Readings for Amerigerian Igbo was written to be a legacy, road map and information source for American-born Nigerian children (Amerigerians) who, unlike their Nigerian-born and raised parents, did not get the chance to be born and raised in Nigerian culture. This generation has significant language and cultural deficiencies with regard to their Nigerian root. This book was written to help this later generation, and other like future generations, to understand better the nature of their root, and what to do to help facilitate their connection to that root. A rootless human being often feels like someone who dropped out of the sky with no known origin. Such a life has a tendency to bounce around with little or no anchor. Often, people with that type of background have a tendency to lose hope of striving, as they encounter difficult life problems in their new and emerging world. During the 1970s and early 1980s, there was a mass exodus of Nigerian students to American colleges and universities. Since then, most American-educated Nigerian graduates are forced to find jobs and settle in the United States. Being relatively new in the United States, the Nigerian community is emerging and discovering that there are problems associated with settling in the United State after all. One of those problems deals with educating and acclimatizing their American-born children with the ethos of life in the Nigeria that these parents left behind as students. Highlights of the book include: history and background of Nigerians who studied in the United States; how Amerigerians situation evolved; what has been done to help solve the problem; the realities of things and inevitable challenges for Amerigerians; dealing with Amerigerians situation, i.e. what Amerigerians can do; roses in our culture; and some helpful lessons to speaking the Igbo language.

Two small Igbo children speak Igbo to help other children learn the language in a real way, connecting it to their daily lives. So, bia m?ta (come learn).
