

## The Omega Project Steve Alten

Once again, in this follow-up to *Domain*, Steve Alten has ingeniously woven the mysteries of the past into a gripping and unforgettable vision of the future. Mayan legend tells of the Hero Twins, destined to confront the Lords of the Underworld and rescue their long-lost father from the realm of darkness. Merely a two-thousand-year-old myth--or a prophecy of an apocalyptic battle for the soul of mankind? On December 21, 2012, a date long foretold by the Mayan calendar, Michael Gabriel disappeared from the face of the Earth, after saving the entire planet from thermonuclear destruction. Less than a year later, his bereaved wife gave birth to twin sons, both possessed of extraordinary mental and physical gifts. Are these at last the Hero Twins? And yet, as crucial as the twins are, they are not unique. A third child was born on the same fateful day, blessed--or cursed--with the same superhuman talent and potential. Exposed to the uglier side of existence, Lilitu will travel down a darker path that leads to eon-distant Xibalba--the Mayan version of hell. An epic battle of good versus evil will begin . . . and the final fate of the human race will be revealed. A wonderful story that highlights the virtue of "courage." An An the Kaola is scared. There has to be a monster hiding under his bed; maybe in his closet. Claws, jaws, gnarling teeth, big eyes... and he is coming to get An An the Kaola. Mommy says she is going to get rid of the monster for him. But all he really needs is the word "courage." Includes one book and one CD read in Mandarin. In Traditional Chinese. Annotation copyright Tsai Fong Books, Inc. Distributed by Tsai Fong Books, Inc.

It was the apex predator of all time, the most fearsome creature that ever lived -- a 70-foot, 70,000 pound Great White shark. Hundreds of 7-inch serrated teeth filled jaws that could swallow an elephant whole. It could sense its prey miles away, inhaling its scent as it registered the beat of its fluttering heart, and if you ever came close enough to see the monster...it was already too late. Eighteen years have passed since Jonas Taylor last crossed paths with carcharodon Megalodon. Now a middle-aged father of two, he is overwhelmed by mountains of bills and the daily strife of raising a family. But life is about to change. A Hollywood television producer wants Jonas to join his new survival series: Daredevils. For the next six weeks, two teams of crazy daredevils on a South Pacific Ocean voyage will try to outperform one another in front of the cameras. Jonas needs the money, and the job of doing the color commentary seems easy enough. But behind the scenes, someone else is pulling the strings. And before it's over, Jonas will again come face to face with the most dangerous creatures ever to stalk the Earth.

For the last 70 years we've been lied to. What began as a covert black ops program to keep reverse-engineered ET technologies from the Soviets during the Cold War has become a compartmentalized criminal transnational enterprise illegally kept from presidents, world leaders, and congress. Dr. Steven M. Greer, the world's foremost authority on UFOs and ETS has provided briefing materials for sitting U.S. Presidents, members of congress, directors of the CIA and DIA, world leaders, and members of the Joint Chiefs. As founder and director of CSETI (Center for the Study of Extraterrestrial Intelligence) he has pioneered CE-5 protocols that have enabled thousands of civilians to engage in peaceful contact with our interstellar visitors. Now, he and hundreds of military personnel, scientists, and civilians who had top-secret access to Unacknowledged Special Access Projects (USAPs) have come forward with startling revelations about the greatest cover-up in human history in an attempt to prevent a false flag event in the works that - if unleashed - would make 9/11 look like a fender bender. Holding nothing back, Dr. Greer and his witnesses provide startling details about this unacknowledged chapter in history, energy and anti-gravitic systems, lunar bases, and black shelved technologies (purposely denied patents) that can transform our world...if we force their introduction into the free market.

Seven years ago and seven miles below the surface of the Pacific Ocean, Dr. Jonas Taylor encountered something that changed the course of his life. Once a Navy deep-sea submersible pilot, now a marine paleontologist, Taylor is convinced that a remnant population of Carcharodon megalodon—prehistoric sharks growing up to 70 feet long, that subsisted on whales—lurks at the bottom of the Mariana Trench. Offered the opportunity to return to those crushing depths in search of the Megs, Taylor leaps at the chance...but his quest for scientific knowledge (and personal vindication) becomes a desperate fight for survival, when the most vicious predator the earth has ever known is freed to once again hunt the surface.
