Let's face it—fixing and flipping houses is sexy. Who doesn't love the idea of buying a rundown, mold-infested shack and transforming it into someone's dream home for massive profits? Reality TV shows make it look so easy. A little paint here, some new kitchen cabinets there, and presto! The house is sold for big bucks and everyone lives happily ever after. If only it were that simple. Fixing and flipping houses is a business. You'll learn about each of the boxes: Acquisition—How to find and buy a profitable real estate deal. Rehabbing—How to systematically remodel a house and how not to underimprove, or overimprove, your property. Sales—How to sell your flip for the highest possible price in the shortest possible time. Secrets of the Millionaire Mind reveals the missing link between wanting success and achieving it! Have you ever wondered why some people seem to get rich easily, while others are destined for a life of financial struggle? Is the difference found in their education, intelligence, skills, timing, work habits, contacts, luck, or their choice of jobs, businesses, or investments? The shocking answer is: None of the above! In his groundbreaking Secrets of the Millionaire Mind, T. Harv Eker states: "Give me five minutes, and I can predict your financial future for the rest of your life!" Eker does this by identifying your "money and success blueprint." We all have a personal money blueprint ingrained in our subconscious minds, and it is this blueprint, more than anything, that will determine our financial lives. You can know everything about marketing, sales, negotiations, stocks, real estate, and the world of finance, but if your money blueprint is not set for a high level of success, you will never have a lot of money—and if somehow you do, you will most likely lose it! The good news is that now you can actually reset your money blueprint to create natural and automatic success. Secrets of the Millionaire Mind is two books in one. Part I explains how your money blueprint works. Through Eker's rare combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your financial destiny. You will also learn how to identify your own money blueprint and "revise" it to not only create success but, more important, to keep and continually grow it. In Part II you will be introduced to seventeen "Wealth Files," which describe exactly how rich people think and act differently than most poor and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate wealth. If you are not doing as well financially as you would like, you will have to change your money blueprint. Unfortunately your current money

blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that's exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it's simple. If you think like rich people think and do what rich people do, chances are you'll get rich too!

Having grown up in a small town of five to six thousand residents, I totally appreciate life's simplicities. This work was created to simplify what most people would complicate: a house renovation with the goal of flipping. To be honest, real estate is a very complicated field with multiple sub-industries that do not necessarily correlate. Yet the home renovation and house flipping industry has, in recent times, gotten the general population excited about real estate investing. I like to call it the rebranding of an industry. House flipping has a silver lining so rarely mentioned that many active flippers do not fully understand the advantages until putting in several years of work. This is because the benefits of flipping are almost always seen as huge profit margins. Big profits are absolutely obtainable, but they are actually not the best benefit nor reason to start a house flipping business. The key to expanding any business is leverage. Flipping homes consistently helps you gain experience. That experience can then be used as a bargaining tool with lending institutions to allow you to leverage, or get financing, for larger and larger sums of money. Going into house flipping to make vast profits is not a strategy that fits the business model of 2020 and beyond. While liquidity (cash on hand) expedites one's ability to acquire properties, the access to leverage allows one to buy larger, more valuable and usually more profitable assets. For example, if you could put up \$100,000 of your cash and gain control

of \$1 million worth of properties to renovate, you could end up with a much bigger check to deposit. The goal of any business is to first understand its industry and then use that knowledge to create a system of processes. If the blood of a business is money, the heart of a business is its systems. One cannot function properly without the other. In the following pages, I will teach you a method for flipping houses that will simplify the way you think about this industry. I will also teach you system design techniques that will place you years ahead of most of your competition. This short book is designed to obliterate your fears and misconceptions of the house-flipping process. It is also a blueprint for checks and balances that you can even use to flip remotely. Thank you for allowing me to share this information with you. This guide is the first of many to come.

qualities of today's so-called celebrity CEOs—charisma, virtuoso communication skills, and a confident management style. But what really matters when you run an organization? What is the hallmark of exceptional CEO performance? Quite simply, it is the returns for the shareholders of that company over the long term. In this refreshing, counterintuitive book, author Will Thorndike brings to bear the analytical wisdom of a successful career in investing, closely evaluating the performance of companies and their leaders. You will meet eight individualistic CEOs whose firms' average returns outperformed the S&P 500 by a factor of twenty—in other words, an investment of \$10,000 with each of these CEOs, on average, would have been worth over \$1.5 million twenty-five years later. You may not know all their names, but you will recognize their companies: General Cinema, Ralston Purina, The Washington Post Company, Berkshire Hathaway, General Dynamics, Capital Cities Broadcasting, TCI, and Teledyne. In *The Outsiders*, you'll learn the traits and methods—striking for their consistency and relentless rationality—that helped these unique leaders achieve such exceptional performance. Humble, unassuming, and often frugal, these “outsiders” shunned Wall Street and the press, and shied away from the hottest new management trends. Instead, they shared specific traits that put them and the companies they led on winning trajectories: a laser-sharp focus on per share value as opposed to

earnings or sales growth; an exceptional talent for allocating capital and human resources; and the belief that cash flow, not reported earnings, determines a company's long-term value. Drawing on years of research and experience, Thorndike tells eye-opening stories, extracting lessons and revealing a compelling alternative model for anyone interested in leading a company or investing in one—and reaping extraordinary returns.

"This book is a message from autistic people to their parents, friends, teachers, coworkers and doctors showing what life is like on the spectrum. It's also my love letter to autistic people. For too long, we have been forced to navigate a world where all the road signs are written in another language." With a reporter's eye and an insider's perspective, Eric Garcia shows what it's like to be autistic across America. Garcia began writing about autism because he was frustrated by the media's coverage of it; the myths that the disorder is caused by vaccines, the narrow portrayals of autistic people as white men working in Silicon Valley. His own life as an autistic person didn't look anything like that. He is Latino, a graduate of the University of North Carolina, and works as a journalist covering politics in Washington D.C. Garcia realized he needed to put into writing what so many autistic people have been saying for years; autism is a part of their identity, they don't need to be fixed. In *We're Not Broken*, Garcia uses his own life as a springboard to discuss the social and policy gaps that exist in supporting those on the spectrum. From education to healthcare, he explores how autistic people wrestle with systems

that were not built with them in mind. At the same time, he shares the experiences of all types of autistic people, from those with higher support needs, to autistic people of color, to those in the LGBTQ community. In doing so, Garcia gives his community a platform to articulate their own needs, rather than having others speak for them, which has been the standard for far too long.
