From the million-copy bestselling author of *The 48 Laws of Power* Robert Greene is a master guide for millions of readers, distilling ancient wisdom and philosophy into essential texts for seekers of power, understanding and mastery. Now he turns to the most important subject of all - understanding people's drives and motivations, even when they are unconscious of them themselves. We are social animals. Our very lives depend on our relationships with people. Knowing why people do what they do is the most important tool we can possess, without which our other talents can only take us so far. Drawing from the ideas and examples of Pericles, Queen Elizabeth I, Martin Luther King Jr, and many others, Greene teaches us how to detach ourselves from our own emotions and master self-control, how to develop the empathy that leads to insight, how to look behind people's masks, and how to resist conformity to develop your singular sense of purpose. Whether at work, in relationships, or in shaping the world around you, *The Laws of Human Nature* offers brilliant tactics for success, self-improvement, and self-defence.

The Pakistan army is poised for perpetual conflict with India which it cannot win militarily or politically. What explains Pakistan's persistent revisionism despite increasing costs and decreasing likelihood of success? This book argues that an understanding of the army's strategic culture explains its willingness to fight to the end. Established in the wake of the Indo-Pakistani War of 1947-8 by the Australian army officer Major-General Walter Cawthorne, then Deputy Chief of Staff in the Pakistan Army, Pakistan's Inter-Services Intelligence (ISI) for years remained an under-developed and obscure agency. In 1979, the organisation's growing importance was felt during the Soviet war in Afghanistan, as it worked hand in glove with the CIA to support the mujahideen resistance, but its activities received little coverage in news media. Since that time, the ISI has projected its influence across the region in 1988 its involvement in Indian Kashmir came under increasing scrutiny, and by 1995 its mentoring of what became the Afghan Taliban was well attested. But it was the organisation's alleged links with Al Qaeda and the discovery of Osama bin Laden in

Abbottabad, at the heart of Pakistan's military zone, that really threw it under the spotlight. These controversies and many more have dogged the ISI, including its role in Pakistan's testing of a nuclear weapon in 1998 and its links with A.Q. Khan. Offering fresh insights into the ISI as a domestic and international actor based on intimate knowledge of its inner workings and key individuals, this startlingly original book uncovers the hitherto shady world of Pakistan's secret service.

'The imagination has its sanctuaries, too.' High up in the Hindu Kush, between the ancient pagan Kalash people and the new medievalists of the Taliban, a charismatic young Spaniard, Jordi Magraner, made his home, mastering the local languages and customs before meeting his death in the most mysterious way. In this magisterial book, Gabi Martínez sets off in Jordi's footsteps to the land of the giants in order to try to solve the riddle of this murder and of Jordi's life. Jordi Magraner was a brilliant student of the natural world, whose lab was the ravine and the scarp and the tent. His observational investigations led him to places where the legendary barmanu had been sighted, and he began to develop a thesis about the life of the wild man. His passion for pursuit and discovery took him onto ever more perilous terrain in the Pakistani-Afghan borderlands. And, one by one, Jordi turned his back on the Europeans who sought to assist him, preferring instead to entrust his safety to an Afghan youth fleeing the Taliban, and to a wondrous working dog called Fjord. Jordi sought other rewards, and followed a winding, rocky path, down which Gabi Martínez resourcefully tracks him on this enthralling journey of detection and adventure in the Himalayas — where the truth is never as clear and pristine as the majestic mountains and the fast-flowing streams. PRAISE FOR GABI MARTINEZ

'Enthralling from beginning to end, In the Land of Giants is an inspired telling of an uncommon story.' The West Australian 'Martinez ably conjures the scent of juniper, the taste of black, salty tea and the sight of a 40-donkey convoy heading to Panjsh.' The Spectator From the managing editor of "The Washington Post" comes this news-breaking account of the CIA's involvement in the covert wars in Afghanistan that fueled Islamic militancy and gave rise to bin Laden's al Qaeda.

Le 2 mai 2011, l'élimination d'Oussama ben Laden dans une zone contrôlée par l'armée pakistanaise médiatise les débats sur le rapport ambigu de l'ISI au terrorisme international. Le premier service de renseignement du pays focalise les accusations de double jeu. C'est un organe puissant qui est mis en lumière, pour certains un véritable « État dans l'État ». Depuis sa création en 1948, l'Inter-Services Intelligence évolue dans un environnement géopolitique instable. Engagé dans une guerre d'influence avec l'Inde sur plusieurs fronts (Cachemire, Pendjab, également Népal et Bangladesh), il est à l'oeuvre sur tous les points chauds de la région. En 1979, il devient un acteur central du « grand jeu » afghan, soutien des moudjahidine en lutte contre l'occupant soviétique, et concentre dès lors de multiples prérogatives. Service civil en réalité inféodé à l'armée, chargé du renseignement extérieur mais doté d'une branche « politique », l'ISI cultive le mélange des genres, dans un pays où rares sont les gouvernants qui quittent le pouvoir par la voie constitutionnelle. Impliqué dans des affaires de corruption et de trafics en tous genres, il est également soupçonné de manipulations électorales, de participations aux coups d'État militaires et d'assassinats politiques. Ce livre dresse un bilan complet et réaliste de soixante-dix ans de renseignement, étayé par de nombreuses informations de première main. Politologue et historien, Hein Kiessling a vécu au Pakistan de 1989 à 2002 et a rencontré plusieurs membres de l'élite politique et militaire. Ses voyages en Asie centrale, en Inde, en Chine et dans les autres pays de la région lui ont permis d'approfondir ses investigations. Traduction : Hugues Van Besien

Spying, the “world’s second oldest profession,” is hardly limited to the traditional great power countries. Intelligence Elsewhere, nevertheless, is the first scholarly volume to deal exclusively with the comparative study of national intelligence outside of the anglosphere and European mainstream. Past studies of intelligence and counterintelligence have tended to focus on countries such as the United States, Great Britain, and Russia, as well as, to a lesser extent, Canada, Australia, France, and Germany. This volume examines the deep historical and cultural origins of intelligence in several countries of critical importance today: India, China, the Arab world, and indeed, Russia, the latter examined from a fresh perspective. The authors then delve into modern intelligence practice in countries with organizations significantly different from the mainstream: Iran, Pakistan, Japan, Finland, Sweden, Indonesia, Argentina, and Ghana. With contributions by leading intelligence experts for each country, the chapters give the reader important insights into intelligence culture, current practice, and security sector reform. As the world morphs into an increasingly multi-polar system, it is more important than ever to understand the national intelligence systems of rising powers and regional powers that differ significantly from those of the US, its NATO allies, and its traditional opponents. This fascinating book shines new light into intelligence practices in regions that, until now, have eluded our understanding.

A journalist with deep knowledge of the region provides “an enthralling and largely firsthand account of the war in Afghanistan” (Financial Times). Few reporters know as much about Afghanistan as Carlotta Gall. She was there in the 1990s after the Russians were driven out. She witnessed the early flourishing of radical Islam, imported from abroad, which caused so much local suffering. She was there right after 9/11, when US special forces helped the Northern Alliance drive the Taliban out of the north and then the south, fighting pitched battles and causing their enemies to flee underground and into Pakistan. Gall knows just how much this war has cost the Afghan people—and just how much damage can be traced to Pakistan and its duplicitous

government and intelligence forces. Combining searing personal accounts of battles and betrayals with moving portraits of the ordinary Afghans who were caught up in the conflict for more than a decade, *The Wrong Enemy* is a sweeping account of a war brought by American leaders against an enemy they barely understood and could not truly engage.

This is the autobiography of Abdul Salam Zaeef, a senior former member of the Taliban. His memoirs, translated from Pashto, are more than just a personal account of his extraordinary life. *My Life with the Taliban* offers a counter-narrative to the standard accounts of Afghanistan since 1979. Zaeef describes growing up in rural poverty in Kandahar province. Both of his parents died at an early age, and the Russian invasion of 1979 forced him to flee to Pakistan. He started fighting the jihad in 1983, during which time he was associated with many major figures in the anti-Soviet resistance, including the current Taliban head Mullah Mohammad Omar. After the war Zaeef returned to a quiet life in a small village in Kandahar, but chaos soon overwhelmed Afghanistan as factional fighting erupted after the Russians pulled out. Disgusted by the lawlessness that ensued, Zaeef was one among the former mujahidin who were closely involved in the discussions that led to the emergence of the Taliban, in 1994. Zaeef then details his Taliban career as civil servant and minister who negotiated with foreign oil companies as well as with Afghanistan's own resistance leader, Ahmed Shah Massoud. Zaeef was ambassador to Pakistan at the time of the 9/11 attacks, and his account discusses the strange "phoney war" period before the US-led intervention toppled the Taliban. In early 2002 Zaeef was handed over to American forces in Pakistan, notwithstanding his diplomatic status, and spent four and a half years in prison (including several years in Guantanamo) before being released without having been tried or charged with any offence. *My Life with the Taliban* offers a personal and privileged insight into the rural Pashtun village communities that are the Taliban's bedrock. It helps to explain what drives men like Zaeef to take up arms against the foreigners who are foolish enough to invade his homeland.

Pointing to the horizon where the sea and sky are joined, he says, 'It is only an illusion because they can't really meet, but isn't it beautiful, this union which isn't really there.' -- SAADAT HASAN MANTO Sometime in 2016, a series of dialogues took place which set out to find a meeting ground, even if only an illusion, between A.S. Dulat and Asad Durrani. One was a former chief of RAW, India's external intelligence agency, the other of ISI, its Pakistani counterpart. As they could not meet in their home countries, the conversations, guided by journalist Aditya Sinha, took place in cities like Istanbul, Bangkok and Kathmandu. On the table were subjects that have long haunted South Asia, flashpoints that take lives regularly. It was in all ways a deep dive into the politics of the subcontinent, as seen through the eyes of two spymasters. Among the subjects: Kashmir, and a missed opportunity for peace; Hafiz Saeed and 26/11; Kulbhushan Jadhav; surgical strikes; the deal for Osama bin Laden; how the US and Russia feature in the India-Pakistan relationship; and how terror undermines the two countries' attempts at talks. When the project was first mooted, General Durrani laughed and said nobody would believe it even if it was written as fiction. At a time of fraught relations, this unlikely dialogue between two former spy chiefs from opposite sides--a project that is the first of its kind--may well provide some answers.

This book is the first comprehensive study of Pakistan's Inter-Services Intelligence Directorate (ISI). The rise of Pakistan-backed religious extremist groups in Afghanistan, India, and Central Asia has focused international attention on Pakistan's premier intelligence organization and covert action advocate, the Inter-Services Intelligence Directorate or ISI. While ISI is regarded as one of the most powerful government agencies in Pakistan today, surprisingly little has been written about it from an academic perspective. This book addresses critical gaps in our understanding of this agency, including its domestic security mission, covert backing of the Afghan Taliban,

and its links to al-Qa'ida. Using primary source materials, including declassified intelligence and diplomatic reporting, press reports and memoirs, this book explores how ISI was transformed from a small, negligible counter intelligence outfit of the late-1940s into the national security behemoth of today with extensive responsibilities in domestic security, political interference and covert action. This study concludes that reforming or even eliminating ISI will be fundamental if Pakistan is to successfully transition from an army-run, national security state to a stable, democratic society that enjoys peaceful relations with its neighbours. This book will be of interest to students of intelligence studies, South Asian politics, foreign policy and international security in general.
