

and the constant evolution and optimization of any given process, every activity has gained more complexity. Everyday, it is becoming harder and harder to keep up with complicated procedures and it's normal to feel overwhelmed, but what can we do to address this? Checklists, an old but gold method. (Note: This summary is wholly written and published by Abbey Beathan. It is not affiliated with the original author in any way) "One essential characteristic of modern life is that we all depend on systems - on assemblages of people or technologies or both - and among our most profound difficulties is making them work." - Atul Gawande Checklists were invented long ago, but they are still used. They were created out of necessity to execute the extremely complicated process of flying military aircraft but they still have a lot of relevance. And that's because checklists have evolved as well with the passing of time. Gawande with his medical experience demonstrate how even surgeons tasked to do complex surgeries use checklists to aid them during the procedure and it has reduced the rate of fatalities by more than a third. There are a lot of proof about how influential checklists are in the modern era and in The Checklist Manifesto you'll learn all about it. Gawande shares with us riveting stories about the importance of checklists. Their power might shock you but they will also convince you of their utility. P.S. The Checklist Manifesto is an extremely informative book that will teach you the importance of checklists, an invention many people nowadays mistakenly underestimate. P.P.S. It was Albert Einstein who famously said that once you stop learning, you start dying. It was Bill Gates who said that he would want the ability to read faster if he could only have one superpower in this world. "The tough-minded and revealing story of a leading doctor's crusade against medical harm...Fascinating reading." -Atul Gawande, author of The Checklist Manifesto. First, do no harm. Doctors, nurses, and clinicians swear by this code of conduct. Yet, medical errors are made every single day-avoidable mistakes that often cost lives. Inspired by two such mistakes, Dr. Peter Pronovost made it his personal mission to improve patient safety and make preventable deaths a thing of the past, one hospital at a time. Safe Patients, Smart Hospitals shows how Dr. Pronovost started a revolution by creating a simple checklist that standardized a common ICU procedure. His reforms are being implemented in all fifty states and have saved hundreds of lives by cutting hospital-acquired infection rates by 70%. Atul Gawande profiled Dr. Pronovost's reforms in a New Yorker article and his bestselling book The Checklist Manifesto is based upon Dr. Pronovost's success in patient safety. But Safe Patients, Smart Hospitals is the real story: an inspiring, thought-provoking, accessible insider's narrative about how doctors and nurses are improving patient care for all Americans, today.

A Complete Summary of The Checklist Manifesto The Checklist Manifesto, written by Atul Gawande, explains how maintaining a checklist is vital for managing complexity in medicine, business, and other fields. Although the idea of a checklist is quite simple, it has profound implications for high performance, disaster avoidance, and team dynamics. Back in 2006, Gawande worked with the World Health Organization to find an effective way to reduce preventable errors in the high-stakes world of surgery. Through his research, he discovered that many mistakes which occur during surgeries can be prevented. Creating a checklist seemed like a promising answer to the problem. This prompted Gawande to begin a journey to understand how other industries such as aviation, building construction, and financial investing use checklists to minimize errors and increase their performance. Through his thorough research, Gawande discovered that making a checklist is more challenging than it seemed. However, a properly organized checklist can create better teamwork, empower employees, and even improve organizational structure. Here Is A Preview Of What You Will Get: In A Complete Summary of The Checklist Manifesto , you will get a full understanding of the book. In A Complete Summary of The Checklist Manifesto , you will get some fun multiple choice quizzes, along with answers to help you learn about the book. Get a copy, and learn everything about A Complete Summary of The Checklist Manifesto . Summary Bundle: Spiritual & Success: Includes Summary of The Case for Christ & Summary of The Checklist Manifesto From the Description of "Summary of The Case for Christ"... "Only in a world where faith is difficult can faith exist." - Lee Strobel In The Case for Christ, Strobel challenges his atheist beliefs by researching about the New

Testament and its reliability, on top of that, you'll learn about the existence of evidence that lives outside of the Bible and finally, he tackles the big question, if there is any reason to believe that the resurrection of Jesus of Nazareth actually happened. The answers to these questions made Lee Strobel a believer so there is no doubt about how astonishing the content is. From the Description of "Summary of The Checklist Manifesto"... "One essential characteristic of modern life is that we all depend on systems - on assemblages of people or technologies or both - and among our most profound difficulties is making them work." - Atul Gawande Checklists were invented long ago, but they are still used. They were created out of necessity to execute the extremely complicated process of flying military aircraft but they still have a lot of relevance. For most of human history, death was a common, ever-present possibility. It didn't matter whether you were five or fifty - every day was a roll of the dice. But now, as medical advances push the boundaries of survival further each year, we have become increasingly detached from the reality of being mortal. So here is a book about the modern experience of mortality - about what it's like to get old and die, how medicine has changed this and how it hasn't, where our ideas about death have gone wrong. With his trademark mix of perceptiveness and sensitivity, Atul Gawande outlines a story that crosses the globe, as he examines his experiences as a surgeon and those of his patients and family, and learns to accept the limits of what he can do. Never before has aging been such an important topic. The systems that we have put in place to manage our mortality are manifestly failing; but, as Gawande reveals, it doesn't have to be this way. The ultimate goal, after all, is not a good death, but a good life - all the way to the very end. Published in partnership with the Wellcome Collection. **WELLCOME COLLECTION** Wellcome Collection is a free museum and library that aims to challenge how we think and feel about health. Inspired by the medical objects and curiosities collected by Henry Wellcome, it connects science, medicine, life and art. Wellcome Collection exhibitions, events and books explore a diverse range of subjects, including consciousness, forensic medicine, emotions, sexology, identity and death. Wellcome Collection is part of Wellcome, a global charitable foundation that exists to improve health for everyone by helping great ideas to thrive, funding over 14,000 researchers and projects in more than 70 countries. The struggle to perform well is universal, but nowhere is this drive to do better more important than in medicine. In his new book, Atul Gawande explores how doctors strive to close the gap between best intentions and best performance in the face of obstacles that sometimes seem insurmountable. His vivid stories take us to battlefield surgical tents in Iraq, to a polio outbreak in India and to malpractice courtrooms around the country. He discusses the ethical dilemmas of doctors' participation in lethal injections, examines the influence of money on modern medicine and recounts the astoundingly contentious history of hand-washing. Finally, he gives a brutally honest insight into life as a practising surgeon. Unflinching but compassionate, Gawande's investigation into medical professionals and their progression from good to great provides a detailed blueprint for success that can be used by everyone.

Traditional Chinese edition of The Checklist Manifesto: How to Get Things Right

SYNOPSIS: Drawing from his experience as a general surgeon, Atul Gawande's The Checklist Manifesto (2009) reveals how using a simple checklist can significantly reduce human error in many professions such as aviation, surgery, and architecture. ABOUT AUTHOR: Atul Gawande is a general surgeon at Brigham and Women's Hospital in Boston, Massachusetts, and a professor of surgery at Harvard Medical School. As well as writing for the New York Times, he is the author of Better and Complications, the latter of which was a National Book Award finalist. In 2010, Gawande was named one of the world's 100 most influential thinkers by TIME magazine. DISCLAIMER: This book is a SUMMARY. It is meant to be a summary, not a replacement, of the original book. This work offers a summary of the book "The Checklist manifesto" by Atul Gawande. When solving problems, it's easy to get caught up in the complexities whilst ignoring the obvious, simple solutions. Atul Gawande suggests that every business sector can take some tips from the commercial aviation industry's emphasis on checklists: "Avoidable failures are common and persistent, not to mention demoralizing and frustrating, across many fields the volume and complexity of what we know has exceeded our individual ability to deliver its benefits correctly, safely, or reliably. Knowledge has both.
