Digital media presents an array of interesting challenges adapting new modes of collaborative, online communication to traditional writing and literary practices at the practical and theoretical levels. For centuries, popular concepts of the modern author, regardless of genre, have emphasized writing as a solo exercise in human communication, while the act of reading remains associated with solitude and individual privacy. "The Community and the Algorithm: A Digital Interactive Poetics" explores important cultural changes in these relationships thanks to the rapid development of digital internet technologies allowing near-instantaneous, synchronous, multimedia interaction across the globe. The radical shift in how we author and consume media as an online, electronic transmission effectively resituates the writing process across the liberal arts as less a solitary act of individual enquiry and reflection, and more an ongoing, collaborative process of creative interaction within a multimedia environment or network. Contributions in this anthology demonstrate a robust history and equally diverse contemporary approach to multimedia interaction for literary and artistic ends. Central to all media formats, computation is explored throughout this volume to critically examine how algorithmic procedures in writing help bring forward many key concepts to building creative communities in a digital environment. Each chapter in this book accordingly introduces readers to various new collaborative experiments using a broad range of different digital media formats, including VR, Natural Language Generation (NLG), and metagaming tools. This book will appeal broadly to students, instructors, and independent artists working in the digital arts, while its emphasis on social interactivity will interest theorists and teachers working in theatre, social media, and cyberpsychology. Its secondary focus on computation and media programming as a site of artistic experimentation will also interest programmers and web designers at various professional levels.

This Handbook contains everything a participant needs for the course, guiding them through the sessions with plenty of space for notes. As media evolves with technological improvement, communication changes alongside it. In particular, storytelling and narrative structure have adapted to the new digital landscape, allowing creators to weave immersive and enticing experiences that captivate viewers. Highlighting a wide range of topics including promotion strategies, business models, and prosumers and influencers, this book is ideally designed for digital creators, advertisers, marketers, consumer analysts, media professionals, entrepreneurs, managers, executives, researchers, academicians, and students.

In this engaging and practical book Mark Pike and Thomas Lickona show how C.S. Lewis' wisdom for nurturing good character, and his much-loved Chronicles of Narnia, inspire us to virtue. Drawing upon the Judeo-Christian virtues of faith, hope and love and 'Narnian' virtues such as courage, integrity and wisdom, they present an approach to contemporary character education validated by recent research. An introduction to C.S. Lewis' thought on character and faith is followed by practical examples of how to use well-known passages from the Narnia novels as a stimulus for rich character development at home and in the classroom.

From the mid-90s to the present, television drama with religious content has come to reflect the growing cultural divide between white middle-America and concentrated urban elites. As author Charlotte E. Howell argues in this book, by 2016, television narratives of white Christianity had become entirely disconnected from the religion they were meant to represent. Programming labeled 'family-friendly' became a euphemism for white, middlebrow America, and developing audience niches became increasingly significant to serial dramatic television. Utilizing original case studies and interviews, Divine Programming investigates the development, writing, producing, marketing, and positioning of key series including 7th Heaven, Friday Night Lights, Rectify, Supernatural, Jane the Virgin, Daredevil, and Preacher. As this book shows, there has historically been a deep ambivalence among television production cultures regarding religion and Christianity more specifically. It illustrates how middle-American television audiences lost significance within the Hollywood television industry and how this in turn has informed and continues to inform television programming on a larger scale. In recent years, upscale audience niches have aligned with the perceived tastes of affluent, educated, multicultural, and-importantly-secular elites. As a result, the televised representation of white Christianity had to be othered, and shifted into the unreality of fantastic genres to appeal to niche audiences. To examine this effect, Howell looks at religious representation through four approaches - establishment, distancing, displacement, and use - and looks at series across a variety of genres and outlets in order to provide varied analyses of each theme.

What does the white evangelical want? In our moment of crisis and rage, this question is everywhere. Scholars ask from where its desires emerged, pundits divine its political future, and the public asks how we lapsed into social chaos. For their part, white evangelicals feel misunderstood while failing to see the direction of their ambitions. We must interrogate its aims not only through its past or current trends but also through the various fantasies by which it rejects and enlivens reality. Against traces five zones of opposition: future, knowledge, sexuality, reality, and society. If climate change is the greatest threat civilization has ever faced, then a faith aiding collapse must face analysis. If it swims in assured forgiveness, it feels no shame for its sins against humanity. If it wants a king, it threatens democracy. If it veils xenophobia, it shall be ever more cruel. In a critical and accessible history of odd ideas, DeLay chronicles the past and sketches its troubling

future. It might die, but what's certain is that a faith built on nostalgia and supremacy won't moderate. We live in dangerous times, so let us consider its justifications, turmoil, appetite, and catastrophe.

Algorithmic recommender systems, deployed by media companies to suggest content based on users' viewing histories, have inspired hopes for personalized, curated media but also dire warnings of filter bubbles and media homogeneity.

Curiously, both proponents and detractors assume that recommender systems for choosing films and series are novel, effective, and widely used. Scrutinizing the world's most subscribed streaming service, Netflix, this book challenges that consensus. Investigating real-life users, marketing rhetoric, technical processes, business models, and historical antecedents, Mattias Frey demonstrates that these choice aids are neither as revolutionary nor as alarming as their celebrants and critics maintain—and neither as trusted nor as widely used. Netflix Recommends brings to light the constellations of sources that real viewers use to choose films and series in the digital age and argues that although some lament AI's hostile takeover of humanistic cultures, the thirst for filters, curators, and critics is stronger than ever. You have been lied to! Have you been deceived? Through a nationwide survey and in-depth discussion groups, Nancy and Dannah have listened carefully to the heart of your generation. And here are some things they've heard: "I know God should be the only thing that satisfies, but if it could be Him and my friends, then I could be happy." "It seems like I have been struggling with depression forever. I always feel like I am not good enough." "I tell myself that I don't really listen to the song lyrics, but once I hear a song a few times and start thinking about what they're saying I realize that it's too late. It's already stuck in my head." "For me, the whole wife and mom thing is overrated. It isn't cool to want a husband and a family." Maybe you can identify. Trying to listen to the right voices can be difficult. This book has been written by friends who will help you find the Truth. Maybe your heart is telling you that some things in your life are way off course. Certain habits and relationships have left you confused and lonely. This is not the way it's supposed to be. In this book, Nancy and Dannah expose 25 of the lies most commonly believed by your generation. They share real-life accounts from some of the young women they interviewed, along with honest stories about how they've overcome lies they themselves believed. They get down in the trenches of the battle with you. Best of all, they'll show you how to be set free by the Truth.

Outreach magazine 2018 Resource of the Year—Counseling & Relationships! Unwanted: How Sexual Brokenness Reveals Our Way to Healing is a ground-breaking resource that explores the "why" behind self-destructive sexual choices. The book is based on research from over 3,800 men and women seeking freedom from unwanted sexual behavior, be that the use of pornography, an affair, or buying sex. Jay Stringer's (M.Div, MA, LMHC) original research

found that unwanted sexual behavior can be both shaped by and predicted based on the parts of our story—past and present—that remain unaddressed. When we pay attention to our unwanted sexual desires and identify the unique reasons that trigger them, the path of healing is revealed. Although many of us feel ashamed and unwanted after years of sexual brokenness, the book invites the reader to see that behavior as the very location God can most powerfully work in their lives. Counselors, pastors, and accountability partners of those who experience sexual shame will also find in this book the deep spiritual and psychological guidance they need to effectively minister to the sexually broken around them. Simplified Chinese edition of 12 Rules for Life: An Antidote to Chaos

How would you describe the love of God? Throughout the Gospel accounts, Jesus engaged women differently than He did men. Sometimes the difference is subtle. Sometimes it is stark. Always it is profound. Sometimes the love He offers them is gentle. Sometimes it is fierce. Always it is powerful. Sometimes that love feels like a warm embrace. Sometimes it's more like a piercing jab. Always, it changes everything. Women today long to experience the same sort of life-changing love that Jesus lavished on His followers 2000 years ago. We still want to be completely seen and known and valued and set free—as painful as that process might sometimes be. Pierced and Embraced digs deeply into seven encounters that Jesus had with a wide variety of women in the Gospels to show how His love can be equally transformative in our lives today. It mixes attentive Scriptural engagement with personal narrative and relevant application, making the content fresh, accessible, engaging, and practical. You will: Understand the unique and powerful and complex ways in which Jesus loves the women of the gospels. Recognize your own longings for love and the (often inadequate) ways we seek to satisfy them. Discover how to live in the fullness of Jesus' love for you. Includes study/reflection questions at the end of each chapter, inviting women to dig into the passages for themselves. Winner of the ECPA's Top Shelf Cover Award 2017

The SpiritLed Woman Bible was developed for the woman in passionate pursuit of God.

Gospel ministry is much more than simply evangelism. It is about shaping the whole of our church life and activities by the content of and imperatives of the gospel. It is about ensuring that our church or group is motivated by and focused on the gospel, as opposed to our traditions, or the scores of other worthy causes and needs that could fill our time. The principles contained in this workbook are an attempt to articulate what a true gospel ministry might look like. They are principles that can be worked out in a range of situations, from Sunday school or youth work to a whole congregation. This workbook is not a recipe for success, but is rather designed to help clarify our thinking about how to be more faithful to God's saving message-not only in what we say, but in how we live our lives as the people of God. Steve Timmis and Dr Tim Chester have years of experience behind them in churches large and small. Currently, they are part of the leadership team of The Crowded House-a church planting initiative which started in Sheffield, UK.

upgrade transitive verb 1) to raise the quality of; 2) to replace something with a more useful version or alternative DO YOU WANT SOMETHING BETTER THAN WHAT YOU HAVE? In a relatively short amount of time, you can learn to upgrade every area of your life. But here's the thing about upgrades: It's not always about going from bad to good. It's usually about going from good to even better. We understand this in our daily lives. When cell phones came out, it was revolutionary. But when smartphones came out ... well, we all had to have one. We upgraded. If you're flying somewhere, and they offer a free upgrade to first class, do you refuse? No way! You'll still arrive at your destination at the same time, but you'll have traveled in style. One time, my sister and her husband gave my wife and me one of those fancy coffee machines that makes cappuccino, espresso, and a dozen other drinks. I threw my old one-cup coffee machine away. Why? Because an upgrade is always better. What if you could upgrade every aspect of your life? Your thoughts, words, actions, family, work, friends, and even yourself? I'm here to tell you that you can. Don't settle for second-rate. Ditch the landline, fly first class, and drink great coffee! ???? Whatever shape your life is in, it can get better. And you can have it all for the low, low price of nothing. It's free. There's just one catch. You have to give up the old one. Just like you have to give up your seat in coach to fly first class, you have to leave where you're at now to move up to a better place. The good news is that it's not complicated. The steps are simple, proven, and straight from an ancient book of wisdom. I am just going to help you walk through them so you can make that glorious exchange and start enjoying the perks
