A New York Times–bestselling historian looks back on the Camelot of the early 1960s, and “make[s] the Kennedy days look glamorous again” (Kirkus Reviews, starred review). In his renowned biographies *Portrait of a President* and *The Death of a President*, William Manchester intimately and meticulously detailed the life and death of President John F. Kennedy. *One Brief Shining Moment* is a celebration of that life, based on Manchester’s own recollections of his time with one of America’s most famous families. John Kennedy first met William Manchester in 1946, beginning a friendship that would follow him to Washington and eventually the White House. But, beyond the closed doors of the Oval Office, Manchester enjoyed a close relationship with the Kennedys. Drawing on family gatherings in New England, trips along the campaign trail, and informal private talks with JFK himself, this is William Manchester’s personal account of the man behind the legend, someone he truly admired and was proud to call a friend. *One Brief Shining Moment* provides a firsthand look at the thought process behind JFK’s most important decisions as president, his drive to move the country in a new direction, and his closest relationships. This is a book about a man, about a

century, disarmament remains a critical issue for the International community. This new book focuses on three key areas and lessons of Allied disarmament operations from 1920-31: the role and experience of international arms inspectors working amidst an embittered German populace the ramifications of the divergent disarmament priorities of the leaders of the disarmament coalition the effectiveness of united Allied policies backed by sanctions. These major issues are examined within the overall context of the assessment of Allied disarmament operations in Germany. While some historians perceive German disarmament as a failure, this book argues that arms inspectors successfully destroyed Germany's ability to pose a military threat to European security. This new study shows how the destructive legacy of war convinced the victorious nations, especially Britain and France, of the importance in minimizing German military strength. French post-war security concerns, however, were often faced with the unwillingness of Britain to enforce the totality of the military articles of the treaty. German obstruction also influenced Allied disarmament policies. German Disarmament After World War I examines the initial effectiveness of Allied disarmament efforts in Germany and explains how they ultimately disappeared through diverging conceptions of a post-war world. This book will be of great interest to all students of disarmament, the interwar period and of military history,

In addition, *Controversy* includes a wide range of journalistic pieces published in the period between World War II and Vietnam, covering events from the Bay of Pigs fiasco to Watergate and highlighting the insights and observations of a distinguished career that earned the author the National Humanities Medal and the Abraham Lincoln Literary Award, among other honors. Alone is the second volume of William Manchester's brilliant three-volume biography of Winston Churchill. In this volume, we witness the war within, before the colossal war to come. During this period, Churchill was tested as few men are: relentlessly pursued by creditors, disowned by his own party, vociferously dismissed by the press as a warmonger, and twice nearly lost his seat in Parliament. Yet despite his personal and political troubles, Churchill managed to assemble a vast, underground intelligence network-both within the British government and on the continent-which provided him with more complete and accurate information on Germany than the British government. Recognizing the horrifying truth, Churchill stood almost alone against Nazi aggression and the sordid British and French policy of appeasement. Manchester's luminous portrait never loses sight of Churchill the man-a man with limitations, especially his callousness toward others (including his supporters) and his recklessness, which could border on the foolhardy; but also a man whose vision was global and whose courage was boundless. Here is Churchill as a light in the approaching darkness, readying himself for the terrible stand to come.

This special issue of Shaw offers ten articles that focus on the theme of "Shaw and History." That focus illuminates Shaw's concept of history as art and its uses for dramatic purposes. It is a focus that is broadly applied to the historical perspective. Views range from Shaw's uses of historical sources in the Shavianizing of history, his uses of historical, geographical, and political places and events in his work, to views that place selected Shavian works within a historical context. Stanley Weintraub discusses Shaw's references to Cetewayo, Zulu chieftain, in Cashel Byron's Profession as the first incorporation of a contemporary historical figure into his work. John Allett explores the liberal, socialist, and radical feminist views of prostitution in nineteenth-century England and demonstrates how those political views are developed within the unfolding action of Mrs Warren's Profession. Sidney P. Albert studies the Utopian movement, "The Garden City," to determine the extent to which that movement influenced Shaw's conception of Perivale St. Andres in Major Barbara. He also narrates his personal attempt to identify the Ballycorus smelting works and its surroundings as well as the campanile, or Folly, at Faringdon as sites that provided the scenic sources for Perivale St. Andres in Major Barbara. Gale K. Larson has edited a partially

unpublished Shavian manuscript that addresses Shaw's relationship with Frank Harris and, among other matters, sets the historical record right as to who deserves the credit for attributing the identity of the Dark Lady of the Sonnets to Mary Fitton. He also examines the historical sources that influenced Shaw's views on Charles II, the "Merry Monarch," in "In Good King Charles's Golden Days" and demonstrates Shaw's reclamation of yet another historical figure from the traditional historians. David Gunby examines the first-night performance of O'Flaherty, V.C. for purposes of setting the historical record straight as to the facts of that production. Wendi Chen presents the stage history of the production of Mrs Warren's Profession in China during the early 1920s and argues its central role in shaping modern Chinese drama. Rodelle Weintraub assesses *Too True to Be Good* as a dream play within the context of the nightmarish times of World War I. Michael M. O'Hara surveys the Federal Theatre's productions of *Androcles and the Lion* in the 1930s to reveal the political and religious repressions that those productions underscore. Shaw 19 also includes three reviews of recent additions to Shavian scholarship as well as John R. Pfeiffer's "Continuing Checklist of Shaviana."
