

## The Bible And Future Anthony A Hoekema

The kingdom of God is not explained anywhere in the New Testament, yet it seems to be everywhere understood. No explanation was ever needed, and so none was given. In *The Future Kingdom of God: A Present Reality and Our Blessed Hope*, author Father Steven Scherrer presents an in-depth study of the kingdom of God as it appears in the scriptures. Based on an edited collection of original sermons and essays revolving around the New Testament doctrine of the kingdom of God, this thorough discussion provides a guide for those seeking insight into various aspects about the second coming of Jesus Christ. Some of the topics on which the essays reflect include • the splendor of the kingdom of God now present, as seen in the Church's Advent and Christmas liturgies; • the millennial hope as the fulfillment of Old Testament prophecy; • the enchanted expectation of the Parousia, as seen in the Church's autumn liturgies; • the longing to be found innocent in holiness at the coming of the Lord. Using the scriptures and examples from the Bible, *The Future Kingdom of God* demonstrates how Christians can, by faith, now live in the splendor of God's kingdom present in their midst.

Has depression, fear, worry, shame or anxiety consumed your peace of mind and quality of life? Has your attitude or ability to make godly decisions been affected? Has anger, frustration or any other negative emotion squandered your days or years away? If you feel powerless, tormented or if you have just simply "messed up" then this book is for you. Anthony Montoya is mightily being used of The Holy Spirit today with an insightful prophetic word designed for you to experience Yahshua's presence and power, break the bonds of demonic influence, deal with stress and give you victory through Yahshua.

After more than twenty years since the fall of the USSR, the evangelical movement in post-Soviet society has entered a crucial phase in its historical development. Setting out a transformative vision of mission and theological education, this book makes an important contribution towards the renewal of the church in this fascinating--but deeply troubled--part of the world. After the violent and disruptive events that followed the Ukrainian Revolution of Dignity and Freedom in 2013/14, the evangelical movement in post-Soviet society now has an unprecedented opportunity to become a shining example of a "church without walls." Searle and Cherenkov reflect on the political, social, cultural, and intellectual legacy of the Soviet Union and offer bold and innovative proposals on how the church can rediscover its prophetic voice by relinquishing its debilitating dependence on the state and, instead, expressing solidarity with the people in their legitimate aspirations for freedom and democracy. Notwithstanding the pessimism and lament expressed on many pages, the authors conclude on a positive note, predicting that the coming years will witness a flowering of evangelical ecumenism in action as Christian solidarity flourishes and overflows denominational boundaries and parochial interests.

This book is the study of a man who caught my interest both because of his own character and of the variety of his activities. It is an attempt to see him in his relationship, intellectual and literary, with the Europe of his day, to gauge his position in the development of Seventeenth and Eighteenth century thought, to examine the origins of his ideas and their effect and to place him in the social context of the England of the early Eighteenth century. The period in which he lived, coming at the beginning of the Enlightenment, was seminal for our own world and the man himself is of contemporary significance because of the similarity of his outlook, if not of his beliefs, to that of many today. He was at the centre of the major theological controversy of the Seventeen twenties and was one of the most contentious figures of his time. I would like to acknowledge my obligation to the scholars and librarians who have assisted me in producing this work: to Dr. E. A. O. Whiteman of Lady Margaret Hall, Oxford, and to Mrs. M. Kneale, late of the same College; to Bodley's librarian Dr. R. Shackleton; to Dr. D. Rogers, Mr. D. G. Neill and to the staff of the Bodleian, especially those who work in Duke Humphrey; to the librarians of Christ Church, All Souls, St. John's, Wadham, Exeter and Corpus Christi Colleges, Oxford; to Mr. F. Hope is essential to human life. Without hope, humanity plunges into despair, and life can lose all purpose and meaning. Hope energizes people and communities, and also produces forbearance and patience. In this clear and accessible survey, which incorporates Asian perspectives, Roland Chia shows how Christian hope presses beyond the limits of both secular and religious world-views and confronts the reality of pain, suffering and death in the light of the crucifixion and resurrection of Jesus Christ. It is hope for God, and in God.

What kind of self-image should Christians have? Should they see themselves primarily as unworthy sinners before a holy God? The biblical view, Anthony A. Hoekema argues in this readable study, is that humanity, having been made in God's own image, was the capstone of God's creation. Even when we fell, God considered us of such worth that he gave up his only Son to redeem humanity. And in Christ, as Paul makes plain, we are made into new creatures. This does not mean that the redeemed live a life of sinless perfection; it does mean that what is most distinctive about them is the new life they have in Christ. And this new life entitles Christians to a self-image that is essentially positive. Accepting the biblical view of our worth can be difficult for Christians burdened with feelings of guilt. How can such Christians learn to see themselves in better light? And how can others in the Christian community - preachers, counselors, teachers, and parents - help fellow members to attain the positive self-image that is essential to the Christian faith? Part Two of *The Christian Looks at Himself* offers concrete answers to these questions and in doing so points up the social dimension of being in Christ. As Christians accept themselves as creatures made new in Christ, so in love they must also fully accept fellow Christians as recreated in that same Christ. ANTHONY A. HOEKEMA

(1913-1988) was former professor emeritus of systematic theology at Calvin Theological Seminary in Grand Rapids, Michigan. His other books include *Created in God's Image, Saved by Grace*, and *The Bible and the Future*.

Joint winner of the 2011 Biblical Archaeology Society Publication Award in the category "Best Scholarly Book on Archaeology" *The Archaeology of the Holy Land* is undergoing major change. 'Historical Biblical Archaeology and the Future' describes the paradigm shift brought about by objective science-based dating methods, geographic information systems, anthropological models, and digital technology tools. The book serves as a model for how researchers can investigate the relationship between ancient texts (both sacred and profane) and the archaeological record. Influential archaeologists and biblical scholars examine a range of texts, materials and cultures: the Vedas and India; the Homeric legends and Greek Classical Archaeology; the Sagas and Icelandic archaeology; Islamic Archaeology; and the Umayyad, Abbasid, and Ayyubid periods. The groundbreaking essays offer a foundation for future research in biblical archaeology, ancient Jewish history and biblical studies.

This book is about being right with God now and to eternity. It is based on a relationship with God through Jesus Christ that brings us into a fulfilling relationship with Him. We can now stand in the truth of our new identity and take up our inheritance and responsibility in Christ. We can let the heart of Jesus Christ grasped our heart so that we might know Him experientially. It is not a one way relationship, but a two way relationship and he calls us to walk and work alongside with Him in unison. Otherwise we are only wasting a most precious opportunity and blessing in life. We have the privilege and joy of walking with Him in a relationship not based on law but the gospel or grace. We also can learn to rest in Him, to walk in our freedom and to be ready and prepared for the end. Our destiny is assured in Him and can and may be eternally right with God. Only in Christ will we find fulfillment in this life and the life to come. We can be right with God, and out of the overflow of that relationship, we can enjoy all that we were created to be and experience. This book talks about the basic truths that can assist everyone to be right with God and grow in that relationship in Christ. These truths are basic, but some of them are profound truths that are essential to walk in the fullness of Christ, a fullness He offers to every person in a personal relationship with Him. Some of these truths go deep, but they are basic for every Christian. These basic truths are the way to fullness in Christ.

*The New Testament and the Future of the Cosmos* is an exploration into the cosmic eschatology of the New Testament. It invites the reader to grapple with two interrelated questions along with the author: (1) What did the writers of the New Testament teach about the fate of the cosmos, and (2) can we synthesize their teachings into a coherent New Testament theology? By offering a close reading of key texts that inform the topic (most notably Matt 24:29–31; Mark 13:24–27; Luke 21:25–28; Rom 8:19–22; Heb 12:25–29; 2 Pet 3:4–13; and Rev 21:1–5), it is argued that one can, with certain qualifications, ascertain a clear and coherent New Testament message pertaining to the future of the cosmos. Along the way, new exegetical ground is broken in several passages by identifying a previously unnoticed theme that runs throughout the New Testament concerning the future of the cosmos: God's judgment of the heavenly powers of evil as a key component to the cosmic transition. At present, these hostile powers hold the cosmos captive to death, but on the Day of the Lord they will be overthrown, setting the stage for a materially transformed world to emerge from the hand of God.

Stanley J. Grenz describes four major views on the millennium held by evangelicals and assesses their strengths and weaknesses.

To celebrate the 25th anniversary of the journal *Biblical Interpretation*, a diverse group of innovative scholars come together in this collection of essays to examine and evaluate the present and future of biblical studies as an academic discipline.

In *Critical Entanglements: Postmodern Theory and Biblical Studies*, Andrew P. Wilson tracks the various strands of postmodernism threaded through the discipline, drawing on a range of evocative biblical readings as well as key examples from the art world.

This study takes the approach, that Jesus' intended time frame for the fulfillment of His prophecy was to be within what he calls "this generation" in Matthew 24:34. Thus, His expectation was not left completely unfulfilled, but accomplished-by means of the events of AD 70-what He expected it to accomplish.

'Anthony Hoekema brings to the study of biblical prophecy and eschatology a maturity that is rare among contemporary works on the subject. Free of sensationalism, he evinces a reverence for the Scriptures and a measured scholarship...One of the best studies on eschatology available.' ---Christianity Today

How the issues of the past affect the future of "Deep Church"--a concept conceived by C. S. Lewis. Orthodox, Catholic, and Protestant traditions drink from the well of a common tradition rooted in the early church. Many Evangelicals are now reengaging with the practice of the early church as they seek to live as disciples today. Remembering the past is essential for facing the future. In *Remembering Our Future* leaders and theologians reflect on a range of issues for which a vibrant contemporary faith requires a careful listening to the past. What is the place of tradition in the church's life? How should we interpret the Bible? How should we worship? What, in other words, might "Deep Church" look like?

"When Tony Campbell, aged 75, asked the Council of Jesuit Theological College for Emeritus status and retirement from JTC, both were granted most graciously, along with a testimonial document which said in part: 'His teaching has combined evocation and provocation in the best sense of those terms. He has mentored research students with scholarly exactitude and personal care. He has published books of the highest scholarly quality, of engaging readability, and of passionate conviction.' When we at ATF were considering asking him for a volume of *Collected Works* or *Selected Writings*, we were well aware that 'published books of the highest scholarly quality' were likely to be found on the shelves of libraries and of specialised academics, but not with students and others generally interested. There may be a dozen or more of Tony's books on the list from Amazon.com booksellers, along with another two or three that are not listed there. But most are heavy-duty specialist works, not easily accessible even to the educated public. We were equally well aware that there was a surprising number of essays and articles scattered in journals and proceedings of conferences that were, because of the scattering, often just as inaccessible. We thought that a collection of these in a single volume would be of great value to those interested. In the Introduction to this volume, Father Campbell has gone into some detail about the contents. Suffice for us to say that Job and the issues associated with suffering concern us all, that the interplay of history and narrative is a constant in the understanding of much biblical text, and that the nature of the Bible and its role in our lives is a major concern for most thinking Christians. While Father Campbell's focus is on the Older Testament, pondering what he looks at throws light on much of the Newer Testament as well. The writings Tony Campbell has pulled together in this single volume address significant issues within the readable length of an article or a talk. Addressed originally to thinking people, we at ATF believe they are likely to be of interest to a wide audience."

*Babylon Revealed* is an epic journey of God's plan of salvation for mankind. The journey begins with God's call to Abraham to come out of Babylon and settle into the land of Canaan. The book examines Satan's efforts to mislead humanity into apostate worship, which began in this region. From the historical record, the book takes the reader on a journey through time and ends in the same place where the journey began. Civilization began in Babylon and will end in Babylon the Great. Apostate worship will ultimately lead to the destruction of the world. God, from the beginning, knew the future and numbered the days of Babylon and Satan's kingdom on earth. Satan opposes God in order that he may continue to exist and remain in the world by separating the Creator from His creation. Satan is allowed to continue to exist through mankind's choice to remain apart from the Lord. This book reveals God's mysteries and warnings about mankind's ultimate fate, which is found in the prophetic books of the Bible. Man's only hope is in the Lord Jesus Christ, who will, in the end of time, triumph over the forces of evil and establish God's kingdom on earth.

*In Africa: The Glory, the Curse, the Remedy*; the author Anthony Agbo in a spectacular and inspirational detail researched the bible and rare

ancient authorities to establish that God through the mouths of His Prophets, pronounced broad and far reaching curses on Africa and Africans, the result of which put the continent and her people in the negative side of all indices of human fortune, growth and development. Tracing the African family tree from the patriarch Noah through her phenomenal rise and greatness in ancient time, to her sudden downfall, the author in an amazing inspirational treatise, woven with extra-ordinary suspense unveiled: the character and activities of the enigmatic biblical figure, Nimrod, the great African and first world ruler, who built the Tower of Babel, openly confronted the God of Heaven and originated Idolatry, the worship of the "gods of wood and stone" thereby leading Africans astray; the identity and pioneering works of Tehuti, the great African who laid the foundation for all academic knowledge on earth, and who the ancient Greeks referred to as the "master of all masters" and the "greatest of all greats"; the journey of the biblical Ark of the covenant in the ancient time from Jerusalem to Ethiopia where it resides today; why and how God cursed Africa and how this curse has impacted on the lives and endeavors of the black race; what is it that can return Africa to future world dominion; etc. This is a book of extraordinary revelations about Africa and God, her glory and curse-propelled downfall as well as remedial prescriptions.

God loves animals and gives them a special place in creation. So, do animals also have a place in God's work of redemption? Will there be animals on the new Earth? Will we see our beloved pets in the afterlife? This book takes up the challenge to think in a responsible way through these questions. The author focuses in particular on the physical restoration, the prophetic proclamation of the coming animal peace, the attitude of God and humanity towards animals, and the question of the relationship between biblical life, the future of animals, and vegetarianism. What can the Bible and Christian doctrine reveal to us about God's way with animals?

"Rivals the major systematic theologies of this century." --Baptist History and Heritage Journal, July 1996 "One of the characteristics of Garrett's system that needs especially to be noted is its balanced, judicious, and nearly invariably objective presentation of materials. While holding true to the teachings of his own Baptist faith, Garrett so carefully and judiciously presents alternatives . . . that teachers and students from other confessional and denominational positions will find his work instructive." --Consensus, 1997 "If one is searching for an extensive exposition of the biblical foundations and historical developments of the various loci of systematic theology, there is no more complete presentation in a relatively short work than this . . . Pastors will especially find this feature to be a real help in teaching theology . . . [It is] an indispensable contribution to the task of systematic theology." --Journal of the Evangelical Theological Society, September 1999 "Many students and pastors will find all they need here, and will in addition be helped to relate their knowledge to recent developments in the theological world." --The Churchman: A Journal of Anglican Theology, 1991 "A gold mine of helpful material." --The Christian Century, May 29-June 5, 1991 "No book that I know is more loaded with biblical and theological facts than this one. The prodigious research that must have gone into the preparation of this volume is truly mind-boggling." --Faith and Mission, Fall 1991 "Garrett has provided a massive and scholarly systematic theology from a thoroughly conservative and comprehensive viewpoint. The work is well documented in both biblical and historical scholarship and will prove to be a classic." --William Hendrickson, Southern Baptist Theological Seminary "One of the most comprehensive, concise books of its type available; it should receive wide use in the classroom and in the study." --Robert H. Culpepper, Southern Baptist Theological Seminary

This groundbreaking book looks at the major approved Marian apparitions of the last five centuries and relates them to important historical moments: the Reformation, the French and Russian Revolutions, the rise of Nazism. These Marian apparitions, and particularly Fatima, are not historically unimportant events, but rather follow a preordained plan: they have a crucial role in helping us to see how the modern world, with all its problems, has developed. Donal Foley makes clear the fascinating and intriguing connections between Marian apparitions and the Scriptural types of Mary found in the Bible, a crucial element in the theology and exegesis of the early Church Fathers. By understanding these biblical types and their symbolism we see that each of the apparitions has a much greater significance for both the Church and the modern world than has generally been recognised. Here is a convincing demonstration that the future of the Church, and the papacy, is intimately bound up with a proper understanding of the role of Mary: there will only be true peace in the world when her message is accepted and lived. If you thought you really understood how the modern world developed, and the role and meaning of Marian apparitions, then this book will make you think again. 'Donal Foley has written a book

with an extraordinary message.' Aidan Nichols, O.P.

Technology has revolutionized the field of translation, bringing drastic changes to the way translation is studied and done. To an average user, technology is simply about clicking buttons and storing data. What we need to do is to look beyond a system's interface to see what is at work and what should be done to make it work more efficiently. This book is both macroscopic and microscopic in approach: macroscopic as it adopts a holistic orientation when outlining the development of translation technology in the last forty years, organizing concepts in a coherent and logical way with a theoretical framework, and predicting what is to come in the years ahead; microscopic as it examines in detail the five stages of technology-oriented translation procedure and the strengths and weaknesses of the free and paid systems available to users. The Future of Translation Technology studies, among other issues: The Development of Translation Technology Major Concepts in Computer-aided Translation Functions in Computer-aided Translation Systems A Theoretical Framework for Computer-Aided Translation Studies The Future of Translation Technology This book is an essential read for scholars and researchers of translational studies and computational linguistics, and a guide to system users and professionals.

THIS BOOK ADDRESSES VITAL QUESTIONS CONCERNING ENDTIME EVENTS DEPICTED IN THE BOOK OF REVELATION AND THE CALLING OF WARRIOR-SPIRITED CHRISTIANS OF THIS GENERATION. We are right on the verge of devastating events that will create great fear and chaos throughout the world and especially in our comfort-seeking nation. These are end-time events that are quite mystifying but extremely critical for this generation of Christianity to understand. The mission of this book is to provide a clearer understanding of these times by looking at biblical prophecy through our 21st century eyes. It is intended to feed the warrior spirit within that Christian remnant who are aware of the tremendous challenges that lie before us and are seeking guidance as to what we are about to confront, and how to "be ready." Hopefully, this book will encourage many Christians who are discerning that troubling times are about to descend upon the United States, as well as the entire world, to begin preparing now. Those who have seriously prepared will be among the Christian leaders in the Army of God who will stand strong in the glorious power of our Lord in the midst of these catastrophic times. This in-depth study of the Book of Revelation is truly a serious field guide to help prepare Christian warriors for the great tribulations which will precede the coming of the Lord Jesus Christ to restore His kingdom on the earth.
