Contributors: Henrietta Poirier, Editor Harvey Bremner, Photographer "Love us. Hate us. Read us." That was the slogan of The Trentonian, the scrappy underdog tabloid newspaper from Trenton, N.J. The newspaper combined a mix of hard-hitting news, steamy sex stories and solid sports to produce massive sales in competitive market. The paper represented the heart and soul of the city. It was truly "No. 1 in the hearts of the people." In 1998, The Trentonian took a tragic turn -- a turn in which the paper likely will never recover. It ditched its core readers. It turned its back on Trenton. TABLOID FROM HELL chronicles the

rise and fall of a beloved newspaper. It details how a once relevant newspaper turned irrelevant. How a newspaper everybody talked about transformed into a dull, lifeless and awkward product on the decline. The Trentonian lost its voice. So did its readers.

Oprah Winfrey is an unprecedented and important cultural phenomenon. This book aims to understand the reasons for her spectacular success and visibility. Her image is iconic: Oprah Winfrey has built an empire on her ability to connect with and inspire her audience. No longer just a name, "Oprah" has become a brand representing the talk show host's unique style of self-actualizing individualism. The cultural and economic power wielded by Winfrey merits critical evaluation. The contributors to The Oprah Phenomenon examine the origins of her public image and its substantial influence on politics, entertainment, and popular opinion. Contributors address praise from her many supporters and weigh criticisms from her detractors. Winfrey's ability to create a feeling of intimacy with her audience has long been cited as one of the foundations of her popularity. She has repeatedly made national headlines by engaging and informing her audience with respect to her personal relationships to race, gender, feminism, and New Age culture. The Oprah Phenomenon explores these relationships in detail. At the root of Winfrey's message to her vast audience is her assertion that anyone can be a success regardless of background or upbringing. The contributors scrutinize this message: What does this success entail? Is the motivation behind self-actualization, in fact, merely the hope of replicating Winfrey's purchasing power? Is it just a prescription to buy the products she recommends and heed the advice of people she admires, or is it a lifestyle change of meaningful spiritual benefit? The Oprah Phenomenon asks these and many other difficult questions to promote a greater understanding of Winfrey's influence on the American consciousness.

Miles From Home is a deeply personal story and a narrative of the American dream. Born to a devoted mother and severely alcoholic father, Phillip Lee Woods was sent as an 11 year old to live with a taciturn grandfather on a lonely farm in Indiana's countryside. Doing backbreaking chores from daybreak to dark and walking a long, deserted road to catch the bus, Woods' school years were marked by toil, embarrassment about his circumstances, and a yearning to reunite with his mother and sister. Living in an isolated farmhouse with no indoor plumbing, no phone, and little heat, Woods and his grandfather helped each other to survive. These challenging early experiences helped the young Woods become a determined, perseverant man. Woods started out as a postal clerk, and despite not having a college education, he went on to found his own successful insurance business, Woods & Grooms, Inc. Along the way, he married his favorite post office patron and had a family of his own. His climb to ultimate success was riddled with many failures, including near bankruptcies and unsuccessful forays into raising horses and running a flight school. But more than a story of the American dream – of a man who, like many, started with nothing and went on to achieve success and serve his community- this is a love story, not just between Woods and his wife of more than 50 years, but between Woods and America. At the age of 66, he decided to walk across the country from east to west, determined to see its roads again close up and meet its inhabitants in person. He wanted to see the country not as politicians and lobbyists were formulating it, but see it as a land of individuals who had their own values, their own opinions. In 2010, Woods again walked across the United States, from north to south, a testament to what a stout heart, a devoted wife, and a few good pairs of sneakers could accomplish. This is the tale of a long, winding journey. Readers of Woods' story respond to the at times heartbreakingly honest narrative, to the tale of a life of struggle, triumphs, failures, and tragedies, but most of all they are inspired by the can-do spirit of a man who insists we all keep moving.
