computer and takes them home to review. Andrew writes a prologue to explain how he has come to be in possession of The Dolphin, and then presents this story of Tom's Dolphin. THE DOLPHIN A man, Michael, seeks the refuge of an empty farm cottage near the sea, intending to recuperate alone from the recent, emotionally unsettling events in his life. On the morning of his first day he walks out to explore his surroundings but on climbing down the coastal cliff he slips, falls, and is knocked unconscious. On coming to he finds himself on the beach, and walks into the sea to freshen his senses. Immediately he becomes aware of a peculiar sensation in his head, one that recedes, however, when he leaves the water. Further along the beach he finds a sheltered inlet and cove of rocks. There in the water once more he suddenly becomes aware of spoken words, coming not from around him but from, it seems, inside his head. And a dolphin swims into the inlet. Incredibly, the two begin a conversation, the dolphin explaining that Michael is hearing with inner senses. At this he guesses that the earlier mental sensations he felt were some kind of preparation for this exchange. Prompted by Michael's curiosity the dolphin enters into a dialogue with him. In disbelief at what he hears Michael interrogates the creature, growing too insistent and forceful, however, and the dolphin becomes silent and returns to the open sea. Disconsolate, Michael returns to the cottage. The next morning Michael returns to the cove and the dolphin. The dialogue continues and he learns of the power that preconceptions exert on experience, that it is believing that makes things so, and

that life is an adventure in consciousness. The dolphin speaks of the state of grace in which all lives exist and comments on the human concern with being objective. There follow observations on religion and on the idea of God; on Earth as a time and space medium in which effective patterns can materialise as physical objects and events; on the mobility of mankind's unique reflective consciousness; on our notion of cause and effect; and on the way that beliefs and values and expectations steer the materialisation of inner affective patterns. The dolphin describes the manipulative nature of both religion, which traditionally promotes the notion of a fallen species steeped in original sin, and science, which insists that we are individually insignificant in an accidental and uncaring universe. The dolphin emphasises that at heart mankind is neither sinful nor insignificant. And that the world is unsafe only to the extent to which each of us believes it to be. The day ends, the dolphin has gone and Michael returns in the twilight to the cottage. The next morning he eagerly sets off again for the cove but then badly twists his ankle on climbing down the cliff. The dolphin uses this 'misfortune' to instruct that all experience is legitimate. No matter how it seems, there are no mistakes. The dolphin describes how illness and injury are not accidents but purposeful events. The very qualities we experience in ourselves - curiosity, creativity, spontaneity - are, firstly, expressions of consciousness; a consciousness that possesses, too, an inherent yearning for self affirmation. Whenever we discover this desire for self affirmation in ourselves, we call this yearning, this primary quality of

struggled to give their children the “best” in life—Dr. Kang’s mother could not read and her father taught her math while they drove around in his taxicab—Dr. Kang argues that often the simplest “benefits” we give our children are the most valuable. By trusting our deepest intuitions about what is best for our kids, we will in turn allow them to develop key dolphin traits to enable them to thrive in an increasingly complex world: adaptability, community-mindedness, creativity, and critical thinking. Life is a journey through ever-changing waters, and dolphin parents know that the most valuable help we can give our children is to assist them in developing their own inner compass. Combining irrefutable science with unforgettable real-life stories, The Dolphin Way walks readers through Dr. Kang’s four-part method for cultivating self-motivation. The book makes a powerful case that we are not forced to choose between being permissive or controlling. The third option—the option that will prepare our kids for success in a future that will require adaptability—is the dolphin way.

The adventure of Starship Colonial continues in this second book of 'The Storyteller' series. The Colonials explore new worlds searching for a new Earth, influencing and benefiting from every civilization that they encounter. Some remain behind to inhabit them, making for a wider, modern-style colonization. The most visible trace of the book is the interaction with very powerful beings, those who decide the fate of the Universe. A stronger plot of the story relates to people's behavior, being aliens or not, the specific way in which they react in various circumstances, always learning from their experience. The Captain, Cathleen, takes her share of the action; she fails and succeeds throughout her adventures the way normal people do, and she learns to tame her emotions and instincts, to become more pragmatic, to cope with tougher, more demanding situations. She applies everything to her life, both on Starship Colonial and on Earth, and her achievements exceed her wildest expectations. However, her achievements are irrelevant if she does not fulfill the mission assigned to her by the people of Earth. Is her determination strong enough to fulfill it now, when she has everything she ever wanted? Jack remains an interesting, puzzling character throughout the book, influencing unknowingly the life of many, accomplishing everything with the innocence of a child. More characters emerge and develop from among the crew and colonists, and from the people of the worlds they encounter. Throughout the book, and throughout this whole series, there is a hidden, consistent trace of liberation from ignorant stereotypes, cold prejudices, predetermined norms, and irrelevant ideals. As opposed to real life where the great majority of people live the way it is taught, some of the characters succeed in opening their eyes, grasping this way and understanding a wider truth. And yet at times bondage defeats freedom and they have to accept it helplessly, which makes for the credible, real,

The author's search for healing takes her on an excursion to exotic places—a tropical island, the frozen North, a Turkish harem. The mystery of such scenes and some puzzling dreams lead her to a spiritually attuned psychologist who practices past-life regression. A lovely dolphin spirit guide accompanies her on her journey, while words of wisdom from an inspirational inner voice help guide her way. This true story reads like a diary, flows like fiction. "A brilliant look into the intuitive mind of a woman longing for connection, understanding and ultimately, love. Raw, honest and from the heart." -

Susan Mushkin, educator, writer, editor "Dancing with the Dolphin is a delightful read. Very few writers have the ability to make an inner journey as compelling as an action-adventure story, but Kathy Schmidt accomplished that in this fast-paced, fun read through an incredible story that is both earthy and transcendental. Highly recommended!" - Elizabeth Anderson, English teacher Sarah-Jane and her two cousins try to uncover the identity of the mysterious old woman who makes the sock monkeys sold at the local craft store.

How to help—and how not to hinder—your teenage daughter’s healthy development as she prepares to step into her own circle of power. Today’s teen girls face pressures such as an increase in mental health concerns, mounting demands to be both beautiful and successful, and addiction to social media and the approval of others, all of which can result in a damaging decline in personal satisfaction and self-esteem. Rooted, Resilient, and Ready explores how today's teen girl assembles her identity through the interweaving of genetics, family, and friends, and the masks she may feel she needs to wear to be accepted, such as the super girl, the invisible girl, or the cool girl. The book counters the negative cultural messages and potential for disordered eating that affect a teen's body image and guides parents through Lindsay Sealey's three-part approach to a happier, healthier teen: food, fitness, fun. Balancing research with practical advice and interviews, Sealey encourages parents to nurture the process of their teen’s development and guide their teen girls even though they may often feel out of step with them.

Journeying with teen girls from lost and let-down to fierce and fearless, Rooted, Resilient, and Ready gives parents the tools to prepare their daughters to step into their power and potential, choosing progress over perfection,
