"This moving memoir about the gritty life of a military helicopter pilot fills a gap in the genre of Vietnam literature."—Foreword Reviews In the Vietnam War, 2,197 helicopter pilots and 2,717 crew members were killed. Black Cat 2-1 is the story of one pilot who made it home and the valiant men he served with who risked their lives for the troops on the ground. Bob Ford invites readers into the Huey helicopters he flew on more than 1,000 missions when he and his men dared to protect and rescue. For those whose voices were silenced in that faraway place or who have never told their stories, he creates a tribute that reads like a thriller, captures the humor of men at war, and resounds with respect for those who served with honor. An Oklahoma Book Award Finalist "Bob Ford's account of his year in the command seat of his ship of salvation is a priceless contribution to the literary canon of that war."—David A. Maurer,

First published in 1999. Routledge is an imprint of Taylor & Francis, an informa company. This book aims to help the practitioner derive maximum benefit from the use of individual norm-based tests of mental development. It includes, but also goes beyond, an explanation of the psychometric expertise required to use such tests. Beginning with an exploration of the nature of mental development itself, the author explains how the very presence of the assessor impacts on the assessment process both in terms of perceptual idiosyncrasies and in terms of the effectiveness with which the interpersonal dynamics between child, carer and assessor are managed. This is a holistic guide to skilled observation, accurate interpretation, and effective reporting, which equips the reader to derive accurate conclusions in the best interests of the particular needs of the child under assessment.
