The Cannabis Breeder's Bible offers real-world, professional techniques for breeding primo pot and gives precise growing information for 60 popular marijuana varieties. The book covers new hybridization techniques, international seed law issues, protecting new breeds or strains from knockoff artists, shipping seeds and clones, breeding lab designs, product testing, primordial cannabis, landrace and lost strains, common mutations, and more. This useful guide also features a wealth of photographs, instructive illustrations, and in-depth interviews with breeders and seed bank professionals.

The gripping story of two marijuana advocates gunned down by the FBI after a five-day standoff. On a mission to build a peaceful, pot-friendly Shangri-La, Tom Crosslin and his lover Rollie Rohm founded Rainbow Farm, a well-appointed campground and concert venue tucked away in rural Southwest Michigan. The farm quickly became the center of marijuana and environmental activism in Michigan, drawing thousands of blue-collar libertarians and hippie liberals, evangelicals and militiamen to its annual hemp festivals. People came from all over the country to support Tom and Rollie's libertarian brand of patriotism: They loved America but didn't like the War on Drugs. As Rainbow Farm launched a popular statewide ballot initiative to change marijuana laws, local authorities, who had scarcely tolerated Rainbow Farm in the past, began an all-out campaign to shut the place down. Finally, in May 2001, Tom and Rollie were arrested for growing marijuana. Rollie's 11-year-old son, who grew up on Rainbow Farm, was placed in foster care – Tom would never see him again. Faced with mandatory jail terms and the loss of the farm, Tom and Rollie never showed up for their August court date. Instead, the state's two best-known pot advocates burned Rainbow Farm to the ground in protest. County officials called the FBI, and within five days Tom and Rollie were dead. Obscured by the attacks of September 11, their stories will be told here for the first time.

De Belgische justitie merkt de jongste jaren een aanzienlijke stijging in het aantal in beslag genomen indoor cannabisplantages. De veroordeling van de daders is gebaseerd op de (grote) winsten die met de cannabisteelt en -handel gepaard gaan, maar de justitiële autoriteiten hanteren hiervoor verouderde cijfers. Onderzoekers formuleren in dit boek een aantal aanbevelingen voor respectievelijk politie en justitie, die deze onderzoeksresultaten bij toekomstige opsporing en vervolging kunnen gebruiken.

Reveals the “war on drugs” for the race-based, legislated criminal enterprise that it really is, shatters the myths about the allegedly addictive properties of marijuana, and exposes America's prison-for-profit prison and court systems. Goes into great detail about the huge economic and medical benefits of legalizing marijuana and its sister plant, hemp. Written by a pan-denominational Christian minister and blogger, this book uses the Bible to provide a simple explanation for why marijuana criminalization is a sin against God.
