Many of us have questions about the passage of life and often wonder what happens when we die. In this amazingly insightful book by medium/clairvoyant Lisa Williams, evidence of the afterlife is explored. Through various channels such as meditation, psychic readings, communication with her Spirit Guide, and a personal near-death experience, Lisa delves into the journey of the soul, discusses the different stages of the afterlife, and reveals what life is really like on the other side. This book addresses the myriad questions many of us have surrounding this subject, especially if we've gone through the painful experience of having lost loved ones. Arcturus is the name given to the star system some thirty-seven light-years from our own. It includes at least a half dozen planetary bodies and is many times larger and much older than our own star and its system. Arcturian involvement with our system began over three million years ago when a space colony--a galactic space station--was established on Velatropa 24.4, otherwise known as Mars. With its 40,000-year warm cycles, Mars provided the perfect experimental way station. If anything went wrong, at least those on the Arcturus system would not be affected--or so it was thought. Some of those in command of the Martian project had not considered carefully enough the inexorable efficacy of karma, the law of cause and effect. By the time strange events began to transpire on Mars, little did anyone on Mars or Arcturus reckon the strange consequences of forgetting about each other's mutual existence. Thus unfolds the tale of the Arcturian experimental way station, V.24.4, otherwise kno

12 lectures, Berlin, Oct. 23, 1909-Dec. 16, 1911 (CW 115) This series of lectures provides the basis for an entirely new psychology. The first four lectures give a precise, dynamic understanding of the human soul in relation to the activity of the senses and to the subtle processes that make up the human being on Earth. The next four lectures focus on what we can know of the human soul based on direct observation alone. No theorizing takes place. To show what we can know of soul life through the immediacy of engaged observation of oneself and others, Rudolf Steiner refrains from using his own higher capacities of clairvoyance to form a picture of our soul life. The concluding lectures portray the relationship of soul life to spirit life, showing us how to awaken individual spirit life and how to distinguish between illusory and genuine spiritual experiences. Presented more than a century ago, we might be tempted to think that, insofar as psychology is concerned, the content of these lectures are outdated. It is also tempting to think that, because Steiner is not usually associated with the founders of modern psychology, his efforts must be considered, at best, an interesting aside. On the contrary, these lectures are actually a wellspring for the true stream of psychology, as the term itself means "soul study." A Psychology of Body, Soul, and Spirit should be read by anyone interested in psychology as well as by those interested in inner development. Whether we are involved in education, medicine, art, drama, economics, or business, the perspectives contained in this book have the potential to restore the frequently missing element of soul in psychology today. Robert Sardello's in-depth introduction places Steiner's lectures in the context of modern life and psychology and provides insights into how to read and use this text for inner development and a deeper understanding of spiritual

That is the entire method. There is, however, an entrance fee for doing psychology. The fee is that you need to leave behind your well-known-to-you self-identity. The Commentary of St. Thomas Aquinas on Aristotle's Treatise on the soul. Translated by R. A. Kocourek.

In a delightful study – originally comprising two separate booklets – the accomplished artist and teacher Gladys Mayer explains that colour is nothing other than the very substance of the soul. Just as the body is made up of mineral, water, air and warmth, so the soul is made up of colour. This is revealed in the emotions of sadness and joy and the many shades in between, as expressed in human language – for example: ‘seeing red’, ‘rose-coloured spectacles’ and ‘jaundiced view’. Mayer discusses the basis of colour theory and its methodology, and the importance of colour for everyday life and health. It is as fundamental to the soul as air is to the body. By increasing our awareness of the spiritual laws of colour, we can acquire a balanced and enriched life of soul. Thus, colour can become a healing force in life, enabling us to tackle the deadening, grey aspects of our mechanised civilisation. Based on the work of Rudolf Steiner, which she studied intensively for many years, Mayer offers an approach to colour that is of value to painters and artists, as well as to those interested in psychology, health and healing, spirituality and personal development.

On ending up in a too familiar situation after years of emotional and physical pain, I began searching for answers as to why all these difficulties kept

happening. It was at this life threatening time that I was first approached by the energy vibration of the four archangels. Due to the fact I had always seen spirits as physical people, I didn't believe the angels instructions, but after another very special visitation where they showed themselves to me -- which is no easy feat for them,-- I agreed to write their words; and that's how this book manifested. As I wrote, my life began to make sense, which now enables me to live with more awareness of what part I have to play in my soul's journey opening my eyes to wonderful new possibilities. When angels speak, do you listen? I did, and now you too can experience the higher healing knowledge of how your soul's journey affects your human existence, and how you can work with your soul to ease life's impact. So give yourself permission to engage with the timeless angelic knowledge that will enable you to encounter a freedom never felt or known before.

This volume features essays that explore the insights of the 14th-century Parisian nominalist philosopher, John Buridan. It serves as a companion to the Latin text edition and annotated English translation of his question-commentary on Aristotle's *On the Soul*. The contributors survey Buridan's work both in its own historical-theoretical context and in relation to contemporary issues. The essays come in three main sections, which correspond to the three books of Buridan's *Questions*. Coverage first deals with the classification of the science of the soul within the system of Aristotelian sciences, and surveys the main issues within it. The next section examines the metaphysics of the soul. It considers Buridan's peculiar version of Aristotelian hylomorphism in dealing with the problem of what kind of entity the soul (in particular, the human soul) is, and what powers and actions it has, on the basis of which we can approach the question of its essence. The volume concludes with a look at Buridan's doctrine of the nature and functions of the human intellect. Coverage in this section includes the problem of self-knowledge in Buridan's theory, Buridan's answer to the traditional medieval problem concerning the primary object of the intellect, and his unique treatment of logical problems in psychological contexts.

Tuning in to our colors rebalances our selves with nature and each other. Finding our right color has implications for the way we dress, how we decorate our homes, even the food we eat. Use the color inset and the exercises in this book to find the right colors for you in different situations. Become color intelligent, and live a glorious

This carefully crafted ebook: "THE SOULS OF BLACK FOLK" is formatted for your eReader with a functional and detailed table of contents. "The Souls of Black Folk" is a cornerstone of African-American literary history. Published in 1903, this seminal book of essays incited many white supremacists who discredited it as "dangerous" and "imaginative." Drawing upon his own personal experiences of racism, Du Bois argued that African Americans are forced to wear a "veil" of color line, that is, they are forced to live their race every single day of their lives. This is why a strong political Black leadership must emerge from within the community and continue the fight for their rights. A century later, African Americans are still fighting these personal and political battles against racism and Du Bois' words have never run as true as they are now. W. E. B. Du Bois (1868–1963) was an American sociologist, historian, civil rights activist, Pan-Africanist, author, and editor. He was the first African American to earn a doctorate and to become a professor of history, sociology and economics at Atlanta University. Du Bois was one of the co-founders of the National Association for the Advancement of Colored People (NAACP) and a prominent the leader of the Niagara Movement, a group of African-American activists who wanted equal rights for blacks.

Occasionally, the day-to-day monotony of life is unexpectedly interrupted by thoughts and experiences—beautiful and profound, or painful and sad. Depending on the person, these moments may be instantly forgotten or even go unrecognized. But these moments are crucial because they lift us from the mundane into the experience of the transcendent or facilitate our demise into what Hobbes called “life of man, solitary, poor, nasty, brutish and short.” Lucidly written in both verse and prose, *Voices of the Soul* is at once existential and simple in the revelation of the sacred. A provocatively straightforward exposé, these poems fully engage the revealing power and beauty of nature and explore what it means to be human—a complex enigma discovered in the inspired nuances of the poetic imagination. In a materialistic age of disbelief, isolation, anxiety, and spiritual yearning, the words you’ll discover in this book—written with emotional urgency—moving, powerful, and beautifully transparent, will revitalize and sustain your mind, body, and soul reminding us that we are not alone—and more importantly, that we’re a dynamic part of an ineffable and meaningful cosmos.

The sketches in this book and in my previous one, "The Cross at the Front," are attempts to show the soul of the soldier serving in France as I have seen it during the year and a half that I have been with him. It is a padre's privilege and duty to be the voice with which, in public worship, the soldiers speak to God; and through which their last thoughts are borne to their friends at home. He is their voice both when they are sick or wounded, and when they lie silent in the grave. He speaks of their hopes and fears, hardships and heroisms, laughter and tears. As best he may he tries to tell, to those who have a right and a longing to know, how they thought, and how they bore themselves in the great day of trial when all risked their lives and many laid them down. Soldiers, as a rule, are either inarticulate or do not care to speak of themselves; and the padre has to be their spokesman if ever their deeper thoughts and finer actions are to be known to their friends. To do this he may have to bring himself into the picture, or even illustrate a common thing in their lives by a personal experience of his own. To reveal life and thought at the Front in the third person, and without sacrificing truth and vividness, requires a degree of literary power and art which cannot be expected of a padre to whom writing is but a by-product, and not his main work. I have written but little of military operations--these things are not in my province. Moreover, they are not the things which are most revealing. The presence of Spring is first and most surely revealed by the flowers in our gardens and lanes; and the soldier is most clearly seen in the little things that happen on the march--in his billet or in the Dressing Station. Some things are not seen at all. They are only felt, and my opinion about them must be taken for what it is worth. One knows what the men are by their influence on one's own mind and life. I do not judge the morality and spirituality of our soldiers entirely by their habits and speech, for these are but outward and clumsy expressions of the inner life and are largely conventional. There is something else to put in the reckoning, and to find out what the soldiers are worth to us we must somehow get behind their words and actions and find out what they are worth to God, whose terrible wheel of war is shaping their characters. I appraise them mostly by the total effect of the impact of their souls on mine. I know their thoughts and feelings by the thoughts and feelings they inspire in me. "Do men gather grapes of thorns or figs of thistles?" There are certain thoughts and emotions that only come to me strongly when I am with the soldiers or when I am living

again with them in memory, and so, I take these as their gift to me and judge the men by their influence on my character. Character is, in its influence, subtle as Spring. Words and actions by themselves are too coarse and conventional to do anything but mislead us in judging the quality of our men. "By their fruits ye shall know them." Not by their leaves. Fruit is seed. In the seed the tree reproduces itself. And reproduction, whether in physical, moral or spiritual life, is the test of vitality. To be continue in this ebook...

The Ocean of the Soul is one of the great works of the German Orientalist Hellmut Ritter (1892-1971). It presents a comprehensive analysis of the writings of the mystical Persian poet Far d al-D n At t r who is thought to have died at an advanced age in April 1221 when the Mongols destroyed his home city of N sh p r in the north-east of Iran. The book, which resulted from decades of investigation of literary and historical sources, was first published in 1955 and has since remained unsurpassed not only as the definitive study of At t r's world of ideas but as an indispensable guide to understanding pre-modern Islamic literature in general. Quoting at length from At t r and other Islamic sources, Ritter sketches an extraordinarily vivid portrait of the Islamic attitude toward life, characteristic developments in pious and ascetic circles, and, in conclusion, various dominant mystical currents of thought and feeling. Special attention is given to a wide range of views on love, love in all its manifestations, including homosexuality and the commonplace s f adoration of good-looking youths. Ritter's approach is throughout based on precise philological interpretation of primary sources, several of which he has himself made available in critical editions.

Few experiences stir the emotions and throw a person into crisis as illness does. It affects not only the body but also the spirit and soul. Illness is about life and death, fear and hope, love and conflict, spirit and body. And yet, the healthcare system is not structured around these considerations—our doctors and other medical professionals are not trained to deal with the whole person. Care of the Soul In Medicine is Moore's manifesto about the future of healthcare. In this new vision of care, Moore speaks to the importance of healing a person rather than simply treating a body. He gives advice to both healthcare providers and patients for maintaining dignity and humanity. He provides spiritual guidance for dealing with feelings of mortality and threat, encouraging patients to not only take an active part in healing but also to view illness as a positive passage to new awareness. While we don't fully understand the extent to which healing depends on attitude; it has been shown that healing needs to focus on more than the body. The future of medicine is not only in new technical developments and research discoveries; it is also in appreciating the state of soul and spirit in illness. The book is all about simple methods that we can all adopt in order to attain peace of mind and to learn the ways of spirituality. It educates us about being conscious towards the needs of the soul as much as we are towards bodily needs. Following the methods enlisted, one can gain synchronicity of the soul with the higher energy realm. The book highlights factors that create long-lasting effect on the soul. It is all about keeping your 'soul consciousness' awake. This book will help you gain the perspective of the actual reason of human birth and of how one can be free from karmic bondage and be liberated from the vicious cycle of incarnation. The writings emphasise on the practice of mindfulness which leads one to accept life as it is and to vibrate positivity in every situation of life no matter how negative it may seem. The book highlights the fact that

we are lost in a different world that has taught us to analyse ourselves as humans searching for their spiritual awakening, whereas the truth is that we are spiritual beings that are trapped within human incarnation which is so stained with materialistic vices that it knows not which path to tread in life.

Who are you? What are you? From whence have you come? Where are you destined to go? --Socrates As a doorway to the light, this book offers a vision of the world we would create if our lives honored the supreme force, God the Father. Through personal experiences and her own visionary view, the author offers a "feast for thought" illuminated with verses from the Bible. "The finite is the infinite waiting to be freed. Evil (error) is good gone astray ... the misguidance of the One Power. The child of God with the unlit candle upon the altar of the heart is the child who seeks to light the candle but knows it not ... for the breath of ignorance has tombed the wanting sightless eye." To open the unseeing eyes of the reader, there is a series of explorations, drawn from her life of seeing beyond the doorway into the Light. It is profoundly moving and inspiring. The fourth drama enters new terrain based on what has been achieved in the first three dramas. The end of those brought about the unifying of the various main characters in a Temple ceremony whereby they consecrated themselves to take over the work of the traditional Mystics for modern times. Up until this point, the dramas had been concerned with personal development, the achieving of spiritual vision, the beholding and integrating of a correct view of Karma. But now the step has to be taken to bring all this into a concrete relationship with the modern world. The task of the Mystics had been to preserve in secret the mysteries of humanity. The task of the new Temple servants is to bring those mysteries to humanity again and make them fruitful in the modern world. This requires, on the one hand, a willingness to approach the elements of the world and interact with them, and on the other, the cultivating of an inner knowledge which will give one the new faculties and strength to do that. The essential question thus arising for all of them, illustrated by the greatly increased role Benedictus plays in this fourth drama, is the question of spiritual help and from where and under what conditions it can come to us. Not only Lucifer and Ahriman are here operating for their own interests, good human beings and good spiritual beings are working, too, and who these are, where these are, and what relation we can have to them is a matter of the greatest urgency for humanity at this time.

A dramatic story of brotherhood, magic, and spiritual growth. Two young men from Laos immigrate to Minnesota, U.S.A., during the Vietnam War. Enemies and rivals for the love of a village woman who stayed behind, each tries to resolve his confusion about living in a new culture and the loss of their beloved beauty, Zoua Lee. For Pao Moua, Zoua comes alive in his paintings of the village. On dark nights, from a mural lit by headlights, she speaks to Pao and helps him find a way to accept his new life. For Lue Vang, there is no such understanding. He turns to gang life, and must kill or be killed by his gang brothers. In trying to help Lue Vang, Pao nearly loses his life, but in the process he undergoes a life-changing experience that will lead him to become the shaman he always wanted to become. On the other hand, Lue Vang must leave the city

to stay alive, but he leaves transformed after seeing a vision of Zoua Lee and saving Paos life. In the end, he realizes his own courage.

The Holocaust of Nazi Germany created a karmic wound that still affects us today. Regression therapist Jeanne Avery finds that many of her clients struggle with past-life memories of this horrific time. In "A Soul's Journey," Avery shares these stories and their impact on us individually and collectively.

Explores the full diversity of Black Jews, including bi-racial Jews of both matrilineal and patrilineal descent; adoptees; black converts to Judaism; and Black Hebrews and Israelites, who trace their Jewish roots to Africa and challenge the dominant western paradigm of Jews as white and of European descent. The book showcases the lives of Black Jews, demonstrating that racial ascription has been shaping Jewish selfhood for centuries. It reassesses the boundaries between race and ethnicity, offering insight into how ethnicity can be understood only in relation to racialization and the one-drop rule. Within this context, Black Jewish individuals strive to assert their dual identities and find acceptance within their communities. Putting to rest the notion that Jews are white and the Black Jews are therefore a contradiction, the volume argues that we cannot pigeonhole Black Hebrews and Israelites as exotic, militant, and nationalistic sects outside the boundaries of mainstream Jewish thought and community life. It spurs us to consider the significance of the growing population of self-identified Black Jews and its implications for the future of American Jewry. The journey of the spirit is not marked by a smooth, four-lane highway. Rather, like the path through a Zen garden, it is curved, with many switchbacks and lots of turns. While there may be many beginnings, there really is no destination. Its goal is self-awareness, enlightenment, and inner peace. It is a journey we take with our lives. In his latest book, Rabbi Terry Bookman explores the many ups and downs associated with the life of the spirit. Drawing on the ancient traditions of Judaism. A Soul's Journey serves as a kind of roadmap for the path, offering practical insights and modern applications along the way. Rabbi Bookman has been described as a "wise and compassionate teacher" who combines knowledge from a wide variety of disciplines and religious faiths to challenge and encourage his students and readers. He is the author of two books, *The Busy Soul* and *God 101*, and the co-author of two CDs of contemporary Jewish music. For those moments when you long for refreshment and a touch of heaven's joy, open up the pages of *Color Heaven's Angels*. These precious designs by Donna Moses have been drawn with sweet simplicity and eagerly await the cheery colors of your crayons, colored pencils, watercolors, or markers.

Since the 1960s, there have been two schools of thought on the origins and nature of black consciousness: the adaptive-vitality school and the pathological-pathogenic school. The latter argues that in its divergences from white American norms and values, black American consciousness is nothing more than a pathological form of and reaction to American consciousness, rather than a dual (both African and American) counter hegemonic opposing 'identity-in-differential'

(the term is Gayatri Spivak's) to the American one. Proponents of the adaptive-
vitality school argue that the divergences are not pathologies but African
'institutional transformations' preserved on the American landscape. The purpose
of this work is to understand black consciousness by working out the theoretical
and methodological problems from which these two divergent schools are
constructed, in order to arrive at a more sociohistorical, rather than racial,
understanding of black consciousness. Using a variant of structuration theory to
account for the sociohistorical development of black consciousness formation
within the American social structure, author Paul Mocombe concludes that black
American life is dual and pathological only in relation to a particular interpretive
community, the black bourgeoisie or liberal middle class.

Where is your solace when you have lived a life without religion or faith, only to
find out nearing the hour of your death you have nothing to trust. Even a life of
constant faith can end with fear of the damnation threatened by your minister.
What if you are gay, or lesbian, locked away in prison, or hopelessly addicted to
drugs or alcohol? When the fear of death occupies your mind, what can you turn
to? Where is the truth? What happens when I die? Which church is the right one?
Will there be rapture? Is God on our side? Can I really get into heaven for an
adequate donation? Thousands are in prison, thousands are gay, and thousands
have no religious affiliations at all. Yet in every heart lies the fear of damnation
and the uncertainty of what may await us on the other side. Gays are called
abominations by churches and good Christians; sentenced to exclusion and
damned forever. Prisoners are for the most part condemned to hell for their
crimes. The everyday average person does not go to church at all. I offer these
untold thousands a new answer, a plausible alternative to sackcloth and ashes. I
offer a faith in the absolute "understanding" that awaits us after death. I ask
readers to look past the ranting and threats of all religions. You need to see that
they are selling heaven. There is no Bible thumping or condemnation in chapter
and verse. This is a religious, anti-religious book. I offer piece of mind, even hope
for your personal end times. It is not deep nor psychologically steeped in
conjecture. Free yourself from bondage and fear. Share the story. The End
Times may be here! This book can help you prepare.
