

## The Oxford English Grammar By Sidney Greenbaum

This handbook provides an authoritative, critical survey of current research and knowledge in the grammar of the English language. Following an introduction from the editors, the volume's expert contributors explore a range of core topics in English grammar, beginning with issues in grammar writing and methodology. Chapters in part II then examine the various theoretical approaches to grammar, such as cognitive, constructional, and generative approaches, followed by the chapters in part III, which comprehensively cover the different subdomains of grammar, including compounds, phrase structure, clause types, tense and aspect, and information structure. Part IV offers coverage of the relationship between grammar and other fields - lexis, phonology, meaning, and discourse - while the concluding part of the book investigates grammatical change over time, regional variation, and genre and literary variation. The handbook's wide-ranging coverage will appeal to researchers and students of English language and linguistics from undergraduate level upwards.

This book is intended for teachers of English.

The second level in the Oxford Practice Grammar series. Grammar structures are explained in detail with extended practice activities to build your confidence.

?????:Basic English usage

"A grammar practice book for elementary to lower-intermediate students of English"

New Oxford English Grammar is Oxford's brand new and definitive guide to grammar usage. This book has been written by a leading expert in the field, covers both British and American English, and makes use of the unrivalled language monitoring of Oxford's English Dictionaries programme. Arranged in three clear parts for ease of use, its comprehensive coverage ranges from the very basic to the most complex aspects of grammar, all of which are explained clearly and engagingly. This descriptive source of reference is invaluable for those with an interest in the English language, undergraduate students of all disciplines, and for anyone who would like a clear guide to English grammar and how to use it.

This book is an accessible and authoritative A-Z that provides up-to-date definitions of over 1,600 current grammatical terms, with hundreds of useful example sentences and helpful quotations from the scholarly literature. An invaluable guide to all those interested in the English language.

?????????

An A-Z of 1,000 English grammatical terms, including current mainstream terminology, older, traditional and many new, controversial terms plus coverage of wider linguistics items. Concise definitions are accompanied by more detailed explanations with examples of usage and many quotations from grammar books. Now available in paperback this book should be found on the shelves of all those with an interest in the English language

Each section opens with a lively presentation page which introduces the point of grammar. Grammar explanations are short, clear and easy to remember. Colour is used to highlight grammatical contrasts. Each grammar explanation is followed immediately by an activity, so that students can practise before moving on to the next explanation. Engaging practice activities include internet exercises which enable students to see how language is used in real life, and personalisation activities allow students to use the grammar to talk about themselves. The interactive e-books allow students to do all the exercises on a tablet or computer, both online and offline.

Recordings of texts provide added listening practice.

The Oxford Guide to English Grammar is a systematic account of grammatical forms and the way they are used in modern standard English. It is designed for learners at intermediate and advanced levels and for teachers, and is equally suitable for quick reference to details or for the more leisurely study of grammatical topics. The emphasis is on meaning in the choice of grammatical pattern, and on the use of patterns in texts and in conversations.

Oxford Practice Grammar knows that students need different types of explanation and practice at each stage of their study. Advanced gives challenging practice activities and in-depth explanations. Great for classroom or self-study and it helps you prepare for standard exam questions asked in CAE, CPE, TOEFL, IELTS and other advanced-level exams.

Covers written and spoken British and American English and reviews grammar, usage, punctuation, and phonetics

This advanced English grammar course features: short, clear explanations that are easy to remember; real examples to show how grammar works in practice; engaging practice activities including Internet exercises, grammar in a text, and vocabulary; grammar for reading, writing, and speaking; and a pronunciation CD-ROM.

Oxford English Grammar Oxford Modern English Grammar Oxford University Press

Put theory into practice with with exercises which test your knowledge and challenge your understanding

Each of the 180 grammar topics is organized into 2-page sections Explains how the grammar for each topic is used and how to avoid mistakes Includes a tip to help students sound more natural Covers the topics students need to know for the Cambridge ESOL exams (FCE, CAE and CPE).

This book shows how grammar helps people communicate and looks at the ways grammar and meaning interrelate. The author starts from the notion that a speaker codes a meaning into grammatical forms which the listener is then able to recover: each word, he shows, has its own meaning and each bit of grammar its own function, their combinations creating and limiting the possibilities for different words. He uncovers a rationale for the varying grammatical properties of different words and in the process explains many facts about English - such as why we can say I wish to go, I wish that he would go, and I want to go but not I want that he would go. The first part of the book reviews the main points of English syntax and discusses English verbs in terms of their semantic types including those of Motion, Giving, Speaking, Liking, and Trying. In the second part Professor Dixon looks at eight grammatical topics, including complement clauses, transitivity and causatives, passives, and the promotion of a non-subject to subject, as in Dictionaries sell well. This is the updated and revised edition of A New Approach to English Grammar on Semantic Principles. It includes new chapters on tense and aspect, nominalizations and possession, and adverbs and negation, and contains a new discussion of comparative forms of adjectives. It also explains recent changes in English grammar, including how they have replaced the tabooed he as a pronoun referring to either gender, as in When a student reads this book, they will learn

a lot about English grammar in a most enjoyable manner.

This handy guide provides the basic information about grammar and punctuation that people need on a daily basis. Arranged in an easy-to-use two-colour A-Z format, the book contains entries for standard grammatical terms and deals with specific questions of usage such as the difference between 'may' and 'might' or 'that' and 'which'.

Provides students with the functional grammar they need to succeed in their academic studies, whatever their chosen subject Reviews and consolidates the key grammatical areas needed for essay writing and presentations such as modal verbs, noun phrases, conditionals, and relative clauses Suitable for students across a wide range of disciplines, e.g. business, finance, history, natural sciences, engineering, technology Demonstrates and practises how to use strategies for academic writing and speaking such as comparing and contrasting, arguing and persuading, talking about cause and effect, and paraphrasing Detailed answer key includes model answers to extended writing tasks Quick test yourself exercises provide practice of specific grammar points Tips highlight extra information worth remembering Academic Word List glossaries help with learning high-frequency academic vocabulary used in the 'Challenge yourself' exercises Supports all levels of Oxford EAP but works effectively as a supplement to any course or for independent study

The Oxford Dictionary of English Grammar is a straightforward and accessible A-Z guide to the diverse and often complex terminology of English grammar. It contains over 1,600 entries with clear and concise definitions, enhanced by numerous example sentences, as well as relevant quotations from the scholarly literature of the field. This second edition is written and edited by Professor Bas Aarts of University College London, writer of the acclaimed Oxford Modern English Grammar. It has been fully revised and updated, with particular attention paid to refreshing the example sentences included within the text. There are over 150 new entries that cover current terminology which has arisen since the publication of the first edition, and there are also new entries on the most important English grammars published since the start of the 20th century. Hundreds of new cross-references enhance the user-friendly nature of the text, and the list of works cited has been thoroughly updated to reflect the current state of the field. A short appendix of web links has been added. All in all, this Dictionary is an invaluable guide to English grammar for all students and teachers of the subject, as well as all those with an informed interest in the English language.

The Oxford Reference Grammar is a readable and up-to-date guide to modern English grammar. Designed for native English-speakers around the world, it presents the key points from Sidney Greenbaum's authoritative work The Oxford English Grammar in a concise and accessible form for the non-specialist. The Oxford Reference Grammar gives invaluable guidance on all aspects of word types verbs, nouns, adjectives, and pronouns and word structures, including phrases, clauses, and sentences. Arranged thematically, it describes grammar as it is in use today, giving evidence of use in hundreds of quotations based on English as it is really spoken and written. Text is broken up into digestible, easy-

to-follow sections and is complemented by a full glossary of grammatical terms and an introductory chapter on the history of the English language and its grammar.
