Arguably, no other figure in history has had more influence in shaping many of the religious and cultural norms in the world today. Whether you belong to a specific faith tradition or none at all, possessing a working knowledge of Jesus and the Gospels is important for religious, historical, and cultural literacy." --from the author's introduction

In the Lord's recovery during the past five hundred years the church's knowledge of the Lord and His truth has been continually progressing. This monumental and classical work by Brother Witness Lee builds upon and is a further development of all that the Lord has revealed to His church in the past centuries. It is filled with the revelation concerning the processed Triune God, the living Christ, the life-giving Spirit, the experience of life, and the definition and practice of the church. In this set Brother Lee has kept three basic principles that should rule and govern every believer in their interpretation, development, and expounding of the truths contained in the Scriptures. The first principle is that of the Triune God dispensing Himself into His chosen and redeemed people; the second principle is that we should interpret, develop, and expound the truths contained in the Bible with Christ for the church; and the third governing principle is Christ, the Spirit, life, and the church. No other study or exposition of the New Testament conveys the life nourishment or ushers the reader into the divine revelation of God's holy Word according to His New Testament economy as this one does.

The experiences of the early church have much to say about issues that concern Christians today. What can Acts tell us about tongues and other manifestations of the Spirit? How should the church reach out into the world with the message of salvation? This revised BST volume from John Stott opens to us the early days of the church as recorded by Luke in the book of Acts.

Most Bible commentaries take us on a one-way trip from the twentieth century to the first century. But they leave us there, assuming that we can somehow make the return journey on our own. In other words, they focus on the original meaning of the passage but don't discuss its contemporary application. The information they offer is valuable -- but the job is only half done! The NIV Application Commentary Series helps us with both halves of the interpretive task. This new and unique series shows readers how to bring an ancient message into modern context. It explains not only what the Bible means but also how it can speak powerfully today.

Providing an accurate, balanced and holistic picture of the church's monumental first years as told in the book of Acts, I. Howard Marshall focuses on Luke's role as a historian, literary artist and theologian as he tells of the fledgling church's quest to partner with the Holy Spirit to proclaim the gospel to the ends of the earth.

What makes a life, Sam Waxworth sometimes wondered--self or circumstance? On the day Sam Waxworth arrives in New York to write for the Interviewer, a street-corner preacher declares that the world is coming to an end. A data journalist and recent media celebrity--he correctly forecast every outcome of the 2008 election--Sam knows a few things about predicting the future. But when projection meets reality, life gets complicated. His first assignment for the Interviewer is a profile of disgraced political columnist Frank Doyle, known to Sam for the sentimental works of baseball lore that first sparked his love of the game. When Sam meets Frank at Citi Field for the Mets' home opener, he finds himself unexpectedly ushered into Doyle's crumbling family empire. Kit, the matriarch, lost her investment bank to the financial crisis; Eddie, their son, hasn't been the same since his second combat tour in Iraq; Eddie's best friend from childhood, the fantastically successful hedge funder Justin Price, is starting to see cracks in his spotless public image. And then there's Frank's daughter, Margo, with whom Sam becomes involved--just as his wife, Lucy, arrives from Wisconsin. While their lives seem inextricable, none of them know how close they are to losing everything, including each other. Sweeping in scope yet meticulous in its construction, The Index of Self-Destructive Acts is a remarkable family portrait and a masterful evocation of New York City and its institutions. Over the course of a single baseball season, Christopher Beha traces the passing of the torch from the old establishment to the new meritocracy, exploring how each generation's failure helped land us where we are today. Whether or not the world is ending, Beha's characters are all headed to apocalypses of their own making.

'Could I do better than start from the beginning of the dispensation of our Saviour and Lord, Jesus the Christ of God?' Eusebius's account is the only surviving historical record of the Church during its crucial first 300 years. Bishop Eusebius (c. AD 260-339), a learned scholar who lived most of his life in Caesarea in Palestine, broke new ground in writing the History and provided a model for all later ecclesiastical historians. In tracing the history of the Church from the time of Christ to the Great Persecution at the beginning of the fourth century and ending with the conversion of the Emperor Constantine, his aim was to show the purity and continuity of the doctrinal tradition of Christianity and its struggle against persecutors and heretics. He also supported his account by extensive quotations from original sources. This edition of G. A. Williamson's clear, fluid translation is accompanied by an introduction by Andrew Louth discussing the life and works of Eusebius, together with notes, bibliography, map of the world of Eusebius and brief biographies of the figures who appear in the work.

The body of the work is written in easy-to-understand language to offer a practical guide for every reader. Technical explanations are reserved for the appendix. *Five Last Acts* provides the reliable options for the last act in your own play. Feedback on the first edition: "I have just finished reading your most excellent book, *Five Last Acts*; it is so well-researched, so informative, so clear, that it leads me to ask this question: which rational person would not want to obtain a copy of this book as an insurance policy against an uncertain future?" Published in conjunction with The Proclamation Trust. There are commentaries, and there are books on preaching - but very few books that are specifically geared to the preacher or Bible teacher tackling a series on a Bible book or doctrinal theme. Key features of books in this series are introductory chapters on 'getting our bearings in the book' and 'planning a series'. The 'meat of the book' then works systematically through a suggested series, working with the Bible teacher from text to sermon or talk. Each chapter ends with a suggested preaching / teaching outline and a detailed Bible study which would be ideal for small groups. Books in this series are aimed at developing confidence in handling God's Word in a variety of contexts. Whether you are a preacher, a small group leader or youth worker, these books will give you the necessary tools for teaching. *Teaching Acts* is a welcome addition to the series. Acts is a tough book to teach, but vital to the church in every generation.

"... undertaken to provide earnest students of the New Testament with an exposition that is thorough and abreast of modern scholarship and at the same time loyal to the Scriptures as the infallible Word of God." This statement reflects the underlying purpose of The New International Commentary on the New Testament. Begun in the late 1940s by an international team of New Testament scholars, the NICNT

series has become recognized by pastors, students, and scholars alike as a critical yet orthodox commentary marked by solid biblical scholarship within the evangelical Protestant tradition. While based on a thorough study of the Greek text, the commentary introductions and expositions contain a minimum of Greek references. The NICNT authors evaluate significant textual problems and take into account the most important exegetical literature. More technical aspects — such as grammatical, textual, and historical problems — are dealt with in footnotes, special notes, and appendixes. Under the general editorship of three outstanding New Testament scholars — first Ned Stonehouse (Westminster Theological Seminary, Philadelphia), then F. F. Bruce (University of Manchester, England), and now Gordon D. Fee (Regent College, Vancouver, British Columbia) — the NICNT series has continued to develop over the years. In order to keep the commentary “new” and conversant with contemporary scholarship, the NICNT volumes have been — and will be — revised or replaced as necessary. The newer NICNT volumes in particular take into account the role of recent rhetorical and sociological inquiry in elucidating the meaning of the text, and they also exhibit concern for the theology and application of the text. As the NICNT series is ever brought up to date, it will continue to find ongoing usefulness as an established guide to the New Testament text.

This carefully crafted ebook: "Between the Acts" is formatted for your eReader with a functional and detailed table of contents. Between the Acts is the final novel by Virginia Woolf, published in 1941 shortly after her suicide. This is a book laden with hidden meaning and allusion. It describes the mounting, performance, and audience of a festival play (hence the title) in a small English village just before the outbreak of the Second World War. Much of it looks forward to the war, with veiled allusions to connection with the continent by flight, swallows representing aircraft, and plunging into darkness. The pageant is a play within a play, representing a rather cynical view of English history. Woolf links together many different threads and ideas - a particularly interesting technique being the use of rhyme words to suggest hidden meanings. Relationships between the characters and aspects of their personalities are explored. The English village bonds throughout the play through their differences and similarities.

Speech-act theory is the interdisciplinary study of the wide range of things we do with words. Originally stemming from the influential work of twentieth-century philosophers, including J. L. Austin and Paul Grice, recent years have seen a resurgence of work on the topic. On one hand, a new generation of linguists, philosophers, and cognitive scientists have made impressive progress toward reverse-engineering the psychological underpinnings that allow us to do so much with language. Meanwhile, speech-act theory has been used to enrich our understanding of pressing social issues that include freedom of speech, racial slurs, and the duplicity of political discourse. This volume presents fourteen new essays by many of the philosophers and linguists who have led this resurgence. The topics span a methodological range that includes formal semantics and pragmatics, foundational issues about the nature of linguistic representation, and work on a variety of forms of indirect and/or uncooperative speech that occupies the intersection of the philosophy of language, ethics, and political philosophy. Several of the contributions demonstrate the benefits of integrating the methodologies and perspectives of these literatures. The essays are framed by a comprehensive introductory survey of the contemporary literature written by the editors.

The promise of the European pursuit of ever closer union created tremendous optimism that conflict was the past and harmony would be the future. The enthusiasm for economic integration and monetary union, through the Euro, enhanced the confidence that differences among countries could be overcome. In this dynamic and incisive overview of the European project from its beginnings, Ashoka Mody convincingly demonstrates that the tensions and flaws of the European project were both baked-in and foreseen from the beginning. He focuses on personalities whose ambitious and relentless push for integration led them to choose facts and analysis consistent with their visions and to dismiss warnings of turbulence. They thus laid the seeds for disappointment. Mody examines key moments when contradictions were papered-over, compromising the integrity of integration. He shows how political and economic leaders believed the stories they told themselves about the inevitability of a united Europe as a foundation of peace, prosperity, and democratic ideals, even in the face of warnings from the earliest stages that while the political pillars seemed strong, the economic foundations were weak. Mody compellingly shows how monetary union impaired European integration rather than enhanced it. European countries have always had vastly different economic conditions, and the common currency increased divergences rather than smoothing them, as many analysts warned at the time. The economic, financial, and political pathologies of the euro were there from the beginning, even if the global economic boom hid them. With political and economic elites benefitting, they could ignore the growing discontent of those who suffered and the antipathy to the European project in national heartlands. When crisis inevitably hit, leaders denied, delayed, and took half-measures that only further alienated people. If once the inability to deliver on the economic promise caused the political handicaps to worsen, now the political splintering is making it harder to mount an effective response.

Highly respected scholar Carl R. Holladay offers an in-depth critical commentary on the book of Acts in this new work from the acclaimed New Testament Library series. Holladay offers a theological, contextual, and literary interpretation, paying attention to Acts as a rich narrative that accounts for the development of the early Christian church. He sees Luke's literary style as an expression of its theological purpose. Holladay writes, "Convinced that Jesus' life and death and the emergence of the early Christian movement occurred under divine guidance and continued the biblical story by fulfilling God's ancient promises, Luke decided to incorporate them into a grandly conceived narrative told in a dignified yet dramatic style. Acts reflects the close relationship between medium and message, yet it also illustrates how the medium is the message." Holladay's commentary is theologically rich and steeped in narrative analysis that understands the high level of literary style as an expression of the theological content and the telling of the Christian origin. The New Testament Library series offers authoritative commentary on every book and major aspect of the New Testament, providing fresh translations based on the best available ancient manuscripts, critical portrayals of the historical world in which the books were created, careful attention to their literary design, and a theologically perceptive exposition of the biblical text. The contributors are scholars of international standing. The editorial board consists of C. Clifton Black, Princeton Theological Seminary; M. Eugene Boring, Brite Divinity School; and John T. Carroll, Union Presbyterian Seminary.

This commentary by one of Britain's leading New Testament scholars takes the reader through questions of authorship, recipients, date and purpose, considers the literary structure, the nature of history writing and the teaching of Acts, and provides the information and perspective necessary for reading to best effect what Professor Dunn believes is the most exciting book in the New Testament.
