Books can guide what we do and our lives. Many of us love books while reading them and maybe they will echo with us a few weeks after but 2 years later we cant remember if we have read it or not. And thats a shame. We remember that at that time, the book meant a lot to us. Why is it that 2 years later we have forgotten everything? Thats not good. This summary is taken from the most important themes of the original book. Most people dont like books. People just want to know what the book says they have to do. If you trust the source you dont need the arguments. So much of a book is arguing its points, but often you dont need the argument if you trust the source you can just get the point. This summary takes the effort to distill the blahs into themes for the people who are just not going to read the whole book. All this information is in the original book.

Once there was an ambitious young man. He desperately wanted to be successful and make a fortune. As a twentysomething, he thought he had a lot of potential. He started various businesses, but all failed. He eventually moved back home to live in the basement of his parent's home...for the third time. It was there where he met his epiphany. A friend of his dad visited, saw him, and empathically gave him an advice that he never really considered before: -Rich people think differently. Think rich to get rich.- Fed up with his failures, he put his all in studying how rich people think. He realized that, indeed, the upscale think differently from the middle and lower class. His eyes were opened to the thoughts and beliefs that had been unconsciously holding him back, negating his best efforts. He put his learnings to action. Being into health and exercise, he opened one of the pioneer retail fitness stores in North America. Thinking more long-term, he did not get distracted by short-term success and setbacks. The business succeeded. He sold half of the company shares for \$1,600,000. To think he started the company with just \$2,000...and a change in his way of thinking. He then began business consultancy, starting with a couple of his friends, until he opened a business school and gave seminars all over the continent. His business ventures and investments continue to yield good fruits. People say he has the Midas Touch, turning everything he touches into gold. But he believes his Midas Touch is his success-oriented financial blueprint. This man is T. Harv Eker, and this is his success story. He compiled all his learnings into a 210-page book, and this book that you are holding now provides you a summary, with the most important texts (wealth files, declarations) unabridged from Harv's book. Part One outlines 4 specific steps on how to review and revise your money blueprint. Part Two offers 17 pillars that can spur financial success. Read on and may this condensed version of Harv's book guide you toward financial freedom and abundance.

This omnibus contains four bestsellers: "As a Man Thinketh, The Science of Getting Rich, The Way to Wealth" and "Think and Grow Rich."
