Here is how "The Gardening Girl", Joy Bloom, the author who is writing these journals & notebooks for Infinitely Publishing is using these types of garden journals to get the maximum out of her garden experience. "Everywhere that I go to my garden, my gardening planner goes with me. A tiny thing, but powerful! Another advantage of a small log book like this is that it fits into any of my pockets." Instead of writing out long, complicated & boring gardening stories into a so-called diary on a daily basis, you just use the easier version of a prompted log book and planner which includes prompts to organize your gardening experience and outcome. Things like temperature, light, water supply, prices of supplies, and so on. It is a less structured & more creative and fun process. Once you start achieving your daily planning and outcome logging goals then you can replicate the entire process all over again if you slip back into lazy and unproductive mode. Customers of Infinitely are applying a daily gardening planning ritual to become a better, more experienced, excited, resourceful, inspired & creative gardener. They are recording their successes in a gardening planner just like this one. They also are developing a passion for keeping a daily journal, notebook, diary, blank cookbooks, calendar & more that goes hand in hand with this beautiful planner or for other related lifestyle goals, hobbies & activities.
