

The Courtroom Genius

A review of five art trials of the last decade where social and art history accompany legal courtroom analysis.

This volume considers the dynamic relations between the contemporary practices of international criminal tribunals and the ways in which competing histories, politics and discourses are re-imagined and re-constructed in the former Yugoslavia and beyond. There are two innovative aspects of the book - one is the focus on narratives of justice and their production, another is in its comparative perspective. While legal scholars have tended to analyze transitional justice and the international war tribunals in terms of their success or failure in establishing the facts of war crimes, this volume goes beyond mere facts and investigates how the courts create a symbolic space within which competing narratives of crimes, perpetrators and victims are produced, circulated and contested. It analyzes how international criminal law and the courts gather, and in turn produce, knowledge about societies in war, their histories and identities, and their relations to the wider world. Moreover, the volume situates narratives of transitional justice in former Yugoslavia both within specific national spaces - such as Serbia, and Bosnia - and beyond the Yugoslav. In this way it also considers

experiences from other countries and other times (post-World War II) to offer a sounding board for re-thinking the meanings of transitional justice and institutions within former Yugoslavia. Included in the volume's coverage is a look at the Rwandan tribunals, the trials of Charles Taylor, Radovan Karadzic, the Srebrenica genocide, and other war crimes and criminals in the Yugoslav. Finally, it frames all of those narratives and experiences within the global dynamics of legal, social and geo-political transformations, making it an excellent resource for social science researchers, human rights activists, those interested in the former Yugoslavia and international relations, and legal scholars.

A comprehensive, non-partisan account of the judicial proceedings spawned by the corruption of the 1919 World Series is badly needed. This book provides it. The narrative of events has been crafted from surviving fragments of the judicial record, contemporaneous newspaper accounts of the proceedings, museum archives and, occasionally, the literature of the Black Sox scandal. Preceding the account of judicial events are a brief overview of the baseball gambling problem, a summary of the 1919 Series, and a discussion of post-Series events that presaged revelations of the Series fix. The grand jury proceedings, the criminal trial, and ensuing civil suits initiated by various of the banned players against the White Sox are then recounted in

detail, accompanied by copious source citations. The book concludes with a survey of how Black Sox-related legal proceedings have been treated in scandal literature. The book does not purport to be the definitive account of the Black Sox scandal. Rather, it uniquely presents how the matter played out in court.

"A great evil will be coming back into the world... and in two weeks' time, it will rain chocolate." Enter the life of Jek - a humble lighthouse steward on the southern coast of Jast-Madiir. Along with his wife (whose name is Aaliyah... or was it Audrey?), Jek must daily meet the expectations of an iron-fisted dictatorship, a global dragon-Inquisition, and a clerical order of flying jellyfish-like creatures churning out new surveys at a dizzying pace. All-in-all, a fairly predictable tedium. But when any little demerit on his next inspection could cost him his life, it can be hard sometimes to keep from stressing out! Of course, if Jek knew half the things at play just beyond his sleepy shores, he would be very stressed indeed. Neighboring Tophthaera is reeling under the Twin Queens' civil war. To the north, insurrection threatens to claim the island of Maenea for the cause of "Free-Dome" – a very strange and unsettling new ideology. Even the stable nations must decide how to deal with the recent, accidental discovery of magic. And all the while, the threat of Onyxadon's inevitable return clouds every counsel.

Only the strength and wisdom of the Grand Inquisitor would seem adequate to avail against these many calamities. But he has been dormant for seventy-five years now. Jek is, at best, dimly aware of such things... and perhaps better suited than anyone to be an ineffectual bystander anyway. But those luxuries are burst quite suddenly when he meets a crotchety old sailor man, only to be swept into a hair-brained Noble Quest to find the Knights of the Indigo Lodge, expose a secret Doom Fleet, and unravel the dreaded mystery of Proconsul Zedulon's infamous "Chocolate Prophecy."

In her new book about the men who were instrumental in establishing the Rome of the Emperors, Colleen McCullough tells the story of a famous love affair and a man whose sheer ability could lead to only one end -- assassination. As *The October Horse* begins, Gaius Julius Caesar is at the height of his stupendous career. When he becomes embroiled in a civil war between Egypt's King Ptolemy and Queen Cleopatra, he finds himself torn between the fascinations of a remarkable woman and his duty as a Roman. Though he must leave Cleopatra, she remains a force in his life as a lover and as the mother of his only son, who can never inherit Caesar's Roman mantle, and therefore cannot solve his father's greatest dilemma -- who will be Caesar's Roman heir? A hero to all of Rome except to those among his

colleagues who see his dictatorial powers as threats to the democratic system they prize so highly, Caesar is determined not to be worshiped as a god or crowned king, but his unique situation conspires to make it seem otherwise. Swearing to bring him down, Caesar's enemies masquerade as friends and loyal supporters while they plot to destroy him. Among them are his cousin and Master of the Horse, Mark Antony, feral and avaricious, priapic and impulsive; Gaius Trebonius, the nobody, who owes him everything; Gaius Cassius, eaten by jealousy; and the two Brutuses, his cousin Decimus, and Marcus, the son of his mistress Servilia, sad victim of his mother and of his uncle Cato, whose daughter he marries. All are in Caesar's debt, all have been raised to high positions, all are outraged by Caesar's autocracy. Caesar must die, they decide, for only when he is dead will Rome return to her old ways, her old republican self. With her extraordinary knowledge of Roman history, Colleen McCullough brings Caesar to life as no one has ever done before and surrounds him with an enormous and vivid cast of historical characters, characters like Cleopatra who call to us from beyond the centuries, for McCullough's genius is to make them live again without losing any of the grandeur that was Rome. Packed with battles on land and sea, with intrigue, love affairs, and murders, the novel moves with amazing speed toward the assassination itself, and then into the ever more complex and dangerous consequences of that act, in which the very fate of Rome is at stake. The October Horse is about one of the world's pivotal eras, relating as it does events that have continued to echo even into our

own times.

In a peaceful Vermont courtroom, humanity will be called to trial by endless evil. Ancient and implacable -- armed with sensuality, delusion and horrible death -- it will join itself to human weakness in an unholy alliance. Against it stand only imperfect human beings, caught in a world-spanning struggle in which they have everything to lose -- for all of us -- and only human strength to help them. Not since *The Exorcist* has there been such a powerful novel of demonic possession as *Son of the Endless Night*; perhaps never has there been a novel that so weds supernatural horror with human weakness as to make the two inextricably one.

This is an original, deliberately controversial and disturbing appraisal of the state of comparative law at the beginning of the 21st century.

Reconstructing Reality in the Courtroom explains what makes stories believable and how ordinary people connect complex legal arguments and evidence presented in trials to assess guilt and innocence. The explanation takes the core elements of narrative—the who, what, where, when, how, why—and shows how average people who hear hundreds of stories every day use the connections between these elements to assess credibility. A series of simple experiments outside the courtroom provides evidence for the explanation, showing that there is little relationship between the actual truth of a story and the degree to which the story is believed to be true by an audience of random listeners not familiar with the teller. So, how do jurors make a particular legal judgment? Based on courtroom observation, trial transcripts, and credibility experiments, Bennett and Feldman create a method of diagramming stories that shows exactly what makes some stories more believable than others. Prosecutors and defense attorneys can use this method of analyzing stories to weigh the strategies and tactics available to them; scholars can use it to assess the process of legal

judgment. Now in its Second Edition, this much-cited resource adds a new preface by the authors, as well as new forewords from divergent perspectives. From his experience in law practice, William S. Bailey notes that the book offers “timeless insights” as its authors “adapt a broad structural framework of storytelling to the criminal trial context, making it come alive in the dynamic real world courtroom environment.” Law-and-society scholar Anna-Maria Marshall writes that the book’s “emphasis on storytelling will resonate with scholars studying legal consciousness, where narrative plays an important theoretical and methodological role.... This new edition will be a welcome addition to the Law and Society community.” “Reconstructing Reality in the Courtroom is as timely as it was when this classic was first published. Here Bennett and Feldman provide great insight into the importance of storytelling as a basis of justice in American criminal trials. It deserves very wide readership.” — Elizabeth F. Loftus Distinguished Professor, University of California, Irvine Author, “Eyewitness Testimony” (1996) “This classic law and society study on the power of legal stories is a rich and compelling empirical analysis of the dynamics of story construction in trials. The book remains an essential resource for law students, litigators, academics, and any others who wish to understand the interpretive significance of the stories told in the courtroom.” — Jeannine Bell Professor of Law and Neizer Faculty Fellow, Indiana University Maurer School of Law — Bloomington Author, “Hate Thy Neighbor” (2013) Part of the Classics of Law & Society Series from Quid Pro

This volume returns to the Rivonia courtroom to engage with Mandela's masterful performance, when he stood before Justice de Wet in Pretoria's Palace of Justice and delivered one of the most spectacular and liberating statements ever made from a dock. Cutting across a wide-range of critical theories and discourses, contributors reflect on the personal, spatial, temporal, performative and literary dimensions of that constitutive event. By redefining the spaces, institutions and discourses of law, contributors present a fresh perspective that re-sets the margins of what can be thought and said in the courtroom.

Filmmaker Ed Wood was controversial and critically

maligned, even labeled “the worst director of all time,” yet he achieved cult status and remains of great interest today. This book frames Wood’s work, such as the cross-dressing themed *Glen or Glenda?* and the haphazard *Bride of the Monster*, as reflections of the culture of their era. Wood invariably worked with infinitesimal budgets, shooting at breakneck speed, incorporating plot twists that defied all logic. Yet there was a tangible if unfocused thematic thrust to Wood’s films, which meditate fitfully on gender, religion and society, revealing a “holy trinity” of fixations—sex, death and resurrection. Wood’s infamous *Plan 9 From Outer Space* encapsulates the fixations and flaws that were his hallmarks, and with 22 other films, is explored here. A filmography and 47 photographs are included.

In many criminal trials, forensic technical evidence is lacking and triers of fact must rely on the reliability of eyewitness statements, identifications, and testimony; however, such reports can be riddled with deceptive statements or erroneous recollections. Based on such considerations, the question arises as to how one should weigh such eyewitness accounts given the theoretical and empirical knowledge in this field. *Finding the Truth in the Courtroom* focuses on how legal professionals, legal/forensic psychologists, and memory researchers can decide when statements or identifications are based on truthful or fabricated experiences and whether one can distinguish between lies, deception, and false memories. The contributors, key experts in the field, assemble recent experimental work and case studies in which deception or false memory plays a dominant role. Topics discussed relate to the susceptibility to suggestive pressure (e.g., "Under which circumstances
