

The Big Book Of Blaze And The Monster Machines Blaze And The Monster Machines

SIZE MATTERS From the dragons of legend to Jack the Giant Killer's colleague to King Kong and Godzilla, people have found the idea of giant creatures both scary and fascinating. Why so many should find accounts of a critter big enough to gulp down a puny human like an insignificantly small hor d'oeuvre or step on said human and leave a grease spot might be explained by the psychologists, but such yarns are undeniable fun, and here's a book crammed full of things that you can't outrun because they take big steps, by writers with equally large reputations, including: David Drake, best-selling author of the Hammer's Slammers and RCN series, describes the far future plight of an unusual descendant of present-day humans, who's being pursued by the descendants of another species, which are much larger than they were in our time. Robert Bloch, winner of the Hugo award and the lifetime achievement award of the World Fantasy Convention, and author of the classic horror novel Psycho, introduces an unusual orphan and aspiring thespian who was much more than he seemed and was destined to play the biggest role of anyone's lifetime. Philip Wylie, co-author of the SF classic, When Worlds Collide and other imaginative works, tells of the arrival of a very, very tall giant on Earth and what happened next, in a sharp-edged satiric tale. Murray Leinster, known as the Dean of Science Fiction Writers, spins a yarn of a stranded starship whose crew must get replacement parts from an abandoned outpost in order to take off again if they can reach the outpost through the swarming gigantic insect life of the planet. H.P. Lovecraft, renowned master of horror, is on board with a story of a star-spawned thing which was not only huge, but invisible as well. Plus all-new stories by New York Times best-selling author Larry Correia, and award-winning authors Sarah A. Hoyt and Wen Spencer. And much more. At the publisher's request, this title is sold without DRM (Digital Rights Management). About some of the contributors: [David Drake is] a superb storyteller. Library Journal [Robert] Bloch has become a virtual fixture on the popular culture landscape. Publishers Weekly Don't plan on getting anything else done if you start a Wen Spencer novel; they are exceedingly hard to put down! Catherine Asaro, Nebula Award winning author [Sarah A. Hoyt's science fiction is] exciting and appealing . . . so fast-paced . . . the reader will reach escape velocity. Kevin J. Anderson [H.P. Lovecraft was] the twentieth century's greatest practitioner of the classic horror tale. Stephen King

Discusses garden design, annuals and biennials, perennials, bulbs, roses, shade gardening, planting, and garden maintenance

Master storyteller Stephen King (writing as Richard Bachman) presents this gripping and remarkable New York Times bestselling crime novel about a damaged young man who embarks on an ill-advised kidnapping plot—a work as taut and riveting as anything he has ever written. Once upon a time, a fellow named Richard Bachman wrote Blaze on an Olivetti typewriter, then turned the machine over to Stephen King, who used it to write Carrie. Bachman died in 1985 (“cancer of the pseudonym”), but this last gripping Bachman novel resurfaced after being hidden away for decades—an unforgettable crime story tinged with sadness and suspense. Clayton Blaisdell, Jr., was always a small-time delinquent. None too bright either, thanks to the beatings he got as a kid. Then Blaze met George Rackley, a seasoned pro with a hundred cons and one big idea. The kidnapping should go off without a hitch, with George as the brains behind their dangerous scheme. But there's only one problem: by the time the deal goes down, Blaze's partner in crime is dead. Or is he?
