The Grill is the club most difficult of access in the world. To be placed on its rolls distinguishes the new member as greatly as though he had received a vacant Garter or had been caricatured in "Vanity Fair." Men who belong to the Grill Club never mention that fact. If you were to ask one of them which clubs he frequents, he will name all save that particular one. He is afraid if he told you he belonged to the Grill, that it would sound like boasting. The Grill Club dates back to the days when Shakespeare's Theatre stood on the present site of the "Times" office. It has a golden Grill which Charles the Second presented to the Club, and the original manuscript of "Tom and Jerry in London," which was bequeathed to it by Pierce Egan himself. The members, when they write letters at the Club, still use sand to blot the ink. The Grill enjoys the distinction of having blackballed, without political prejudice, a Prime Minister of each party. At the same sitting at which one of these fell, it elected, on account of his brogue and his bulls, Quiller, Q. C., who was then a penniless barrister. When Paul Preval, the French artist who came to London by royal command to paint a portrait of the Prince of Wales, was made an honorary member—only foreigners may be honorary members—he said, as he signed his first wine card, "I would rather see my name on that, than on a picture in the Louvre."

The Fog is a powerful, classic horror novel from James Herbert, author of The Rats. It begins with a crack that rips the earth apart. Peaceful village life shattered. But the disaster is just the beginning. Out of the bottomless pit creeps a malevolent fog. Spreading through the air it leaves a deadly, horrifying trail, destined to devastate the lives of all those it encounters . . .

No small number of books laud and record the heroic actions of those at war. But the peacekeepers? Who tells their stories? At the beginning of the 1990s, the world exited the cold war and entered an era of great promise for peace and security. Guided by an invigorated United Nations, the international community set out to end conflicts that had flared into vicious civil wars and to unconditionally champion human rights and hold abusers responsible. The stage seemed set for greatness. Today that optimism is shattered. The failure of international engagement in conflict areas ranging from Afghanistan to Congo and Lebanon to Kosovo has turned believers into skeptics. The Fog of Peace is a firsthand reckoning by Jean-Marie Guéhenno, the man who led UN peacekeeping efforts for eight years and has been at the center of all the major crises since the beginning of the 21st century. Guéhenno grapples with the distance between the international community's promise to protect and the reality that our noble aspirations may be beyond our

grasp. The author illustrates with personal, concrete examples—from the crises in Afghanistan, Iraq, Congo, Sudan, Darfur, Kosovo, Ivory Coast, Georgia, Lebanon, Haiti, and Syria—the need to accept imperfect outcomes and compromises. He argues that nothing is more damaging than excessive ambition followed by precipitous retrenchment. We can indeed save many thousands of lives, but we need to calibrate our ambitions and stay the course.

Dr. Poppy Stamford, sister of the man who would introduce John Watson to Sherlock Holmes, teams up once again with Sherlock in a new adventure. Working under the eerie cloak of one of the most devastating fogs in London's history, the case takes Poppy and Sherlock from the most sordid neighborhoods of dirty, old Victorian London to the lofty halls of the Privy Council.
