has not been signed as the 2.5-mile wide demilitarized zone between the two Koreas attests in stark, menacing evidence. The accounts that are contained within this book are real and reveal in clear prose the devastation, the pain, the agony, the danger, the fear, the betrayal, distress, wounds, death, turmoil, separation, and love of family that was the

constant with these South Koreans as they stood in the forefront and stopped the evil known as communism and set in place the seed that culminated in the tearing down of the Berlin Wall a few decades later. The South Koreans who fought valiantly during the thirty-seven-month Korean War, stopped the spread of communism in the Far East. Truly, theirs was a heroic stand that the free world can applaud today.

Marching Through Suffering is a deeply personal portrait of the ravages of famine and totalitarian politics in modern North Korea since the 1990s. Featuring interviews with more than thirty North Koreans who defected to Seoul and Tokyo, the book explores the subjective experience of the nation's famine and its citizens' social and psychological strategies for coping with the regime. These oral testimonies show how ordinary North Koreans, from farmers and soldiers to students and diplomats, framed the mounting struggles and deaths surrounding them as the famine progressed. Following the development of the disaster, North Koreans deployed complex discursive strategies to rationalize the horror and hardship in their lives, practices that maintained citizens' loyalty to the regime during the famine and continue to sustain its rule today. Casting North Koreans as a diverse people with a vast capacity for adaptation rather than as a monolithic entity passively enduring oppression, *Marching Through Suffering* positions personal history as key to the interpretation of political violence.

The Hairy Arm Phenomenon Stalkers? Weird hole in the ground Twelve years driving and failing the license test three times These are just some of the stories included in Marshall's first book, *My Korean Story!* *My Korean Story* is full of

humor, a lot of culture shock, and a true honor and love for South Korea. With each story, Marshall shares a valuable lesson he learned from going to many unique places in Korea. Marshall was a student at Murray State University when he first began learning about South Korea and its culture. Somehow this small university town attracted a lot of international students; particularly from South Korea. There was a strong Korean community in Murray. A Korean church, "Japanese" restaurant with Korean staples, Korean organization at the Uni, too. He made friends with most of the international population and particularly with Koreans, attended Korean church, tried kimchi (which smelled like fart to him at the time but now he loves it), played soccer, and invited many to his home. But, he never imagined that the path of his life would bring him to Korea! Here's why. Marshall was more fascinated with Japan and the Japanese language. Having studied Japanese, he fully intended to move to Japan after graduating. Marshall's entire life changed once a special Korean girl came into his life. He tried to sit by her at church, the library, the cafeteria, and looked for her all the time! They eventually started dating and she is the biggest reason why Marshall moved here in 2013. Without her help and support, Korea would have been more difficult. Marshall loves Korea dearly. Living here is wonderful and he hopes that you, the reader, can live through his shoes and learn to find joy in this fascinating

country. He's had many times that he was angry, sad, joyful, happy, frustrated, and every other mix of emotions here. Through it all, he has learned many lessons and has come to be able to really enjoy life in Korea. Hopefully you will enjoy his stories and laugh, too. They are told in a comical self-deprecating manner. And, they are all true! At the end of each chapter, he shares a lesson learned that helps him to enjoy my life in South Korea! Marshall Shank lives in Korea with his beautiful Korean wife and baby boy. He teaches English, ESL, and Music Theory at an international school in Seoul, South Korea. After he moved to Korea, he realized that although he had some Korean ability, doing everyday tasks were difficult. He was hungry, wanted some new clothes, and was missing seeing his girl. So, he set out to learn what he calls Survival Korean. Over time, our teacher learned how to order and pay for food, buy merchandise, and travel in Korea. Now all of this is a breeze for Marshall. Ride on the Korean wave of Marshall's language study so you can quickly and easily master Survival Korean at <https://youcandoitkorean.teachable.com/p/survival-korean> Marshall first came to Korea in 2013. Since the end of the Cold War, scholars and analysts have been predicting the collapse of the communist regime in North Korea. Yet, despite a deteriorating economy characterized by declining industrial output, outdated technology, and difficulty feeding its people, the country has been able to persist and continues to plod along. How has North Korea been able to survive, and how long can it last without significant change to its economic and political structures? How can we peacefully resolve the North Korean nuclear standoff through constructive dialogue? This book examines North Korea's survival strategy and offers practical solutions to a 50-year nuclear standoff through a series of essays written by 15 of the world's foremost scholars and leading experts on strategy, economics and international relations. It is essential reading for anyone interested in peace in Northeast Asia and will be invaluable in helping policy-

makers, diplomats, politicians, researchers and other North Korea watchers to understand three closely related issues about North Korea: (1) why North Korea will continue to survive; (2) how the United States and North Korea can build a mutual confidence; and (3) why a dialogue is the only viable way to resolve the North Korea problem peacefully.
