In this collection of essays, distinguished Australian theologian Tracey Rowland takes up the relationship of Christ and culture, broadly understood. She contrasts the principles undergirding what St. John Paul II called a “culture of death” with those required for the flourishing of a humanism that flows from the grace of the Incarnation. Rowland returns

frequently to the theological insights of Joseph Ratzinger/Pope Benedict XVI, to whose thought she is deeply indebted. Drawing upon the Augustinian and Thomist traditions of political theology, she offers a trenchant theological critique of liberalism in all its forms, with attention to our modern attraction to false utopias and accommodationist impulses. The nine essays in this volume engage such perennial topics as the place of natural law, the theological status of the “world,” and the nature of true humanism, along with timely topics such as the retrieval of the sources of Catholic resistance to Communism and what is now commonly called cultural Marxism. Rowland’s inimitable voice, keen wit, and penetrating insight into the distinctiveness of Catholic truth make this book a landmark volume as the Church today revisits anew its relationship to the world.

When standing alone in the midst of the dragon's home. That sacred place which lies deep in the lives and times of the human race, its existence here on earth, and to those who have been created using the complexity of the truth. A little known gambler by the name of Filagree who has learned to understand the inner workings that have been created using a machine whose serenity and continuity of the lines and patterns that make up the inner workings of a star's quality, it's alignment to a constellation, also to those of the lonely ones who have been controlled by the formation of gravity and only transcended by the higher power of an eternal soul versus the seeming endless power of the energy used by those of the stars!

Raff explains, she suffered a fall from this exalted state, corresponding to the obscuration of the feminine archetype in the patriarchal world. Without Sophia, God is not whole. It is our task to work with imagination to reunite Sophia and God. Raff explains the difference between fantasy, a product of the ego, and imagination, which comes from the soul. More importantly, he brings Sophia to life through a vivid analysis of an 800-year-old text, *The Aurora Consurgens*, as well as his personal experience with Sophia and active imagination. This process empowers us to become whole and realize our innate drive to unite with the divine.

The immortal Seraphina is forced to face the darkness of her past and risk losing the love of her life in this second novel in the Incarnation series.

An indispensable companion and guide to one of the world's great archaeological sites The three-thousand-year-old rock-cut temples at Abu Simbel and the story of their rescue from the rising waters of Lake Nasser in the 1960s are almost as familiar worldwide as the tale of the gold funerary mask and brief life of the boy king Tutankhamun. Yet although they are among the most celebrated, visited, and photographed archaeological sites in the world, the two temples are among the least understood by the visitor. In this lucidly written, beautifully illustrated guide, Nigel Fletcher-Jones explains the main features of both temples, discusses what they teach us about ancient Egypt during the reign of Rameses II (1265-1200 BC), and illustrates which gods and goddesses were worshipped here. With over 50 new photographs, drawings, and diagrams, and packed with fascinating insights, *Abu Simbel: A Short Guide to the Temples* is an indispensable companion and souvenir to one of the world's great archaeological sites.
